

## Great Sign on 23rd Sept 2017 Fulfills TWO Bible Prophecies

This will be the 555th video I have posted to YouTube and I thought I would celebrate by talking about one of my most amazing discoveries and that is this "**great sign of a woman clothed with the sun with the moon under her feet, on her head a crown of twelve stars and being in childbirth**", as prophesied in the book of Revelation, 12:1-2, will be fulfilled on the weekend of September 23rd and 24th, 2017. Now I first made this discovery a little over four years ago and I immediately made a video about it called "Stellarium". That's because whenever the Lord reveals something to me I immediately reveal it to you.

However, what's really even more amazing than the fulfillment of this Bible Prophecy is that no one in the mainstream media or even in the religious media has covered this story. They really are not interested in Bible Prophecy and I don't care whether it's TBN or CBN or EWTN or whatever. The only way you would know that this amazing Bible Prophecy will be fulfilled in the Fall of 2017 is if you watch videos on YouTube, and quite a few other people have followed up on this amazing revelation. And I am going to put a link to a video by Chiza7 because he did some very interesting research.

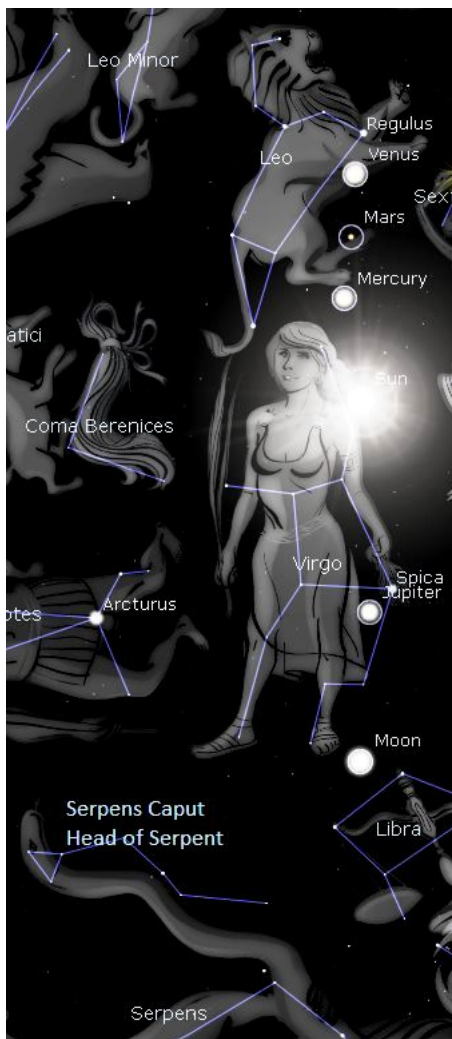

<https://www.youtube.com/watch?v=XXxVwpcXV0U>

He discovered that this great sign only appears once in all of human history. It is not just a once in a lifetime event. It is only once in the entire history of mankind. It is unique. It is exactly what the Bible calls it: "the great sign".

On this program I want to add several very important refinements to my earlier video. First of all, what is the exact time and date? I believe that previously, and this is true of all the other videos I have seen, they have talked about this great sign appearing as if it were at Eastern Standard Time. In other words, if you look at the time date stamp in the upper right hand side, it says 2017, that would be the year. It says 9, that's the month, however, the date is the 23rd and the hour is 17, that would be 5 o'clock in the afternoon Eastern Standard Time. However, the time as far as Jerusalem goes would be midnight and starting the 24th of September and I believe that is the most accurate date for when this great prophecy will be fulfilled.

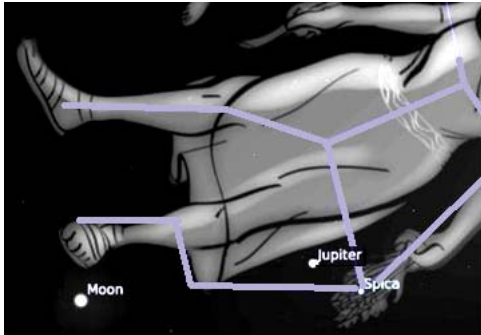

Secondly on this program, I want to show that this prophecy fulfills not only Revelation 12 of the "woman clothed with the sun" but also Genesis 3:15 where the "woman crushes the head of the serpent". And lastly, I want to talk about the significance of this amazing sign. The Bible calls it the "great sign" because it announces the return of our Lord, Jesus Christ.

So first, let's take some close-up views of this great sign and we will see that it fulfills two Bible prophecies. Notice that the date time stamp I have advanced it to September 23rd at 23:00 hours. In other words, that would be 11 p.m. Eastern Standard Time or 6 a.m. in the morning at Jerusalem and the moon has now moved into position during the night-time hours. But not only is the moon under one of Virgo's feet, this is the constellation Virgo.

It symbolizes the Blessed Virgin Mary. But under her other foot is the constellation Serpens which is the Serpent. In fact, this part of Serpens is called "Serpens Caput" the head of the serpent. None of this is accidental, people. We are seeing an amazing fulfillment of Bible Prophecy in this great sign.

Next, we move a little farther up the figure of Virgo and we see the King Planet, Jupiter, being born between Virgo's hips. The King Planet symbolizes the King of the Universe, Jesus Christ. What's really amazing is that for nine and one-half months, Jupiter has been in the

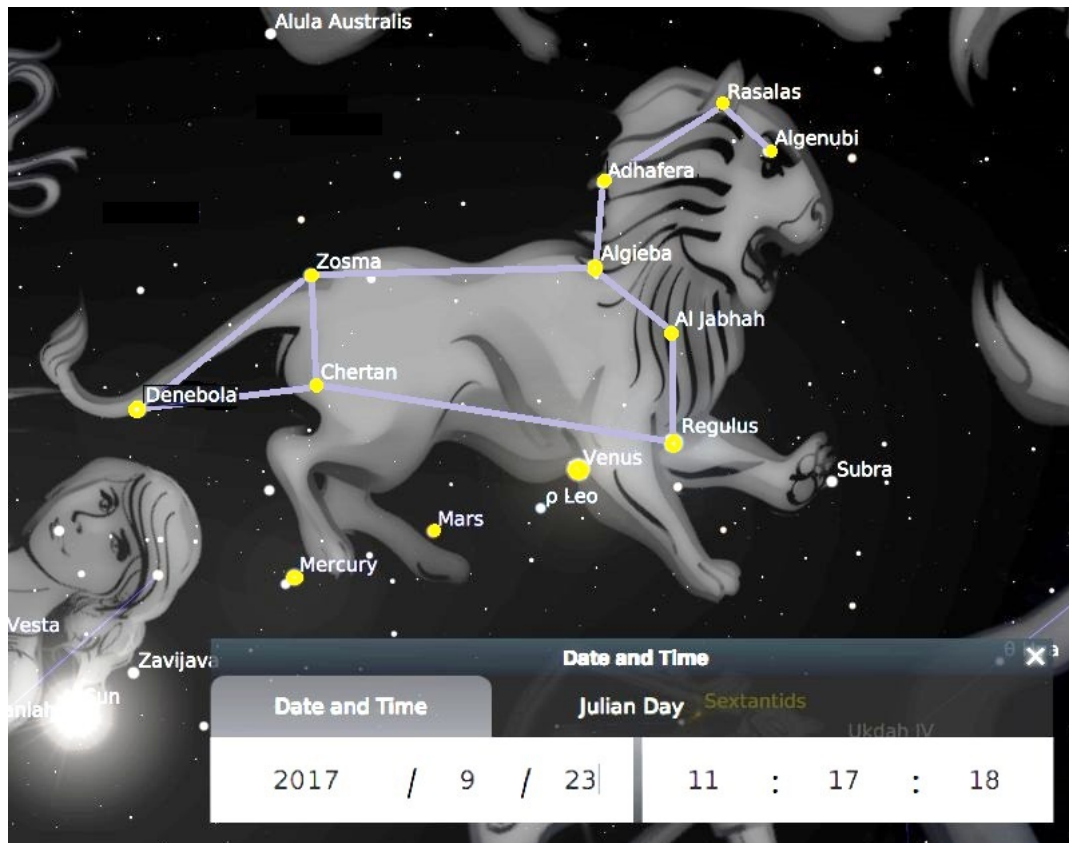

womb of Virgo due to retrograde motion. Let's take a look at how that retrograde motion works. Now I have moved the time and date stamp back to November 10, 2016 and we see Jupiter on Virgo's arm in this artwork and it enters her womb on approximately November the 18th.

Jupiter moves through the womb area but stops just before being born and due to retrograde motion reverses direction and moves back up into the womb. Then it changes course again before being born between Virgo's hips on the weekend of Sept 23rd-24th, 2017.

Now moving further to the right we see the sun located by Virgo's left shoulder and that fulfills the prophecy of the "woman clothed with the sun". Incidentally I am showing this constellation on its side in order to fill out the screen and you get a better picture. The constellation will appear over Jerusalem in an upright position. Moving further to the right we see the amazing fulfillment of the prophecy that the "woman wears a crown of twelve stars".

We see 9 stars in the constellation Leo plus the three wandering stars which we call planets, Mercury, Venus and Mars.

If you check out my video, "Stellarium", of four years ago, I show in much greater detail how those 12 stars actually do form a crown shape.

[https://docs.wixstatic.com/ugd/f9795d\\_d6d31236d8464349b115a5d89f94db9a.pdf](https://docs.wixstatic.com/ugd/f9795d_d6d31236d8464349b115a5d89f94db9a.pdf)

So now let's go to Jerusalem on the morning of September the 24th, 2017 at 6 a.m. and we see this great sign arising from the horizon. We see the upper part of Virgo, her head and her shoulders, and, of course, we see the crown of 12 stars. However, please notice that the sun is shining, that's why there is light on the ground. A lot of critics say that this can't be the sign because you cannot see the sun and the moon and the stars in the sky all at the same time. If you can see the sun, you can't see the moon and the stars. If you can see the moon and the stars you can't see the sun. However, if we move this back just one hour to 5 am; at 5am the ground is dark and you would be able to see the moon and the stars and the upper part of this great sign. The crown of twelve stars would be very visible over Jerusalem at that time in the morning.

Later in the morning, at let's say, ten or eleven o'clock, the entire constellation, the entire sign would be in the sky but you might not be

able to see it because the sun is out. However, what if there were an eclipse of the sun? Maybe the planet Nibiru is come into our solar system and it causes an eclipse, then this entire sign would be visible.

And now let's put the computer program Stellarium in motion and we can see this great sign arising above the horizon in Jerusalem on September the 24th and the entire constellations of Virgo and Leo and Serpens would be in the skies over Jerusalem between the hours of 10 and 12 noon in the morning. Now it might not be visible unless there were an eclipse but, it is certainly visible to us on this computer program. Now who's to say that isn't exactly what the Bible Prophecy intended? Almighty God knew that there would be technological advances in the 21st Century. Daniel even says that knowledge would increase in the End Times. I believe that this great sign is available to us years before it actually occurs due to our own computer technology.

So now, what is the significance of this great sign? Well, when the apostles asked Jesus what would be the sign of his return he said **"there will be signs in the sun, moon and stars"** and Scripture tells us that this is the "great sign". I believe that the date of the weekend of September 23rd and 24th is telling us that Jesus' return will be imminent. And that date is also significant in the fact that it is almost 100 years after the Great Miracle of the Sun at Fatima on October 13th, 1917, also one hundred years after the Bolshevik Revolution. Remember, Pope Leo was given a vision that Satan could try the Church for 100 years. I believe that is the same 100 years.

Also, Martin Luther posted his famous 95 Theses five hundred years previous on Halloween of 1517. Martin Luther is the star which falls in the book of Revelation and he releases a plague of locusts which lasts for five months. Those 5 months symbolize 5 centuries and those 500 years will also be up at the time of this great sign.
