

## Was US Involved in Russian Plane Crash?

Last night, President Obama made a very interesting statement and I will let you read the headlines; this is from the New York Times. *"Bomb Is 'Possibility' in Loss of Russian Jet Over Egypt, Obama says. President Obama said Thursday evening that there was a possibility that a terrorist bomb was responsible for the destruction of a Russian passenger plane that broke apart last Saturday over the Sinai Peninsula in Egypt."* And in fact, British Prime Minister, David Cameron, gave an even stronger statement saying that he believed it was an ISIS bomb that blew up the Russian plane.

And now, I have a question for Mr. Obama and Mr. Cameron: Do you have any people on the ground investigating this crash site? Do you have access to the black boxes? What in the world makes you think you know what brought this plane down? What kind of evidence do you have? Or are you just whistling in the wind? The people who do have access to the black boxes and who are investigating the crash site, who do have people on the ground, the Russians in other words, they are being very tight-lipped. They are saying nothing. They are saying it is too soon to determine what brought their plane down and that got me thinking.

Has the government ever lied to us before about plane crashes? Well, I think you know what I am referring to. On 9-11, supposedly, a plane crashed into the Pentagon. I have never seen any pictures of that plane. Now, maybe the government has pictures of the plane and they don't publish them for security reasons. I admit, that's a possibility. But the fact is, no plane has ever been shown to us. Is the government lying about 9-11? Are they lying this time? Is this a false flag and are they hiding American involvement in this crash of this Russian plane?

The next question is: What would be the motivation? First of all, Obama is a very proud man. He doesn't like the fact that Vladimir Putin has taken over his spot as being the number one leader on the world stage. Is this payback? But there is another reason. Could it be he wants the Russians to retaliate? Would he want Vladimir Putin to, for example, take out Hoover Dam? Remember, 11-11 is coming up in another week. Jonathan Kleck has already said that the Lord told him Hoover Dam would be destroyed on 11-11. And the Lord has told me personally that 11-11-11 is a very significant End Times number.

Now, I am not saying it will happen. I'm saying that you, my subscribers, need to be alert to that possibility. And there is one more very important possibility and that is the fulfillment of Bible Prophecy. Let me read to you Daniel 11:40. Now, I have read this many times to you but let me read it again because it is very important: **"And at the time of the end,"** that's the End Times, the times that we are living in now, **"shall the king of the south,"** the king of the south is Barack Obama because his forebears came from Kogalo, Kenya which is due south of Jerusalem, **"shall push at him,"** in other words, Barack Obama is going to provoke the king of the north who is Vladimir Putin, **"and the king of the north shall come against him like a whirlwind,"** that sounds like war to me, **"with chariots and with horsemen and with many ships and he shall enter into the countries and shall overflow and pass through."**

And so, my friends on YouTube, you need to be prepared for a very serious national calamity. If this occurs, there's no doubt Barack Obama will declare a national emergency. He will declare Martial Law and he very well could cancel the Election. Those goals suit not only Obama, but Putin as well and of course, they also suit the Antichrist. The Antichrist brings down three kings. Those are the lion, the bear and the leopard and that would be Britain, Russia and America. And he brings them down by getting them to fight each other and then he emerges as a world peace-maker.
