

Saint John's Cryptogram

Today's topic is the fifteen "end time" chapters of the book of Revelation, chapters six through twenty, which Saint John organized as a secret Cryptogram. Once you understand the cryptogram, which I am going to reveal the secret of on this program, you will be able to figure out the true and accurate chronology of all the events which will happen in the very near future. For nearly two thousand years, no Protestant Bible scholar, no Catholic theologian, no pope or bishop, has ever been able to figure out the book of Revelation; mainly because they assumed that all the events are in their correct chronological order.

So let's begin with a prophecy question. Will the events prophesied in chapter seventeen actually occur before those in chapter fourteen? In chapter seventeen, an angel said to Saint John, "Come I will show you the condemnation of the great whore who sits upon many waters." Now, this great whore is Babylon, which is a symbol for end times, decadent Capitalism. By the way, please don't listen to the many false prophets out there who claim that Babylon represents the Roman Catholic Church. That is a lie from the pit of Hell.

Saint John continues in chapter seventeen, and he says that Babylon/Capitalism will be made desolate. "And the ten horns on the beast shall hate the whore and shall eat her flesh and shall burn her with fire." The beast which the Whore of Babylon rides on symbolizes atheistic Communism, and the ten horns represent the revived Roman Empire which basically, is the European Union. Notice in this passage from chapter seventeen, that all the action is in the future tense. "The ten horns SHALL hate the whore, they SHALL make her desolate, they SHALL burn her with fire."

But now, let's look back in chapter fourteen, where Saint John writes in the past tense, as if Babylon had already fallen. "And another angel followed saying, Great Babylon is fallen, is fallen". So the question is, are these two chapters out of order? Shouldn't chapter seventeen which describes the fall of Babylon in the future tense come before this passage from chapter fourteen which is in the past tense? Incidentally, the two "is fallens" refer to the two nations which will fall in World War 3, Britain and America. After studying the cryptogram, I think you will agree with me, that these two chapters, seventeen and fourteen, are indeed out of sequence.

We find another reference to Babylon in chapter sixteen. "And great Babylon came in remembrance before God to give to her the cup of His wrath." Here in chapter sixteen, the downfall of Babylon is remembered by God, even though it does not actually take place until farther on in chapter eighteen. Again, once you understand Saint John's cryptogram, you will realize that this cup of God's wrath cannot fall on Babylon until at least seven years after the events in chapter eighteen.

One more example: in chapter seventeen Saint John sees the beast from the bottomless pit, which is the one world communist tyranny, sat upon and controlled by the great Whore of Babylon, which, as I said, stands for our own end times, decadent Western Culture. "And I saw a woman sitting upon a scarlet colored beast full of the names of blasphemy." But way back in chapter eleven, this same beast, from the bottomless pit assassinates the two prophets, Enoch and Elijah. After studying Saint John's cryptogram, you will clearly see that these two chapters, eleven and seventeen, must be read in reverse order, because World War 3 will occur before Enoch and Elijah return to Earth. Incidentally, it is the beast from the bottomless pit, that is the one world communist government, which will kill the two prophets and not the Antichrist, as so many other Biblical scholars mistakenly claim.

Now, let's take a closer look at Saint John's secret cryptogram which is how he organized the fifteen end time chapters of the book of Revelation. They are in a secret cryptogram which was meant to be unraveled in these latter days, so that all of us can understand the events which are about to transpire upon Earth. Let's see how this cryptogram works: at the beginning, just as it is in your Bibles, the first seal is the White Horse of Apostasy. The second seal is the Red Horse of War, the third seal is the Black Horse of Famine and the fourth seal is the Pale Horse of Death.

Following the fourth seal comes the fifth seal, the sixth, there's an interlude, and then the seventh seal. Following the seventh seal, comes the first trumpet, second trumpet, third trumpet, fourth trumpet, fifth trumpet, sixth trumpet, interlude and seventh trumpet. Following the seventh trumpet, we see the great sign, woman flees the dragon and beasts from sea and the land. The beast from the sea, of course, is the Antichrist; the beast from the land is the false prophet. And, finally Jesus returns on Mount Zion for Armageddon.

Following these great signs, the woman and the beast from the sea and the land, comes the first Herald Angel. Now, most Bible scholars don't realize it, but in addition to seven seals, seven trumpets and seven bowls, there are seven hidden angels.(1) The first herald angel, the second, third and a fourth. Following the first four herald angels, we come to the first bowl, the second bowl, third bowl, fourth bowl, fifth bowl, sixth bowl, the interlude and seventh bowl. Finally, the fifth herald angel, sixth herald angel, another interlude, and a seventh herald angel.

This cryptogram, as it is printed here, is exactly the same sequence as it is in your Bibles, but, that is not how we must read these events for the end times. Saint John does not want us to read these events vertically; instead, we must read them horizontally. In other words, after the first seal, does not come the second seal, but rather the fifth seal. Following the fifth seal, comes the first trumpet. Following the first trumpet, comes the fifth trumpet. Following the fifth trumpet, comes the great sign, the first herald angel, the first bowl, the fifth bowl and the fifth herald angel. All the events on the top line have to do with the great apostasy. All the events on the second line have to do with the great war, World War 3. If we read Saint John's cryptogram correctly, we will understand the true chronology of the end times.

Now, let's take a look at the questions that we posed at the beginning of the program. For example, in chapter seventeen, the harlot rides the beast, but, back in chapter fourteen, "Babylon is fallen, is fallen", the angel says. On the cryptogram chart, the sequence is correct: seventeen comes ahead of fourteen, whereas in your Bibles, of course, fourteen comes before seventeen.

Let's look at when God remembers Babylon. Down below (on chart), God remembers Babylon, but up above (on chart), Babylon rides the beast. In other words, sixteen should come after seventeen and eighteen. The third example I mentioned, the beast from the bottomless pit, is here (on chart) introduced and ridden on by Babylon/Capitalism. But, over here (on chart), the two prophets are slain by the beast from the bottomless pit. Obviously, the beast from the bottomless pit kills the two prophets after being introduced back in chapter seventeen. The cryptogram chart has the correct sequence, but, of course, in your Bibles, chapter eleven comes before seventeen. And there are many, many more examples that I could give.

(1) The seven hidden, herald angels, announce the seven thunders which Saint John is told to "seal up".
