

## Dana Coverstone's "Billboard Dream" and the "Great Sign" in Revelation 12

In this program, I want to talk about Dana Coverstone's most recent dream which is short but very significant, and it appears to be a prophecy of the upcoming seven-year anniversary of the Revelation 12 sign. That incredible sign of a "Woman clothed with the sun" appeared on September 23rd, 2017.

For those of you who follow this channel, you know I was the first to discover that "Great Sign" as it appeared in the constellations of Virgo and Leo. I found it in the computer program called "Stellarium" and I posted the very first YouTube [video](#) about it on April 7, 2011, which I called "Stellarium". Since then, thousands of videos about this amazing fulfillment of Bible prophecy have been posted on YouTube, and here is another [link](#) to one of the more interesting of those videos. Of all the signs in the Bible, Scripture calls this sign in Revelation 12, the "Great Sign".

However, that by now famous fulfillment of Bible prophecy seven years ago, did not appear to be the earth-shattering development that many people, including myself, had anticipated at that time. Now, Dana's new prophetic dream indicates that our preliminary "so what" attitude may be about to change. As I go through Dana's dream, slide by slide, I will explain what I perceive to be its important relationship to that Revelation 12 prophecy. I have broken down Dana's dream into ten different slides. So let's go through them one by one. (Slide number 1)

**1) "Over the last week and a half, eight or nine days, I had a dream where I was standing on the shore of an ocean; I don't know if it was the Atlantic or Pacific it doesn't matter. But way, way, way, way out in the ocean, I saw a billboard, like 50 feet above the water."**

In his first sentence, Dana uses significant Marian numerology. "Over the last week and a half" indicates 1.5 weeks and since decimals are always eliminated in Sacred numerology, the resulting number of "15" equals 5 plus 5 plus 5, and 555 represents the 5 joyful, 5 sorrowful, and 5 glorious mysteries in the original rosary, as I have demonstrated countless times on this channel. 555 will defeat 666 in these End Times. Jesus saves us from sin but Mary saves us from Satan.

The next phrase, "eight or nine days" tells us that the time expressions in Dana's dream may not be exact. In other words, the seven-year anniversary of the Great Revelation 12 sign will occur exactly seven weeks after Dana's dream. But since his dream extended over "eight or nine days", it's hard to pinpoint the precise timeline. I believe this repetition of the number 7 is the first indication that Dana's dream and the Great Sign in Revelation are related. We will find later on in Dana's telling of his dream a third repetition of the number seven. Three repetitions in apocalyptic prophecy usually express a Divine significance.

The phrase “Atlantic or Pacific” means that his prophetic dream applies to all of America, not just one coast or another. It could even apply to the entire world. Four repetitions of the phrase “way out” indicate that Dana’s dream is an End Times prophecy. As another example, there are “four horsemen of the Apocalypse.” Four and seven are the two most important numbers in End Times apocalyptic prophecy.

The word “billboard” is the second indication that Dana’s dream relates to Revelation 12 because: what is a billboard? A billboard is a “Great Sign”. The billboard height of 50 feet above the water is the third reference to the Revelation 12 sign because 50 is the number of Hail Mary’s in a five-decade Rosary. Most Bible scholars admit that the “Woman clothed with the sun” represents the Blessed Virgin Mary. Incidentally, this “Great Sign” appeared in the constellation “Virgo” which means Virgin. I should add that the Woman also represents our Remnant Catholic Church. (Slide number 2)

**2) “In the dream I started to walk into the water and the water started to recede. And it kept going further and further out from me, and the further I went, the more I realized that I was actually descending, you know, going down, down, down, down, down.”**

That receding water line is a sure sign of an incoming tsunami. However, this tsunami must be a symbolic disaster because Dana says the name of the ocean “doesn’t matter”. In other words, it will affect all of America, not just the Eastern or Western seaboard. In fact, it may well represent the entire world.

Also, Dana seems unconcerned that this receding of the ocean signals a tsunami because he walks right out into the ocean rather than fleeing away from the shore. Is this impending disaster somehow associated with the Great Sign in Revelation 12? In Revelation 12, the Woman flees. Is this symbolic tsunami the event that the Woman is fleeing from? The five repetitions of the word “down” is a second reference to Mary’s Rosary because one complete rosary consists of five decades. (Slide number 3)

**3) “And I got to a place where I saw it said, [that is, the billboard]: ‘2000 feet below sea level’. And the ground was dry. Even though it should have been muddy, it wasn’t. I just kept walking down and down and down. And finally, when I get to the very bottom, I look up at the billboard, which seems like it’s 100 feet above me, and the billboard says, Economic Desert. Economic Desert”.**

So, here in slide 3, Dana describes two billboards. The symbolic tsunami disaster causes an economic desert, probably indicating a recession or more likely a depression. In Revelation 12, the Woman also flees into a desert. Is that the same desert that Dana is walking into? Will the seventh anniversary of the Great Sign on September 23rd, 2024 mark the beginning of an economic catastrophe for America? The two numbers in this slide number 3, both refer to Mary in Bible prophecy. One hundred feet expresses one hundred Hail Mary’s or two complete Rosary mysteries and 2000, symbolizes 40 complete rosaries.

[not 10 complete rosaries, because the consistent math goes like this:

100' = 100 Hail Mary's, divided by 50 Hail Mary's to a mystery = 2 full Rosaries.  
2000' = 2000 Hail Mary's, divided by 50 Hail Mary's to a mystery = 40 full Rosaries.]

(Slide number 4)

**4) “And I reached down to the ground to pick up what looked like mud; and when I did, it was dry. And I picked it up in my hand; I looked at it. And I opened my hand up; and when I did, it was like dried mud in my hand, turned into sand, and the wind just kind of blew it away. I turned around to walk back out of what I guess was this ocean bed. And I saw like a vision within the dream.”**

It should be clear by now this is not an ocean bed but somehow along the way it has changed into a sandy desert. So, Dana’s guess was incorrect even though, at the beginning of his dream, he waded into an ocean. Next, Dana relates his vision within the dream. (Slide number 5)

**5) “I saw a street, a busy street. And I saw cars just driving back and forth. I saw cars, I saw people out on bikes, running, doing this, doing that. And then it changed. It was changed [snaps his fingers] just like that! And I see cars parked on the side, and I see people walking; not a whole lot of people, just a few. I see trash thrown all over the place. “2000 feet below sea level” was what it said.”**

It’s interesting that Dana repeats the writing found on the second billboard even though it seems to be an insignificant comment in the context. However, it will prove to be part of a significant numerology message. Also, if Dana’s dream reflects the Great Sign in Revelation 12, will the seven-year anniversary date of September 23, 2024, mark a particular day when the normal hustle and bustle of American life, changes suddenly overnight? (Slide number 6)

**6) “And so, I see trash everywhere, and I see people walking, and they've got ...If you remember, in the '70s and '80s, they used to have these brown paper bags for groceries; (and I remember that well, myself) and, if you remember, those grocery bags were tough... I mean, you couldn't put like a live raccoon in it and bring it home! but, you know, they were pretty tough.”**

Now, the next three slides, seven through nine, describe a worsening food crisis. (Slide number 7)

**7) “And so, I saw people with grocery bags. And, you know, they’ve got one, two, or three bags, and they're walking back and forth. All the cars are parked; cars aren't moving. And I see people with two and three bags of groceries. They're going both ways. And they're taking them up in their homes and apartments, and everything else.” (moving on to slide number 8)**

**8) “Then, it seems like a day or two passes (and it's just in the dream, you know). Next thing I know, I see people that are walking with one bag – not two or three, but with one bag. Then, I see people walking, and they have no bags. I see people going up to ATMs, and they're trying to get money out, and nothing's being spit out. I see a couple of places.”**

When Dana says “a day or two”, it probably symbolizes one or two weeks or maybe even one or two months. It's interesting that this economic crisis leads primarily to a food shortage instead of, let's say, housing or clothing deprivations. But does that line up with the plight of the Woman in Revelation? Let's read Revelation 12, verse number 6: “And the woman fled into the desert where she had a place prepared by God, that they should FEED her there a thousand two hundred sixty days.”

Now, God's angels would not have to feed the Woman unless Dana's prophecy is accurate and food shortages are the primary result of Dana's symbolic tsunami. But, neither Dana's prophecy nor the Book of Revelation tells us what causes the food shortages. Do they indicate nuclear war perhaps? Or maybe they indicate another disastrous Democrat presidency that adopts failed, communist-style economic policies. In any case, it tells us that we all need to protect ourselves inside safe refuges where God will feed us through His angels. (Slide number 9)

**9) “There's one guy that stands out in my mind who was in, like, a checkout line. And there was a line of people, a big line of people behind him; and they were obviously in a hurry. And the guy's at the checkout. And the scanner's not working. I remember the lights were on, but the scanner wasn't working.”**

So, maybe the food shortages are caused by the power grid partially going down? No matter what, we all need to store food. (Slide number 10)

**10) “And there was a sign that said, ‘Cash Only’. And this guy opened his wallet (it's like a bi-fold); and when he opened it up, it was empty. And he looked at his wallet and began to cry, and he just walked out. And at that moment, I saw that sign again that said, 'Economic Desert. Economic Desert'.”**

So once again, Dana repeats the words on one of the billboards. In addition to the two billboards, this new sign, “Cash Only”, is the third sign in Dana's dream. Three is God's number and it verifies there is a connection between Dana's dream and the Revelation 12 Great Sign prophecy. Mary's number 5 is indicated by the two repetitions of the first billboard plus two repetitions of the second billboard plus one telling of the third sign.

Even more significant is that each time Dana describes the wording on the second billboard he repeats it twice: “Economic Desert, Economic Desert”. Therefore Dana repeats three sign messages for a total of seven times.

- 1) “2000 Feet Below Sea Level”
- 2) “Economic Desert”

- 3) "Economic Desert"
- 4) "2000 Feet Below Sea Level"
- 5) "Cash Only"
- 6) "Economic Desert"
- 7) "Economic Desert"

Thus in addition to the seven-year anniversary date coming up, and the seven-week separation between Dana's dream and that seven-year anniversary, now we find seven repetitions of the signs' titles.

Now none of this numerology is accidental. It indicates a divine relevance. Now, I could be wrong, but I don't believe Dana's dream refers to next year or the year after. Seven weeks from Dana's dream points to the seven-year anniversary of the Great Sign as it originally occurred in the sun, moon, and stars on September 23, 2017, and as I explained in my video "Stellarium". Thus I wouldn't be surprised if we get another manifestation of the number 7, which would provide a third repetition of that apocalyptic number. For example, will the food shortages last for seven months?

Also, I want to insert at this time, besides the Woman in Revelation 12, symbolizing Mary and the remnant Catholic Church, the child she brings forth represents the raptured Protestant Church. So, if I am right, and Dana's prophetic dream provides many important insights into our understanding the End Times flight of the Woman in Revelation 12, we will soon find out. Thus, we see Dana's Billboard Dream, combined with Saint John's narrative in Revelation 12 could be the prophecy that finally reveals the exact chronology of the Biblical "Great Sign" starting this September 23rd, 2024.
