

## Video # 666, Satanism and Pedophilia

Well, would you believe, this is the 666th video I have posted on YouTube. I have been on here for a little over eight years and I thought maybe I should do something on Satan and the demonic and therefore I thought I would talk about this evil image of the Child Jesus. Now, I know most of you are going to be shocked when I say that; you will say, my goodness, that's a sweet, innocent picture of the Child Jesus because I guess it's quite famous. However, one of my subscribers from Canada wrote me a very interesting letter, and she sent me this image, and let me read this for you because here's what a priest told her:

***'Dear Mr. Tapley, I am a frequent listener of your YouTube channel which I enjoy very much. I appreciate all the time and effort you put into making your videos'*** Well, you're very welcome.

***'The picture I am sending you is an image of the Child Jesus. I bought this card and a prayer cloth with the same image from the address listed on the back of the card. I kept it in a special place in my house with my other statues.'***

I have a lot of statues, as you know, in my house, but you do have to be very careful that these evil artists don't try to sneak one by you. ***'A priest recently informed me that this image is Satan in disguise because he wants to be honored as God is honored. What proves this are the hands on the Child Jesus: they are deformed, thus it is not a true image of Jesus.'***

Okay, let's take a closer look and you can see the hands; there's something wrong with the hands. They look like they're crippled or something. And, in fact, you can find other pictures of this exact same child Jesus| except they have corrected the hands. So, I am not the first, nor is this priest, which this lady is talking about, to recognize that there is something demonic about this image. ***'The same priest showed***

**me a few other images which appear to be holy or images of Jesus but really are not'. We all have to look very carefully because these artists are sneaky, as I say. In fact, we've seen this very much recently. This is a very old image. It was supposedly a photograph taken back in the early 20th century; supposedly, as I say, by some monk out in the desert. I think that's a phony story but anyway that's what, if you go on the internet, you will read. *'I was wondering if you came across anything like this or have noticed this yourself'*.**

As I say, I've done many programs on YouTube about demonic images coming out of the Vatican in recent years. ***'People need to be informed so they can check if they have true religious images in their homes. By the way, I did email the company that sold me the image a week ago explaining that it was wrong hoping that they would remove this item from their online catalog but I did not receive a reply'***. Thank you very much for making me aware of this and we're going to take a closer look at this in just a minute.

Now here is what, if you do a research on this, they say on the internet: ***'This photo was taken by Blessed Charles de Foucauld (a French monk in, I believe, Algeria, who died in 1916. This is not a recent expression from Satan. I believe this is an image of pedophilia, as I will show you in a minute) taken of the Eucharistic Jesus while it was exposed on the altar. When the film was developed, the above picture of the Child Jesus appeared.'*** I don't believe that for one minute. Let's take a closer look at this picture and I think you will be shocked at the hidden images. First of all, take a look at the shoulder of the Child Jesus in the front, the left shoulder. That is a hand. That's a very large hand, as we will see in a minute. Take a look at the chest of the child; are those nipples? I believe this is not a male child, I believe this is a female, a young female. Take a look at the curly hair, take a look at the eyelashes, take a look at those red lips. This is not a male figure, this is a female figure. But, the face of the demon is actually in those hands. So, the first thing I did was to look at the image upside down which is quite interesting.

But the real way to understand this demonic image is to turn it on its side. Now, I believe the demon can be revealed. Take a look at those hands. And I am going to alternate between my interpretation and the actual image. For example, take a look at the mouth on that demon formed by the fingers. It looks like a Bart Simpson mouth. They're darkened just a little bit. Notice those wide, thick lips. Notice the horns

on either side of that face. Now, I think that large horn on the left, the bottom part, is probably an ear. I probably should have marked it like that.

There is a horn on the other side, the far side. The eye is that dark area and, of course, we have the triangular nose. Leading out of that down on the side to this bottom you see the arm and the shoulder of the demon and, as I say, on the bottom front you see the front forehead of the demon and the hand which is like a paw on the child's shoulder. And you can see the upper part, you can see the hand also, and in fact, the indentations on the garment the child is wearing indicates where those fingers actually are. And I have emphasized the nipples so you can see that this is a female figure. The female figure is in a sexual position. The demon is located between the knees. The garment on the knees, as you can see, form what looked like wings. I believe that this is the correct interpretation.

You might see a different face in there and there are other faces also in this picture. But don't be fooled, this is an image of pedophilia. It could also be an image of Incubus. That would be a demon that appears in the sleep except that the child is not asleep. I believe this is a female child. I believe it is pedophilia and that is the demon that has been lurking in this image for almost 100 years. If you have this image in your house or any like it, even if it has the corrected hands, throw it out. Those images will bring satanic fury on your household especially if you do take it out. Substitute it with some pure and holy images, especially images of our Lord. For example, here's an image of the

Shroud of Turin. God Himself gave us that image; or how about the image of Our Lady of Guadalupe? God Himself gave us that image. God did not give us this image. That image was given us by Satan.

*Jesus' face in the Shroud of Turin*

*Our Lady of Guadalupe*
