

God Warns America Through Dianne Reidy

Now, first of all I want to apologize a little bit for my throat, I've probably had the flu this last week. I've been under the weather. So, bear with me because today's message is very, very important because in the past week or so, God has given America several very critical warnings about the End Times. And the most important of these was given by a stenographer, Mrs. Dianne Reidy, before the United States Congress. And she addressed Congress during the height of their vote this past week in support of Obamacare and in raising the debt limit. This was a very important vote and probably the last time America will have a chance to ever defeat Obamacare.

Mrs. Reidy is a stenographer in the Congress but her address to Congress was not really authorized and she was dragged from the podium by several security police. However, it is my opinion that Mrs. Reidy's address to Congress was the most important ever given before that body because her address was inspired by the Holy Spirit. And on this program I want to discuss the seven critical parts of that speech because that speech is what will save America. God not only is warning us through Mrs. Reidy but also giving us the solution. Pay attention very carefully to this particular program.

But, before I examine the seven important parts of Mrs. Reidy's inspired speech, I want to look at several other warnings from Almighty God. First, there was that bus crash in Pennsylvania where one person was killed and 44 injured and of course 44 is an important number in Bible prophecy because it refers to our President, Barack Obama, and also the United States as found in Daniel, chapter 7, verse number 6.

And then there was that plane crash in Laos where 5 crew members and 44 people were killed. Again, notice that number. God often speaks to us through numerology. But please don't blame God for these tragedies. God uses these events as warnings even though they were caused by human failure. And God sometimes gives us warnings through sporting events as I have mentioned many times on this program.

And several of my subscribers pointed out to me that famous, by now, home run that David Ortiz hit in the American League Championship Series between Boston and Detroit. His grand slam home run was almost caught by Torii Hunter and as you look at these clips, I want

you to notice three things. First of all, notice that when Torii Hunter falls over the outfield fence, his legs make a somewhat of a V-shape and they are right next to a V-shape made by the outstretched arms of the policeman in the Boston bullpen. That forms a W and that W stands for Warning.

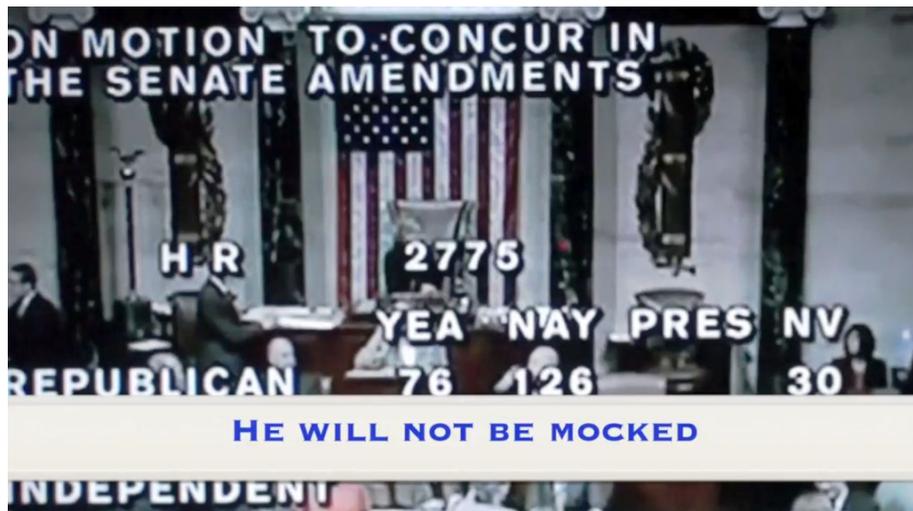

Next, I want you to notice that when David Ortiz crosses home plate, he points to heaven, as he usually does, giving thanks to Almighty God and that means that this warning to America came from God. And lastly, I want you to look at Torii Hunter's number on his uniform. Don't forget that Barack Obama was born on the 4th day of the 8th month.

So thanks again to my subscribers for bringing this incident to my attention, and I agree with you, this is a warning from God that America and Barack Obama are about to fall just like number 48, Torii Hunter, fell over that outfield fence. Now that kind of warning indicates to me that God has a certain sense of humour. And I know a lot of you have been upset by that in the past. You complain: *'Why doesn't God give us a really clear, written precise warning? Why doesn't He send a giant email across the sky so everyone can see it?'*

Well, now, Almighty God has given us clear specific warning through His messenger, Mrs. Diane Reidy as she addressed the United States Congress. She said in the weeks beforehand, the Holy Spirit would wake her up at night. She was carrying a tremendous burden and she felt relieved after she had given her message to us, and we should be thankful to her. Now listen to these words very, very carefully because God is not only warning us, He is telling us the problem with America but He is also giving us the solution.

"He will not be mocked! He will not be mocked! (Don't touch me.) He will not be mocked! The greatest deception here is this is not 'one nation under God.' It never was... Had it been, it would not have been... (No!) It would not have been... Constitution would not have been written by Freemasons. They go against God. You cannot serve two masters. You cannot serve two masters. Praise be to God, Lord Jesus Christ. Praise Forever."

Now, let's take a look at the 7 main points which the Holy Spirit was making through Mrs. Diane Reidy. First of all, she said: ***'He will not be mocked,'*** and she said that three times, and that is a direct quote from Scripture, Galatians, chapter 6, verse number 7. And what she meant by that was that this passage of Obamacare and the raising of the debt limit was an affront to Almighty God. He did not approve of these proceedings. Mark my word, this is the last time America will have a chance to defeat Obamacare.

And Mrs. Reidy continued: ***'The greatest deception here is that this is not one nation under God.'*** Well, I have always considered America to be a Christian nation but she may be right, perhaps the nation is not under God. And she continued: ***'It never was.'*** Well that's a very interesting claim that America was never under God. How does she justify that very serious accusation? ***'Had it been, it would not have been... it would not have been... the Constitution would not have been written by Freemasons.'***

I believe we now come to the crux of what the Holy Spirit is telling us. Our nation was not founded on Godly principles, it was founded on the principles of the Freemasons, and the Freemasons are a humanist

organization. They are not God-centered and that has tainted our foundation; our American Constitution which says, 'we the people' points to humanity and not to the Divinity. This is a very serious charge and we must rectify this situation.

And Mrs. Reidy continued: '**They go against God,**' the Freemasons are against Almighty God.' **You cannot serve two masters,**' And Mrs. Reidy stated that twice, '**You cannot serve two masters,**' and that is another quote from Scripture from Matthew, chapter 6, verse 24, and Luke, chapter 16, verse 13. So what is the solution? Almighty God is telling us that we have to change the Constitution.

And then Mrs. Reidy concluded by saying: '**Praise be to God, Lord Jesus Christ, Praise forever.**' Now it took an awful lot of courage for Mrs. Reidy to stand up there in front of Congress and listen to the promptings of the Holy Spirit rather than to think about all of the insults that would be hurled at her the next day, especially in the news media. The politicians in Washington do not want to hear what the Holy Spirit is thinking about them. And I admit, she was not authorized to address Congress, but then again, was Jesus authorized when He overturned the money changers tables in the temple?

The next question is: Do we have courage? Will we accept what the Holy Spirit is telling us? That our Constitution is flawed, that it has to be changed, that the problems in America go way back to the fact that our footing was based on principles of Freemasonry and not on the principles of Almighty God.

So, in conclusion, I believe God is telling us that we cannot save America through the Presidency, or through the Congress, or through the courts. We are going to have to convene a Constitutional Convention (1). We have got to change the foundation of America from Masonic humanist principles to Godly principles. And I want to thank the courage of Mrs. Reidy for standing up there and putting her life on the line. Will we have the courage also to change the Constitution of the United States? That is our only hope.

1) I now believe the drastic solution of a Constitutional Convention has been precluded by the election of Donald Trump.
