

## Crucified Obama: Blasphemy or Blackmail?

As I have promised, I am trying to make many more videos than I did in the past because I have a lot to catch up on. On this program I want to talk about some of the warnings being given to Barack Obama that his life may well be in danger and the most recent of these is a painting which went on display this week at the Bunker Hill Community College near Boston which shows Barack Obama in a crucified position, much like Jesus Christ.

Of course, many Christians have objected to this as blasphemy: people like Bill Donahue and Glenn Beck, and they are right. This is a mockery of Jesus Christ, but I am also very much afraid that it has very serious implications for Barack Obama. I believe it is a message from the New World Order to our President: *'Either you do what we say or you will be martyred.'* In fact, I am very much surprised that the Secret Service has allowed this painting to be hung.

Let's take a closer look at this because I think you will see that there are an awful lot of demonic images included in this painting. The crown of thorns on Barack Obama's head marks this unmistakably as a mockery of the crucifixion. Some people say the artist is trying to show that Obama is the Antichrist or that he is actually divine, like Jesus Christ. Let's look at some of the demonic imagery in this painting, for example, the letters spell out 'Seal of the President of the United States', but what's interesting is the letters which are covered up: S, E, P, R I, T and E, S. Except for one letter, that spells 'SPRITES' and, of course, sprites are demons.

Let's look at the number of stars; and here we have 4 stars showing, over here we have 7 stars showing. 4 and 7 are the two most important numbers in End Times Bible Prophecy; for example, the book of Revelation is built around a numbering structure of 4 and 7. And back here we have 18 stars which indicate the Antichrist or in other words, 6 plus 6 plus 6. And over here, we have an interesting eagle's wing. Maybe we can take a closer look at this: the eagle's wing shows two larger feathers and three smaller feathers. The 2 over the 3 and, as you, my regular subscribers know, 2 is a symbol for man, 3 is a symbol for God and when you put man over God you get the fraction 2/3's which of course equals the decimal .666.

Now, as I said, I am really amazed that the Secret Service would allow a painting like that of Barack Obama to be on public display. It is very, very dangerous to show our President crucified like that. I hope they remove the painting as soon as possible; however, that is not the first time very strange things have been put out for us by the New World Order and their minions in the artistic world. For example, and I have spoken about this painting before, this is the 'Sacrificed Leopard' at the Denver Airport, and I want to review this for just a few minutes because this is going to lead into another painting at the DIA which a YouTube subscriber recently told me contains some hidden images of Barack Obama.

Let's take another quick look first at this sacrificed leopard.

In this famous mural at the Denver International Airport, we see down here the birth of the Antichrist and at the same time we see this sacrificed leopard. It was my posted video analysis of this painting that got me in trouble with Anderson Cooper and Stephen Colbert because I pointed out the sexual imagery on this side of the painting. Over here there is a map of Russia and these children are overseeing the sacrifice of the leopard which symbolizes Barack Obama and the United States.

Now I'm not sure how much the artist of that painting, Leo Tanguma, knew what he was doing. The sacrificed leopard, or Jaguar in this case, does symbolize Barack Obama because Obama is the Leopard in Daniel, chapter number 7; but this painting was made before Obama was elected even as State Senator. Of course I believe he was groomed long before then by the New World Order and perhaps they were the ones who told Tanguma to include a sacrificed leopard in his painting. In any event, it is certainly a very scary image to have in an airport.

And now, let's look at another amazing painting from the DIA and that's the painting of this 'Guillotine'.

These artists at the DIA are very sneaky. I don't think the artist would admit this is a guillotine blade and yet that is exactly what it is. He would probably try to tell you it's the sun shining behind this Indian teepee. I know better. This is how the New World Order plans to get rid of excess population.

And a YouTuber recently pointed out to me that in this tree there is an image of Barack Obama. Let's take a look at this amazing hidden image.

The face in this tree is definitely that of Barack Obama. Here is his forehead, here are his two eyes, here is his rather large mouth, and it's interesting that above the forehead we see two tiny horns. I don't know if the artist is saying that Barack Obama is the Antichrist or not. Over here we see what looks like two branches but they are in fact letters: they are not branches and the hidden letters are 'S' and 'L' and I believe they stand for 'Sacrificed Leopard'.

And so, Mr. Obama, I want you to know I am praying for your safety and I am urging all my subscribers to do the same. This painting at Bunker Hill of you being crucified is horrible and if I were you I would instruct the Secret Service to remove it. It is very, very dangerous. That painting is not just blasphemy, it is blackmail.
