

## Obama Confirms he is 444 in Bible Prophecy

2,500 years ago, the greatest of the Old Testament prophets of the End Times, Daniel, prophesied that the third beast to come up out of the sea would be the United States of America. It would be symbolized by a Leopard which had four heads and four wings and that Leopard would also symbolize our last President, Barack Hussein Obama. And I have been patiently explaining this prophecy, ever since Obama was first elected on the 4th of November as the 44th President of the United States and God has been verifying my interpretation ever since then, also.

For example, when Barack Obama accepted the Nobel Peace Prize, he used the word "war" 44 times. That was not accidental. And now, just last night, President Obama once again confirmed he is the Leopard in Daniel 7, verse number 6. He gave a Commemorative Speech in Newtown, Connecticut for those 26 victims of that Sandy Hook Elementary School shooting and he used the word "fourth" three times. Once again, President Obama is telling us who he is in Bible Prophecy. Let's take a look at this amazing excerpt from that speech: *'Since I've been President this is the fourth time we have come together to comfort a grieving community torn apart by mass shootings, fourth time we've hugged survivors, the fourth time we've consoled the families of victims.'*

Did you hear that America? How many times does God have to tell you who Barack Obama is? How many times do I have to explain that the United States and Obama are both symbolized by the Leopard in Daniel 7, verse number 6? The leopard has 4 heads and 4 wings. Obama is the 44th President elected on the 4th of November. Let's hear that again: *"This is the 4th time, 4th time we've hugged survivors, the 4th time..."* And so, America, I am here for perhaps the last time warning you that Barack Obama is the Leopard in Daniel 7, verse number 6, and he is the last King of the South in Daniel 11, verse number 40, and he will be followed by number 666 who is, of course, the Antichrist.
