

Dana Coverstone's Dream - How to Stop the High Tech Antichrist

Once again welcome everyone to Mary's School of Prophecy. I'm your host William Tapley. We are going to discuss a new dream which Dana Coverstone published a couple of days ago and he calls this the "We are Watching You" dream. And of course it's right out of the 1984 Big Brother, that novel by George Orwell. And that was quite a prophecy itself because it tells us what it will be like in these End Times with Big Brother watching us and that's what basically Dana Coverstone's dream is all about except that we also find the solution in Dana's dream. And I don't think Dana understands the solution, because the solution, as I've been saying for over 14 years now, here on YouTube is that Mary's Rosary is the weapon Jesus uses to defeat the Antichrist, and Dana Coverstone verifies that, in this dream.

Now before we get into the dream I want to do the housekeeping so that after the dream I can go right to the chat. Now this is for those of you who would like to contact me. My name is William Tapley and my address is Post Office Box 291 Osage, Iowa, USA 50461, and I want to thank Paula for helping me with this decode. She has become quite the expert as you know and I am sure that if I make any mistakes she will let us know.

Okay so now, Dana's dream follows most of the rules of apocalyptic prophecy and that shows that it comes from the Holy Spirit and as usual symbolism takes precedence over literalism. Sacred numerology is very important. You need a co-prophet, because all apocalyptic prophecy takes two people. The prophecy as given **by** Dana and **to** Dana, is not complete. It must be interpreted, just like Daniel in the Old Testament. And as usual in apocalyptic prophecy as I said, Mary's Rosary is indicated as the weapon that our Lord uses to defeat the Antichrist; Mary's Rosary and Scapular, and we see that when David defeats Goliath. So let's start with the first slide I have of Dana's dream.

I'm going to share this dream. It started on September 5th and went through the 12th, that's seven days which is of course an apocalyptic number itself, and here's how it went. In the dream, I was in an office that appeared to be a Wall Street professional, business-type office. It looked like Wall Street: there was ticker tape, there were TV screens; you had cubicles; you had paperwork; you had people running back and forth; you had those guys pushing those mail carts; and, you know people were getting drinks off vending machines and the water cooler. It was a very, very, very busy setting. And I was at a computer in a cubicle in that lively setting, doing what I was doing, whatever kind of job it was.

So Dana doesn't say that this is Wall Street, but I think it might just as well be. It has all the characteristics of Wall Street like ticker tape for example, and he says it's like

Wall Street. I think for the purpose of the prophecy we can say that it is Wall Street, and it symbolizes of course the business characteristics of capitalism. And of course as we know, capitalism will be defeated by communism in the Book of Revelation.

None of those characteristics that Dana talks about; the professional aspect, the busy aspect, the lively setting, everybody working hard; communism does not like any of those things, and of course neither does Satan. Communism is Satan's answer in these End Times to our freedom that we have in the west. Okay let's look at the next slide.

And the door to the main room opened up and an Asian woman came in wearing a lab coat, with a clipboard. And her hair was almost a metallic-silver color; and her hair appeared to be living - so, this Medusa-type mindset comes to mind. It wasn't alive, but it just appeared like it was moving; it was kind of creepy. But she also had makeup caked on her face, I mean almost like it was clown-like. Either she had been scarred heavily or she was trying to cover up something or hide something. She had a lot of makeup on.

Now I'm going to suggest that this Asian woman with all the makeup, represents the apostate Catholic Church. I believe that's what she represents. The term "Medusa", that refers to a Pagan religion, the Greek religion, and Medusa was a mythological character. Instead of hair she had snakes coming out of her top of her head. That was her hair, and Dana says that she looked almost clown like.

Well you might think that's not what the church is like, but nowadays it is. So next I want to show you a clown Mass. Now this particular one that I'm going to show you is an Episcopal one, but it's very similar to Catholic ones. If you want to look up "clown masses", there's a really interesting documentary on clown masses and other types of Catholic apostasy. There's a [video by the Dimond Brothers](#). Check that out.

Now here's an Episcopal Mass and at least they called it a Mass, and of course, as you can see it's very demonic and of course you can see there's a lot of rainbow colors and so on, which we would expect, and as Dana says the woman is creepy.

I think we get that from a clown Mass. There's makeup on her face and she's trying to hide something or cover up something and that's what these clown masses look like.

The Clown Eucharist at Trinity Episcopal Church, Wall Street NYC. 2005

Now this next one I believe is a Catholic clown Mass and as you can see it's of course nonsense. It degrades; it's not a religious service. It's very, very demonic so we shouldn't be surprised if this woman (in Dana's dream) represents the apostate Catholic Church.

And I came across the following one. I think this might have been from the Dimond Brothers. Here's the Pope dressed up like a clown. At least he's wearing a red nose and I would say that the woman in Dana's dream; it's my interpretation that this represents the apostate Catholic Church. Now she's Asian because that's just one more deception. I mean this is symbolic; a symbolic woman; a

symbolic person symbolizing the End Times apostate Catholic Church. Okay let's look at the next slide in Dana's dream.

She came in, and she demanded that everyone stop what they were doing and listen to her. And she said, in a very firm voice, she announced that due to Covid hit in the United States of America, so suddenly and so aggressively, that all businesses in the country would be shuttered until further notice. They were sending everybody home, to work from home. And she said specifically this: she said, "You will all be working from home, so gather your desk items and necessary files and please take a zip drive home with you." And she held up her hand, displayed this big over-sized zip drive (nothing special about it, just a zip drive, okay?). And she said, "Once you're home, please log on to your home computer and insert the drive into it." And then she said, "Then follow the prompts and confirm that you are connected to our server."

So we're all familiar with this type of thing. This is not really a prophecy. I think Cherie Goff mentioned it's not prophetic. This is what happened, but it does help us to understand what happened and help us to understand the past, so to speak. And these pandemic protocols, which is coming from the woman, I mean we all thought that it was the businesses that came up with these protocols or the Deep State but what Dana's telling us is that the woman, the apostate church came up with these protocols. And not just the ones that he mentions here, but you know, wearing the face diapers and social distancing, and all those silly rules which the Deep State imposed on everybody, but none of those things could have been done without the Pope's okay. This is what people may find hard to understand but that's what Dana is verifying in his dream, and of course that's exactly what the Bible says.

Now it's interesting that back in 2016, the Pope had a very secretive meeting with American high tech leaders.

Let me show you some of those pictures, so you'll believe what I'm saying here. Now here is the Pope meeting with Eric Schmidt and he is the head of Google, and let's look at the next slide.

This was just a week later, the Pope met with Tim Cook. He is the head of Apple.

And now this was in August, the following one. This is where the Pope meets with Mark Zuckerberg. This was all in 2016.

So why did the Pope meet with all these three high-tech people? The Vatican always announces what meetings like this are about. They put out a press release. They did not do so with these high-tech people. It was all a big secret. Now one of the high tech people; I don't know if it was Eric Smith or if it was Tim Cook, he said, "Oh this was just a family thing. I was on vacation." But that didn't explain why he had his aides with him. You don't go on a vacation with your aides or a family vacation. No, this was where the high-tech people were finding out if the Pope was going to go along with all of their protocols for the Plandemic I believe. That is my proposal. That's why it was all a big secret.

So you might say, why do they need the Pope? Can you imagine what would happen if the Pope said, "No, the churches are not going to shut down", or if the Pope had said, "No, you don't have to wear face masks in church" or, "No you don't have to do any of those things"? All of the bishops would support him. At least a lot of them would. As it was, you and I know, if you went into a Catholic Church, it was no different than going into Walmart, and that was because the Pope was compromised.

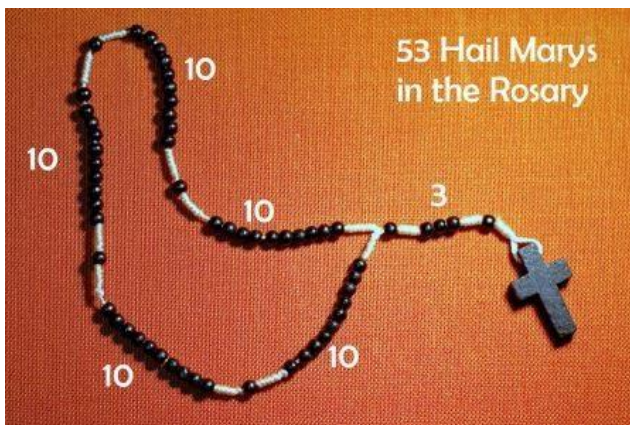

I could have told them. I'd tell people they didn't even have to go to talk with him. I would have told them; yeah he'll go along with whatever you can go along with. That's because he's the False Prophet. It's the False Prophet in the Book of Revelation who causes everyone to take the Mark of the Beast and of course these things were all precursors to the Mark of the Beast. So let me get to the next slide here.

What this apostate woman, the apostate church; what this woman says to the people, we just saw that slide, is very important. And what we're going to do is, we're going to count the words that she gives. Let me get that slide up here.

They were sending everybody home, to work from home. And she said specifically this: she said, **“You will all be working from home, so gather your desk items and necessary files and please take a zip drive home with you.”** And she held up her hand, displayed this big over-sized zip drive (nothing special about it, just a zip drive, okay?). And she said, **“Once you're home, please log on to your home computer and insert the drive into it.”** And then she said, **“Then follow the prompts and confirm that you are connected to our server.”**

Okay, so now there's the words that she gave, and I have highlighted her phrases, “You will all be working from home”, etc and the second phrase was, “Once you're home please log” etc, and, “Then follow the prompts and confirm that you are connected to our server.” So what you need to do is to count the words that she says. Those are exact quotes from Dana's dream and I should have a quiz here. I should tell you the significance of the number of those words.

Did I give you enough time to count those words? This is your job as students. You should count those words. Well if you didn't, I will count them for you. There are

exactly 53 words there. Now 53 of course is **the** Rosary number really. That's the number of Hail Marys, for those of you who may not know, in a complete five decade Rosary.

There are 10 Hail Marys in each decade; there are five decades; that's 50 Hail Marys in the body of the Rosary, And then the three Hail Marys (at the beginning), plus the 50 give you 53.

So why is 53, which is a good number, associated with the apostate church?

That's what we have to ask ourselves. And I think the reason is, this is just one more example of the woman, the apostate church, covering herself with a cloak; like a wolf in sheep's clothing. The 53 symbolizes the Rosary and even though she's phony, she wears makeup, she's Asian. She's Asian, that simply means that she's not who she says she is. It doesn't mean anything as far as Asian. I didn't watch Cherie Goff's explanation. I'm sure she had a different explanation for that but I think it simply means that this is one part of the great deception.

And you might ask, does the Pope ever say the Rosary? Let's take a look here, because as you know, I am not one to let this go.

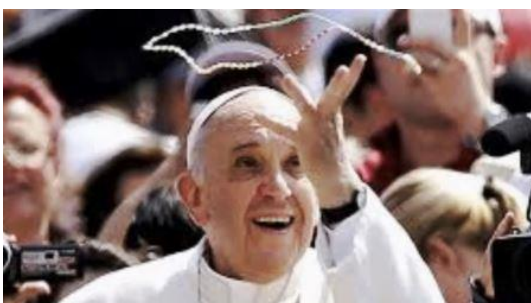

So here is a picture of the Pope praying the Rosary. So as you can see, the apostate church including the False Prophet can clothe himself with something that's good; the 53 Hail Marys of a Rosary.

Now the Pope is not always prayerful when he has a Rosary. Here he is holding up a Rosary. Look how he has a kind of silly expression on his face. Well, I don't know how you would caption this photograph. I guess he would say, "What is this thing I found in my pillowcase last night. It kept me awake!". That's the caption to this.

And every now and then, the Pope lets you know what he really thinks of the Rosary.

There he is tossing Rosary up in the air. Can you imagine tossing the Rosary up in the air? Of course that's a great photo op for a photographer. Does that photograph remind you of anything by the way? Do you remember that image of the halo coming over the Pope's head morphing into two snakes? Now doesn't that, on the right hand side;

doesn't that crucifix on the Rosary look like a snake's head? Anyway I think this picture shows pretty well that Dana's dream, about the Rosary as a way of cloaking the apostate church, is quite accurate. The 53 words, that's not accidental and every

now and then, the Pope lets us know what he really thinks about the Rosary. Okay let's look at the next part of Dana's dream.

So, then people began to fill their boxes up, and put folders and papers and files and knick-knacks and plants and stuff in those boxes; and they started walking out. Well, I walked toward the door with the box in my hands, and I grabbed the zip drive out of the woman's hand. And she seemed to be sneering, just that, a sneering-type look. And then she said to each individual person, she said this, "Do exactly as I have told you all to do, and it will all be well with you." So once again she said, "Do exactly as I have told you all to do, and it will all be well with you."

So we see here, it is the apostate church that actually tells society what to do and that's what the Bible says. The False Prophet is the one who causes everyone to take the Mark of the Beast, not the Antichrist. The Antichrist comes later. Now we're going to take a look at that, because the first 53 words which the woman spoke; that was the general admonition to everybody in the office if you remember. That was Rosary number. So how many words did she speak this time? Let's take a look and count those, because once again it's very interesting. Let's have a look at the slide right here.

And then she said to each individual person, she said this, "Do exactly as I have told you all to do, and it will all be well with you." So once again she said, "Do exactly as I have told you all to do, and it will all be well with you."

So it's repeated twice. If you count the number of words in the first time what she says, and this is what she says to each individual person. The first 53 words were to the entire group and this is what she says to each individual person. And if you count the number of words, you will find that there are 18 words, and that 18 is repeated twice. And of course we all know that 18 is the number of the Antichrist.

So first we see the False Prophet covered in 53 words, covering herself with the Rosary, but here, her true nature comes out and she announces the Antichrist, and none of this numerology is accidental. It proves that this prophecy came from the Holy Spirit. So now let's look at the next slide that I have.

So, now the scene shifts; by the way, the number of scenes is important in this dream also, and I'm at my home, and I'm sitting at a computer, and I got the zip drive ready to go in. But what I notice is my kids are a whole lot younger than they are. (My kids are grown: they're 25 and 23 and 20). And so, in this situation, they appear to be about the same age as they were when I moved to Burkesville, this is Burkesville, Kentucky, (about 12 years ago), which was like 12, 10 and 8. So, I'm sitting at my computer, I put the zip drive into the port, and I was following the instructions on this zip drive.

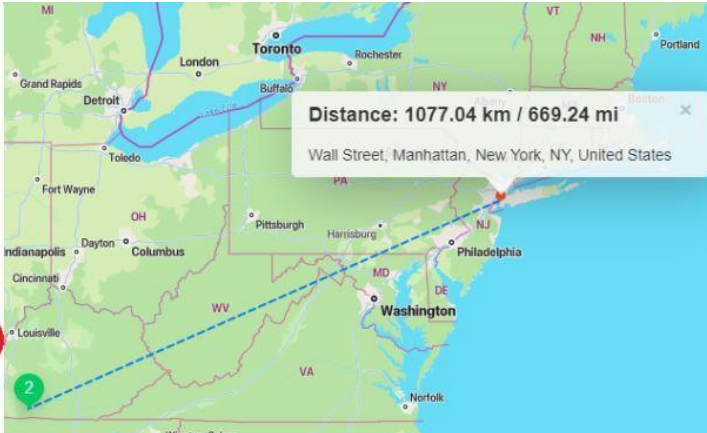

So, I don't know if Cherie Goff noted this, or Dana noted it, or if anybody that commented on his video noted it, but doesn't it seem kind of strange that his office is in Wall Street and his home is in Burkesville, Kentucky? That's quite a long commute. And I was looking at this, and I wondered how far Wall Street is from Burkesville, Kentucky? Well would you believe it's 666 miles? Well yeah, not quite. It's actually a little more than that, but as the crow flies, it's pretty darn close to 666. I don't think that's accidental. I'm sure that's why that's in there.

First location
Wall Street, Manhattan, New York, NY, United States

Second location
Burkesville, KY, United States

Calculate the distance

Distance: 1077.04 km / 669.24 mi

* World Geodetic System 84 (WGS 84)

Now he says the kids ages, their actual ages are 25, 23 and 20, but in his dream, they are 8, 10 and 12, and there's probably a reason for that. The only reason I can think of is because the 8, 10 and 12 are apocalyptic numbers. They're far more significant. I mean 20, 23 and 25 are also significant, but not nearly as much as 8, 10 and 12.

And I think their ages are changed just for that reason, to show that this is an End Times prophecy. That's all I can think of there. Maybe Paula will come up with something other than that. And I think that also indicates why we should not be surprised that his office in Wall Street is 666 miles away from his home in Burkesville. It's the same thing. The reality is modified to make a point, and the message of this dream is more important than getting the details right. I think that's right, why the kids' ages are different and it helps to explain why the office is so far away. I mean that's way out of normal for the office to be that far away. We are now up to the next slide in Dana's dream.

But I'm looking at myself from inside the computer looking out. So, I'm like looking at myself typing, you know, so, like if I'm doing this in front of you, I could see that from inside of the computer. I just knew where I was. I could see my kids playing in the background - once again they were much younger than they are now. And now, looking at the screen, now I'm back outside the screen watching myself get ready to hit the return button. And the key, everything's kind of focused on the return button. The zip drive's in. I'm following all the prompts, and I hit the return button to install what was on the zip drive.

So, once again he's following instructions. He's doing what the apostate church told him to do, and that's exactly what the Bible says is going to happen. It is the False Prophet who will tell us to take the Mark of the Beast. Okay now let me move to Dana's next slide here.

And suddenly what reminded me of the Data Dream, it was this explosion of lights, explosion of lights and flashes. And it looked like there was a connection from that home computer in my home, and was going along phone lines, and over, through big towers, and underground through fibre optic. And pretty soon that wire made its way, that light, flashing light made its way back to the business where I had been earlier. So when I plugged that zip drive in and hit return, everything on that computer kind of connected there. And suddenly there was connection to that place. And then it was just, I was seeing the connections of every home where a zip drive had been inserted into a computer, and it was flowing through that physical line from all those homes right back to the business.

So, really none of that is surprising. I mean that's how it works when you're connected to your business. He mentions all of the lines it goes through, because I think that verifies that his home is in Burkesville and his office is in Wall Street. They go through fibre optic cables. They're going through telephone lines, etc etc. I mean this would all be instantaneous as far as the electronics go, or almost instantaneous.

It's interesting that he mentions the Data Dream. So I reviewed the Data Dream which also had the information going over the Internet; same type of situation, and it was described as lightning, and there were people in lab coats by the way in that dream also. And the lab coat, remember the apostate church, the Asian woman is dressed in a lab coat. I think that's part of the deceptional lab coat. The church would wear that because it's white. The Pope wears white. I think that is meant to give authority and in the Data Dream the technicians were all wearing lab coats also. In the Data Dream, their job was to keep the internet going and I think that's probably similar to this dream as Dana says. In the Data Dream remember that was about Biden's corruption. I'm not sure, I don't think that probably has anything to do with this dream, but I think the only similarity is that the lab coats and the internet. Okay let's look at Dana's next segment.

And now I'm back in the business office, specifically a server room. And I mean it was filled and filled with computers and servers and monitors. And then I saw that Asian lady in her lab coat, sitting at a table. She had her clipboard out, but she was looking at just a bank of monitors in front of her. It looked like a movie theatre screen. And there was, I think, the second Batman movie with Christian Bale. There's a scene where all these TV monitors are

watching everybody, and that was exactly what it kind of looked like to me in that sense.

So I think what we see in [this particular scene](#) is that we see the development of Big Brother watching us, just as we find in George Orwell. Okay let's look at the next slide.

But she was looking there, with her lab coat, sitting in front of the video screen. And it was dark, it was black, everything on it was black - until she touched the return key on her laptop. And the minute she hit the return key on her laptop, that screen sprung into life and had live video from every home. She was watching from every home, the lives of those people in that business who'd gone home, put that zip drive in, hit return. Now she's watching them, and what's going on in their home, every activity she was seeing, she was hearing. And she started taking notes and, well, she was hitting a record button from time to time. And then she sat back and sneered again, almost like, 'we got you, we're seeing you, we're watching you'.

So, you might think we should count those words? The reason we don't count those words and what she said there was because she didn't really say that. Dana says **almost** like, 'we got you, we're seeing you, we're watching you'. I'm sure the woman believes that in the dream, but for the purpose of this prophecy, we don't have to count those words.

And of course as I say, we've seen movies like that. I mean we've seen, well you know Star Trek or any of those. We've seen already vast arrays of monitors and so on of people keeping track of other people, and the Deep State has to keep track of everyone. It's a tyranny, and that's the last government of the world which is the One World Communist tyranny, and we will all be under that. In fact we're almost there now. Okay let's look at the next slide of Dana's dream.

And then the screen went black again. And she hit another button that said, CONNECTION/GOV (and it was capitalized); so she hits that return button to initialize that command on the screen. And the video on the screen started moving again. And the woman was moving a cursor across some of them, and she was zooming in, looking at what was happening. She was looking at those same people I saw in the workplace at the beginning of the dream. She was looking at them inside their home, through their computer screen.

So obviously I think the message that we're getting here is that, all of this information that high tech is getting on all of us, and we know that it is, it will eventually end up in the government's hand and they will use it to control us. I don't think there's any mystery about that. I think we all know what's going on. So, as far as that part of the dream goes, it's pretty obvious. What we have to be concerned about is how do we

defeat these people. This is without a doubt the system of the Antichrist. First we saw the apostate church as the False Prophet bringing in the Antichrist, and the Antichrist brings in this total control over all of us. So is Dana going to give us the correct solution? I think we'll see that he does. Okay, next slide.

So, she was seeing what was going on, she was recording some of those things; she was zooming in and out with the cursor and the cameras. And I could also see there was thermal readings, thermal imaging going on. There was facial recognition, which was naming; I saw the names of people coming up and the names of the kids and the ages and things like that on those screens; and there were even some health factors identified on them, as well – like, you know, ‘has high blood pressure’, ‘cholesterol’, this and that - you know, some health things like that.

So I think we all know that that's all possible. I remember reading where someone, I don't know if it was in Walmart, and this is what they wanted you to do, is that with facial recognition they could see you going by and they would recognize you and they would say, “Hey William, there's a sale on diabetic socks over in aisle 15, or something like that. [Laughter]. And me, being gullible, I would go walk right over and buy those diabetic socks over in the aisle. And that's what facial recognition for example will be used by big business for, as part of their control. And that's why they support all of these things, and of course the government is going to want to be looking into what you're doing at home, so that you're not planning in any January 6th protests. Of course we all know them.

So here's the solution. Dana is going to give us a solution, because the Man in White is going to appear now, as he does in all of Dana's dreams, and of course the Man in White represents Jesus, so let's move on to that slide.

And then everything kind of blacked out. And I saw the Man standing in front of the big screen. He was wearing a lab coat but didn't have a clipboard. He had instead a scroll under His right arm. And He spoke these very simple words: He said, “They're watching you, but you should watch for Me. And there is much that both the church and society still do not see or understand. The Spirit and the Bride say, ‘Come.’ And I say, ‘Soon.’ Look up, keep looking up, and work with both the weapon and a tool in your hand.” It was then that I woke up from this dream.

A fascinating dream from Dana, and he mentions that the church and society have a lot to learn, and I think we saw that at the beginning in the first and the second scene. Wall Street, that would represent society and the woman would represent the church; the church and society. Now what would be the weapon and the tool in the Man's hand? Because He says that we have to keep up and work with both the

weapon and the tool in your hand. Well if you follow this program at all, you know that it's got to be Mary's Rosary and Scapular, and those terms are significant; the weapon and the tool. And of course this is exactly the same where David takes on Goliath. He has two. He has a weapon. That would be the five smooth pebbles that he picks. That represents Mary's Rosary, and the tool would be the shepherd's sling; a weapon and a tool, very similar symbology here in Dana's dream.

And why do I know that the weapon in the hand must represent Mary's Rosary? Well, did you count the words that the Man in White gives? Let me put that on the screen. If you count them real fast, you'll figure out how many words He uses. Let me show you that slide. I highlighted the words and I made them larger so you can count them very easily.

He said, **“They're watching you, but you should watch for Me. And there is much that both the church and society still do not see or understand. The Spirit and the Bride say, ‘Come.’ And I say, ‘Soon.’ Look up, keep looking up, and work with both the weapon and a tool in your hand.”** It was then that I woke up from this dream.

So did you count those words? There are 53 words there. That's not accidental. It's not accidental that the woman, the apostate church spoke 53 words and it's not accidental the Man in White speaks 53 words.

And I want to thank Paula. She's the one that pointed this out to me. Paula has become a great help in decoding these dreams. Is there any other explanation that you could think of? Why would the Man use exactly 53 words? And Dana, if you watch his video, you can see he spoke those very carefully, very clearly. He didn't fumble. Sometimes he fumbles a word or two, but not when he was using any of those quotes. And I think it's also interesting that 53 is actually twice; 53 that the woman speaks and the Man speaks. 18 is spoken twice by Dana, and there are two weapons in his hand. I think that verifies that there are two weapons; 53 twice, 18 twice; two weapons. And I know Paula and I went back and forth on that. She thinks that the two weapons in his hand represent just the Rosary and I got to thinking later that I am sure that it represents both the Rosary and the Scapular, and that's why the numbers are repeated twice.

And I was thinking, why doesn't the Lord give this dream to, let's say a bishop or a pope or a priest or a Catholic? Well you know it's much more believable if it's given to an evangelical pastor. I mean the prophet is not supposed to understand the prophecy. That's difficult. That's the same with all the apocalyptic prophecy. The person does not understand it when he uses all that numerology. If a Catholic had this dream, they would say that he cooked the books, because he uses 53 words because he knows that's Rosary numerology.

Dana Coverstone does not know that's Rosary numerology. He didn't count that. It's just like Kim Clement, when he received that vision, remember? And he said that America must say yes to Esther. Well he didn't know who Esther was. He didn't understand that he got that vision on March 25th the Feast of the Annunciation back in 2011. He has no clue why, at the end of that vision, he had the entire congregation shout out, "Yes to Esther", and they shouted it out 15 times. He didn't know why he said it 15 times, but we know. 15 represents Mary's Rosary; it's 5 plus 5 plus 5. That's the number that defeats 6 plus 6 plus 6.

And Paula mentioned for example that there are five scenes in this dream of his. Let me see if I can go through them. You have to count the scene where the Man in White stands in front of the screen. That's a separate scene, and you have to count the scene where the information is going over the internet, all those lines, and the scene where the Asian woman is spying on the employees. So the other two scenes would be, let's see, at the office and the fifth scene would be at his home. So those are the five scenes.

So let me see if I have covered everything. I think I've covered everything. So I think in summary I think it's pretty clear that this had to come from the Holy Spirit. The fact that an Evangelical received it, is proof in my opinion, and it verifies what I've been saying all along and that is that Mary's Rosary and Scapular are the weapons Jesus will use to defeat the Antichrist, and that's what Dana's dream is also telling us.

All right everybody, well I think we successfully decoded Dana's newest dream and thank you Dana for being faithful to what the Holy Spirit is calling you to do and you're doing a great job. And thank you Paula once again for helping with the decode and don't forget Sam Fisher will be up a little less than an hour from now. He will be up at 8 pm Eastern Time. He's a triple threat man now. He's on DLive, he's on YouTube, he's on Facebook, and he will do a live stream Rosary. If you would like to join us, if you would like to take up the two weapons that are in that Man's hand, specifically the Rosary, then join us. At least you would learn how to pray the Rosary. And then I will be back on this channel tomorrow at 10 am Eastern Time and we will pray a live stream Rosary.

Until I do see all of you again, may God bless all of you, and may all of you have a very blessed evening.
