

President Obama's Conversion

On this program, I want to talk about an amazing parable that was given to the United States of America, and to our president, President Barack Obama, and I am referring to that terrible tragedy in Arizona last week, where those six victims of a shooting by a crazy madman. And I especially want to thank President Barack Obama for the speech he gave at the Arizona University last night, at the memorial service for these six victims.

You did a wonderful job Mr. President. I have heard many speeches in my lifetime, from president John F. Kennedy to Martin Luther King, to Ronald Reagan, and yours was one of the best. I think it is wonderful how you eulogized those six victims. I appreciate what you have done for America, and I also want to understand, and I want to let you know that I understand you have had a profound change of heart. This event has affected you in a very important way. You have changed. You have had a conversion experience.

As I have been saying all along in these programs Mr. President, you are perhaps our most important leader in the entire history of the United States. You are the only American president found in Bible prophecy, and I want to explain to you what happened in Arizona last week, and why it is a prophecy of the End Times, especially for America, and especially for you. And I believe deep down inside you understand the parable, and I believe you have changed for the better, but, you also left out the negatives. I appreciate that as president, you have to appeal to voters. You must emphasize the positive. As a co prophet of the End Times, it is my job to do the dirty work, and I do have to point out to you the negatives that you left out. I know this will not make me popular, but that's alright, it's my job. Here is what you left out.

Now as I said, I appreciate what you said about the six innocent victims of that shooter, but you left out the negatives about three of the survivors. For example, Daniel Hernandez is a practicing homosexual. That is why he was given a place of honor next to you in the audience, more than any of the other heroes, and I'm not taking anything away from Daniel. He is a very courageous young man, but the reason he was allowed to speak, the reason he was given two standing ovations, and the reason he was given the place of honor next to you, is because he is active in the gay and lesbian community.

You left that out of your speech, but everyone in that audience understood, and so do I, and I have to give the bad news, because you did not want to. You have to remain popular.

As far as Gabrielle Giffords goes, the congresswoman who was almost fatally injured, she is pro-abortion. She supports the killing of innocent unborn babies. She was doing a wonderful thing, meeting with her constituents at that supermarket, but you completely left out the downside of her voting record.

And the shooter Jared Loughner. He was also mentioned only once in your speech, but there is another American life that is ruined. You did not mention the fact that he is an avowed atheist. You did not mention that he is a pot smoker. Is it perhaps the government's fault for losing the war on drugs that this whole tragedy occurred? You completely left out the downside of the three survivors. Mr. President, those three people, not just the shooter, but also Daniel Hernandez and also Gabrielle Giffords. They must change. They must change to be like the six innocent people who were killed.

And now Mr. President I want to explain to you the parable of the shooting at Arizona, because this was a warning from Almighty God to America and to you .

It's interesting that these three survivors that I just mentioned, all have names from the Old Testament. For example, Daniel Hernandez is named after the greatest Old Testament prophet of the End Times. Gabrielle Giffords is named after the Archangel Gabriel, the messenger from Almighty God. Even the shooter, Jared Loughner is named after Jared, the grandfather of Methuselah. These three people survived, but the most innocent of the six victims, Christina Green was named after Christ.

The parable of this incident in Arizona, is that in the End Times, the anti-Christians, the atheists and the pro-aborts are going to rule America and the world, and the innocents, the Christians, they are going to be martyred. That is the parable of the Arizona shooting, and I know you understand, and that is why you have changed your heart.

And now Mr. President, I want to explain to you, how I know that this tragic, Arizona shooting was a warning from Almighty God. First of all, it was prophesied ahead of time, not by me but by Prophet Aluoch. You can still see his video on YouTube, and in fact I have it favorited on my channel. He saw in vivid detail, this shooting. He saw the crazy gunman. He said he saw people drop like flies. If you watch this, you will see he obviously saw what was going to happen.

The second reason I know this was a prophecy from Almighty God, is because Gabrielle Giffords's head wound prefigured the Antichrist's head wound. I am not saying that she is the Antichrist, but you, and Janet Napolitano and Eric Holder all quoted from the scriptures, but you left out the most important scripture, the most pertinent scripture, the scripture that shows that this was a warning from heaven.

Revelation 13:3 And I saw one of his heads as it were wounded to death; and his deadly wound was healed: and all the world wondered after the beast.

Now this beast is the Antichrist. And I'm not saying you should not quote from scripture. I am glad that the three of you quoted from Isaiah and Job and St. Paul, but the reference to the Antichrist is the most important. And, we also find the number for the Antichrist in this prophecy, and that is 6 6 6. First of all there were six victims, and secondly, this may not be so obvious, but Gabrielle Giffords's initials are GG, and as you can see, 6 plus GG is very close to 6 6 6.

Now of all the letters in the alphabet, G is the most that looks like the number 6.

There is another very important number, which you referenced in your speech, and that is, that little Christina was born on 9 / 11 / 2001. That of course, is the date the twin towers were struck by terrorism. You need to understand there are also prophecies that you will lose the war on terror. That is one of the reasons why I think you have taken this prophecy to heart, and I believe you understand it, and I believe that's why you have had a profound conversion.

And another important number that comes out of this prophecy. Now 3 3 3 is another End Times number, because Jesus was 33 when he died. 3 3 3 is a Christian number, and it's interesting, that when you add the ages of the six victims from 9 to 79, they add up to 333. This is not accidental.

And now I want to address the American people. Here is how I know that our president has had a change of heart. When he spoke about the national anthem, maybe you remember, he put his hand over his heart. Why did he do that? I believe you know the answer, and I know the president knows the answer. That is in response to that video, in which he is shown not respecting the American flag during a playing of the national anthem. He has had a change of heart. You also notice that in his speech, that he quoted from the Bible very respectfully. He is also negating the previous times he has quoted from the Bible without respect. He has had a profound change of heart, due to this Arizona tragedy.

And now Mr. President, I want to address my words to you again, because these are very serious words. I believe your life is in danger.

The New World Order is not going to be happy that you have had a profound conversion. You should look at Prophet Aluoch's video about an assassination attempt on your life. In the Bible, prophets are given true visions, and true prophecies which proved to be true, in order to verify that their future prophecies are true. Prophet Aluoch's vision about the assassination attempt on congresswoman Giffords came true. I am afraid his vision about an attempt on your life will also come true, and the same with my own predictions.

I predicted two months before the election in 2008, that you would win the presidency. I based this on co prophecy, because I understood Daniel 7 and Daniel chapter number 11. You are found in Bible prophecy, but you are also found in Daniel 2 and Daniel 4. In Daniel 2, Nebuchadnezzar has a dream of a great statue, which is knocked down at its feet. In Daniel 4, Nebuchadnezzar has a dream of a great tree, that is cut down at its roots. These prefigure your dreams Mr. President, which you had and which you described in your autobiography.

The tragedy about these dreams, is that both figures in Nebuchadnezzar's dream, represented the king. These prophecies had no bearing whatsoever on the Israelites. Why are they even in the Bible? They are in the Bible, because prophet Daniel predicted the End Times. His visions are for us now, and he understood that they meant that the King would go crazy, in one instance, and that his power would be taken away.

Now your dream, I believe, tells you the same thing. And I believe that is why you were so fearful of your dream. I believe that tall figure in your dream, symbolizes you Mr. President, and I believe it also will be knocked down. Try to remember what happened to that dream figure in your dream, because I believe that figure symbolizes you. You need to look out for your own safety. Don't forget that governor in Pakistan who was killed by his own bodyguards. Are you sure about the Secret Service agents who protect your life? I hope you understand that your life is in danger, now that you have had this profound conversion of heart.

So please take this warning seriously Mr. President. You gave a wonderful speech last night, and I appreciate it. I know you left out the negatives, but I understand that is my job.
