

Babylon (America) Sits on Real Bodies of Water

I have this easel set up and I'm going to be using it in a few minutes but first I want to read an email I got from one of my subscribers, in fact, it was a comment on my last video, from Brad Myers, and he suggested that the 'many waters' which the Whore of Babylon sits on are symbolic and they are not real and I've always said, no, they are real waters. The Whore of Babylon represents primarily the United States and those 'waters' are the Atlantic Ocean, the Pacific Ocean, the Gulf of Mexico and the Great Lakes. So, let me read his letter and see if I can't respond to it; and under his name, Brad Myers, he's got 'United States Conference of Catholic Bishops'. I'm not sure if that means he represents them or he is using them as a source, but anyway, he mentions them and he quotes from Revelation 17, verse 15 from the NABRE Bible which is a 2011 Catholic Bible, I don't care much for the translation but it's fairly accurate as far as Revelation goes: ***'Then he said to me, the waters that you saw where the harlot lives represent large numbers of peoples, nations and tongues*** (well, so far so good, and he comments) ***the angel clearly explains to us, and to the Apostle John, that the waters represent large numbers of people, nations and tongues, not waters associated with large bodies of water.*** Well, where does it say that, Brad? You added that; don't add to Scripture. It does not specifically say that it is not large bodies of water and I'm going to prove in a minute, through my little chart I'm going to draw for you, that in fact the large bodies of water, the 'many waters', does indeed refer to real bodies of water. And Brad continues: ***'the great harlot in Revelation 17 and 18 must refer to the future*** (now that's true) ***because no city in history has ever been destroyed like what is described in Revelation 17 and 18***'. Now, the only problem here is that the Whore of Babylon is a country, not a city; in fact, it's more than one country. And that's not unusual for John to interchange cities and countries. For example, he calls Jerusalem a 'Sodom and an Egypt'. So he mixes up, or interchanges, cities and countries and, for another example, Ronald Reagan called the United States a ***'shining city on a hill***'.

And Brad continues, Revelation 17:9, again this is from the NABRE edition: ***'Here is a clue for one who has wisdom. The seven heads represents seven hills*** (no argument there) ***upon which the woman sits they also represent seven kings.*** And yes, that is very important symbolism, and I'm going to use that in just a minute. ***'Now here is the note on this verse from the USCCB, here is a clue; literally here is***

the mind that has wisdom, seven hills of Rome. And I agree 100%, the seven hills do indicate Rome; but the seven hills belong to the Scarlet Beast. Don't forget, the Scarlet Beast has seven heads and those seven heads symbolize seven hills and seven kings, not the Whore of Babylon. The Whore of Babylon is located geographically on 'many waters'.

And then Brad gets into the prophecy of Saint Malachy, which is not Scriptural, but it is pertinent in this case. (And it's kind of windy; I don't know if that's going to affect the microphone or not. In fact, it's been lightning and thundering all day so, if I suddenly bail out of here, don't be surprised.) ***'In the final persecution of the Holy Roman Church there will reign Peter the Roman who will feed his flock amid many tribulations after which the seven hilled city will be destroyed and the dreadful judge will judge the people, the end.'***

Well, I agree with that; Rome will be destroyed. But just because it's destroyed doesn't mean it refers to the Whore of Babylon, which is also destroyed. Rome will be destroyed at the end of the tribulation period whereas the Whore of Babylon is destroyed near the beginning of the tribulation. And Brad also refers to Our Lady of La Salette: ***'Rome will lose the faith and become the seat of the Antichrist'***. I agree 100%, but nowhere in the Book of Revelation does John say that the Whore of Babylon becomes the seat of the Antichrist. In fact, just the opposite! He says the Scarlet Beast becomes the seat of the Antichrist and that verifies what I am saying: the Scarlet Beast is headquartered in Rome and if you don't believe me, read Revelation 17, verse number 17.

Okay, so now I want to use my clipboard here and demonstrate mathematically, so to speak. And Robert Breaker uses this method and he got five million views on his video where he promised to tell you what was going to happen on September 23rd. He never did tell you what happens but there's no reason why I can't get five million views because I'm going to use a clipboard too. And Glenn Beck likes to use clipboards. And this goes back to, for you old-timers, you may remember, Bishop Fulton J. Sheen. And he was very popular. So let me start the way Bishop Sheen always started; and he would put on top, 'J MJ'. And I'm sure you old-timers know what that means, you may know anyway; it means: 'Jesus, Mary and Joseph'. So, in a lot of End Times Bible prophecy you have to figure out the problem, and it's almost like an algebra problem. Let me give you an example: x over 10 equals 1 over 2. Now that's a very simple algebra problem and when

you solve it for x: x equals 5. And John did the same thing with the False Prophet; he lets us know that the False Prophet is a Cardinal in the Roman Catholic Church by associating him with the color red even though he never says that. But if you figure out that Satan, the Red Dragon is red, the Scarlet Beast is red and either the False Prophet or the Antichrist must be associated with the color red, and if you do the calculation, it must be the False Prophet; a calculation very similar to this algebra problem.

So let's see how it works as far as determining if the 'many waters' is real or symbolic. Let's put on the left side of the equation 'many waters'. (I don't know if you can hear me say that because I'm speaking away from the microphone, 'many waters'.) And a location for: this is the location for the Whore of Babylon. The location for the Scarlet Beast is on seven hills, and that's right out of the Book of Revelation. The question is: are the 'many waters' real. 'Many waters' equals 'peoples, nations and tongues'. And the 7 hills also symbolize 7 kings. (I told you the lightning and thunder was coming. I don't know if

JMJ

$$\frac{x}{10} = \frac{1}{2}$$

$$\frac{\text{MANY WATERS}}{7 \text{ HILLS}} = \frac{\text{PEOPLES,}}{7 \text{ KINGS}}$$

you could hear that or not.) And this is exactly what the Book of Revelation says. And we know the 'peoples' are real and the same with the seven kings. In other words, they are both real: there's a relationship there. Two locations: location of the Whore of Babylon and the

Scarlet Beast. The peoples are individuals, the kings are individuals. Over here we have seven hills, they are real hills. Brad and everyone else will acknowledge that. So if these are the same, these would be the same and therefore, the 7 hills are real 7 hills, the 'many waters' are real 'many waters'. Now, John doesn't say they're real, as Brad noted, but if you do the algebraic equation then you realize if you solve for X, the 'many waters' must indeed be real. And that's my lesson for today, so to speak, and I expect five million views on this video. Brad had several other questions; I don't have time on this program maybe on the next program.
