

Great 9/23 Sign: Astrology or Bible Prophecy?

Well, would you believe, in a few short nine weeks from today, the Great Sign, as prophesied in Revelation 12:1, will occur in the constellations; and here is how it looks.

I am sure you have seen many videos about it posted on YouTube and many articles on the internet. But it was I who discovered this sign more than 6 years ago in April of 2011. And now you can find a half-dozen new videos posted every day on the subject, more than 10,000 in total since that date back in 2011. And how many of them give me credit, by the way, for discovering the sign? Well, so far, as far as I can see, none! But, remember what Jesus said, a prophet is without honor in his own country; so we shouldn't be surprised.

And I got an interesting message from one of my subscribers a couple days ago from 'Well Prepped Pantry' and here's what he wrote: ***'Third warning from Jim Beckwith*** (Jim evidently has posted four videos on this topic just in the last couple of days) ***it's calling out all Christians who are spewing on about Scott Clarke's 9/23 event data. He's calling you a false prophet, heretic or a liar if you subscribe to what is coming on 9/23. He is saying that this is forbidden astrology predicting'***. And he exposes Scott Clarke and Alan Horvath and Robert Breaker and others who claim that this date has to do with the Rapture and on that I agree with Jim Beckwith, you can never

know the date for the Rapture. Jesus said over and over again that He will come like a thief in the night; He will come like a bridegroom at midnight. You cannot know when it will occur. So, anyone who says that September 23rd is the date of the Rapture, they are full of baloney. The Rapture could occur today or this week, or this month! Please don't plan on a specific date for the Rapture; you have to be ready at all times. However, I do disagree with Jim Beckwith's article because he says that this Great Sign is about astrology; that is a mistake. Satan is the author of astrology and that is a perversion of God's signs. Jesus said there would be **'signs in the sun, moon and stars'** to announce His coming and the Bible says that this is the Great Sign, the Revelation 12 sign of the woman clothed with the sun. But Jim Beckwith did give an interesting note in his video and he says there is an article in Wikipedia on this.

https://en.wikipedia.org/wiki/Revelation_12_sign_prophecy

So let me show you this; I had not been aware that Wikipedia was now covering this Revelation 12 sign. You can look this up for yourself, it's quite interesting and they make a few mistakes. Beckwith says that the 'wiki' in Wikipedia stands for a wicked. Well I always did kind of question that term; I always thought it stood for witches, WICCA; but anyway that's what Jim Beckwith says. And here's this article and it's a pretty good overview except for, as I say, a few errors: ***'The Revelation 12 sign is an apocalyptic belief promoted by a number of Christian ministries and news organizations which state that a literal fulfillment of the prophecy given in Revelation 12:1 will occur on September 23rd, 2017. This passage of Scripture in the Christian Bible describes a woman clothed with the sun, with the moon under her feet and a crown of 12 stars on her head. She is pregnant and cried out in pain as she was about to give birth.'***

One of my subscribers sent me an interesting note, well how do you know that she is in pain? How do the stars and the sun and the planets indicate pain? And I think he has a good point; maybe something will occur on that date that indicates pain, maybe a lot of thunder or something. Or it could be that you're just supposed to extrapolate that. In other words, a woman in labor is in pain. I tend to that latter theory myself. ***'Many Christians worldwide believe that an astronomical alignment involving the constellations Virgo and Leo, the sun, moon and planets Mercury, Mars, Venus and Jupiter occurring in September 2017, will fulfill this purported prophecy word-for-***

word. This astronomical alignment will come into position on September 23rd and by the next day will be gone.' And as I say, that occurs nine weeks from today. And then Wikipedia gives an overview, and here's where they make a rather obvious mistake: **'There is some ambiguity in regards to when this alignment was first discovered** (no, there's no ambiguity; I discovered it back in April of 2011) **but on July 30th, 2011, Scott Clarke from ERF ministries posted a video on YouTube describing the alignment which many Christians worldwide have now come to believe is the Revelation 12 sign. In 2012, Unsealed World News suggested that the purported sign might be connected to the Rapture of the Church** (wrong!) **though they have repeatedly stated that the exact date of the Rapture is unknown and might happen sometime before or after September 23rd.'** Well, that is a correct view point as far as the Rapture goes; it will not occur on September 23rd, you can put me down as saying that right now. There may be some very significant events that occur before September 23rd and the Rapture could occur at any time.

There is another interesting aspect about that Wikipedia article: they give a lot of references about people talking about this Great Sign on the internet. And this will occur more and more as we approach the date. One of the references was to the 'Catholic Astronomer'.

Biblical Signs in the Sky? September 23, 2017

January 25, 2017 • Christopher M. Graney

One day last fall I was working in my office when my desk phone rang. It was a reader of The Catholic Astronomer, calling me with a question. He asked why the Vatican Observatory blog was full of discussion on black holes or whatnot, when there was something much more momentous to talk about. It turns out that the momentous thing to which my caller was referring was an arrangement of celestial bodies that will occur this year (2017) on September 23. On that date, according to various Internet sources, the heavens themselves will be a tableau of Revelation 12: A great sign appeared in the sky, a woman clothed with the sun, with the moon under her feet, and on her head a crown of twelve stars. She was with child and wailed aloud in pain as she labored to give birth.... She gave birth to a son, a male child, destined to rule all the nations with an ...

So I want to read a little bit from this article because it's quite interesting; this guy is a skeptic; his name is Christopher Graney. And he gives a little incident here: **'One day last fall I was working in my office when my desk phone rang. It was a reader of the Catholic Astronomer calling me with a question. He asked why the Vatican Observatory blog was full of discussion on black holes or whatnot, when there was something much more momentous to**

talk about. It turns out that the momentous thing to which my caller was referring was an arrangement of celestial bodies that will occur this year, 2017, on September 23rd. On that date, according to various internet sources, the heavens themselves will be a tableau of Revelation 12. On September 23, 2017 the Sun will be in the zodiac constellation Virgo (a woman clothed with the Sun). The moon will be at the feet of Virgo (with the moon under her feet). The nine stars of the zodiac constellation Leo, plus three planets Mercury, Venus and Mars will be at the head of Virgo (on her head a crown of twelve stars). The planet Jupiter will be in the center of Virgo, and, as the weeks pass after September 23rd, Jupiter will exit Virgo to the east, pass her feet, so to speak (she was with child and wailed aloud in pain as she labored to give birth and she gave birth to a male child destined to rule all nations with a rod of iron)'.

I went through all of that, as I say, more than six years ago but I very much appreciate Christopher Graney and the Catholic Astronomer for giving this more publicity. And, as I say, more and more people are going to learn about this in the next weeks and months and I want to mention here Chaisza7's video in which he said this constellation occurs, this particular alignment, only once in every seven thousand years. Now Christopher Graney thinks that he has found other examples of this sign.

Here are two examples that he says on September 5th, 1293 and September 14th 1056 and I think you can see that.

And I'll put a link to his site so you can check it out for yourself.

<http://earthsky.org/human-world/biblical-signs-in-the-sky-september-23-2017>

Here's two more he says occurs on September 24, 1827 and September 6, 1483 and I have looked at those carefully and they just do not fit as well as this September 23rd. Christopher Graney totally overlooks, he does not factor in, that Jupiter will be in Virgo's womb for nine months, nine and a half months, a little over 42 weeks; in other words, exactly mimicking a normal human baby's gestation period. That does not occur, that combination of events does not occur but only once in every seven thousand years, as Chaisza7 pointed out, in other words, only once in all of human history; it is

truly the Great Sign.

And now I want to give you my interpretation of what is going to happen on September 23rd and it is NOT the Rapture but it is found in Bible prophecy and that is in Micah chapter 5, verse number 3: ***'Therefore will he give them up even till the time wherein she that travails shall bring forth: and the remnant of his brethren shall be converted to the children of Israel.'*** This is referring to the brethren of Jesus, the Jewish brethren, who will be converted to the remnant Catholic Church; they will accept Catholicism. I've been saying that all along; Donald Trump will be converted. That is when he will 'know God' as Isaiah prophesied in his chapter 45. The Jews will also be converted, they are the brethren of Jesus; they will be converted to the children of Israel which is a code word, in both Isaiah and Micah, for the remnant Catholic Church. And, as I say, don't be surprised if something amazing happens before that date because what is it that will convert Donald Trump and the Jews and Donald Trump's Protestant brethren? It's very possible that September 23rd is more the culmination of a tremendous series of events. Well, that's speculation on my part; all I know is that Bible prophecy, in both Revelation and Micah and Isaiah will be fulfilled and the Great Sign occurs on September 23rd in nine weeks, be prepared!
