

## National Geographic Peddles Child Porn

By now I am sure you are aware that next month's National

Geographic magazine features a transgender boy; that is, a boy whom they have dressed up as a girl. However, that is not why I am doing this video. They have not dressed him up as a typical little girl, they have dressed him up as a child prostitute; big difference! But they are not admitting that to you. They are covering their story about pedophilia by claiming it is about transgenderism. This is a cover Jimmy Savile would be thrilled at.

Now, I'm not saying that there aren't a whole lot of things wrong with transgenderism. You cannot change your gender by merely adding drugs to your system or changing your body by adding or subtracting parts. That is psychologically damaging to this poor child and National Geographic is just as guilty as the parents. If you try to change your gender your death certificate is still going to read exactly the same as your birth certificate. God made us male and female and you cannot change your chromosomes. It's all a big lie from Satan. But the biggest lie on this magazine cover, and I urge you to look it up, is that they are promoting pedophilia, not transgenderism and they are hiding their real motives.

Go to google images and if you type in, for example, 'nine-year-old girl' as I did, these are the kind of images that come up.

A nine-year-old girl looks like a girl but the image of this transgender boy does not look like a typical nine-year-old girl. They have dressed him up like a child prostitute. They are objectifying this boy as a girl, specifically as a female prostitute.

I am amazed that women's groups don't complain about this because they are obviously objectifying the child. This is not just transgenderism. You people need to understand that our decadent society is promoting pedophilia in order to justify it for the elites, who like to practice that abomination. In fact, on my last video, or maybe two videos ago, I used the word 'pedophilia' in the title and Google, that is YouTube, suppressed that video. Check out the low number of views on that. Their computer kicked it out. They would not monetize it; and the reason is, I'm sure, on account of Pizzagate. I think National Geographic is cashing in on Pizzagate. They are not only cashing in on the transgender agenda, but also the spreading of pedophilia images in the media.

So don't be fooled! These people want your children as prostitutes. They don't care whatever clothes they dress in; they want to defile them and you parents have to be very much on the alert of what their agenda is because their agenda is secret. And I will say it once again, this magazine cover of National Geographic, I am calling you out. You are not promoting transgenderism, you are promoting pedophilia! (1)
