

## **Russia and China Defeat America in Dana's "Distraction Dream"**

On this program I will be decoding Dana Coverstone's newest dream which he calls the "Distraction Dream", and as usual this is an amazing dream. This is the first one that I am aware of that he uses a very ancient Hebraic literary device called a chiasm, and it simply means that there are two sides to it. In other words some of the verses are printed this way, the other verses are printed the other way and the two sides explain each other. And the first I ever noticed it was in the Book of Daniel where we find the chapters 10 and 12 are in fact the same chapter, and you write chapter 10 from top to bottom and 12, next to it from the bottom to the top and the verses correspond to each other and they explain each other. Well Dana Coverstone's newest dream which he calls the "Distraction Dream" works the same way.

And you will find that it is, again a Marian prophecy as most of Dana's recent dreams are. And this is amazing to me, that we are receiving Marian prophecy from an evangelical Christian; very interesting. It's very similar to Kim Clement receiving his prophecy about Esther on March 25<sup>th</sup> 2011, which was the Feast of the Annunciation. He never understood that and I'm sure Dana does not understand the significance of his Marian prophecy and I think the Lord does this so that there's no question about it. I mean if it were a Catholic giving this prophecy, people would say, well he knows that he's giving Catholic prophecy. Well Dana has no clue. Just like Kim Clement had no clue and I think that lends credibility to it. People are not going to accuse Dana Coverstone of being Catholic, but fortunately that's where I come in and explain it to him. No one is going to explain this to him because this is quite complicated and well nobody in in the entire realm of Christianity understands chiasm as it applies to End Times prophecy,

Dana received this dream between April 15<sup>th</sup> and April 30<sup>th</sup> and of course that's right away significant. Numerology is one of the characteristics of apocalyptic prophecy. So he started on the 15<sup>th</sup> of April and it lasted for 15 days and of course you and I in our WFRN, (*World Family Rosary Network*) we understand the number 15; the significance of it. That's a Rosary number because there are five decades in the Joyful mysteries, five decades in the Sorrowful mysteries and five decades in the Glorious mysteries. Those are the original mysteries and we find that significant in Genesis 3:15, because it's Mary who will crush the head of the serpent and she does it through her Rosary.

And in fact I mentioned Kim Clement when he received his amazing vision about Esther on March the 25<sup>th</sup>. At the end when he gave the prophecy, he had everyone in the congregation shout out "Yes" to Esther and they shouted it out 15 times. Now I'm sure Kim Clement did not understand the significance of that, but 15, as I say is a very important End Times prophetic number about Mary's Rosary and this dream is

no exception. You'll be amazed at the numerology in this. So right off the bat we've already got the first part of the numerology, and that is that he received it over a span of 15 days starting on April 15<sup>th</sup>. Now he calls it the "Distraction Dream" and I really don't know why he does that. Maybe he explained it. I didn't really watch his explanation and I did not watch Cheri Goff's explanation because she goes on and on and on and on. So I'm not sure why he called it that. Maybe one of you who watched his dream, you can let me know why he calls it this "Distraction Dream".

What this dream is about is about the takeover of Taiwan by China and the destruction of America by Russia and China. And the only way you can understand that is through what I call, as I say, a chiasm. There are 15 verses in this prophecy and if you go through and read the verses as they are given, in that same sequence that Dana Coverstone gave them, you won't understand the prophecy. You might think it's in chronological order but it's not. Once you put it in chronological order, then all of the questions are answered and I think I told you the chiasm was found very often in the Old Testament, and I'm going to show you the chart of how the chiasm works for this prophecy.

There are 13 verses or sections in Dana Coverstone's prophecy and it's very obvious to delineate those sections as you'll see when we go through this.

- |                                   |                                    |
|-----------------------------------|------------------------------------|
| <b>1) American Plane Flying</b>   | <b>13) Man in White</b>            |
| <b>2) Plane Nose Dives</b>        | <b>12) Explosion</b>               |
| <b>3) Ships around Taiwan</b>     | <b>11) Taiwan Rocket Launch</b>    |
| <b>4) Chinese Planning</b>        | <b>10) Smoking Silos in Europe</b> |
| <b>5) Kremlin Meeting</b>         | <b>9) Heavy Ukraine Missiles</b>   |
| <b>6) European Meeting</b>        | <b>8) Taiwan Knot Loosed</b>       |
| <b>7-A Putin &amp; Xi Jinping</b> | <b>7-B Casually Go To Sleep</b>    |

So here's the chart and you can see I've got the 13 verses on here but as you'll notice on the left hand side I've got the first seven verses from top to bottom printed out that way, 1), 2), 3), 4), 5), 6), 7), and on the right you start from 7. Notice I split 7 into two sections 7-A and 7-B, and then on the right you go from 7), 8), 9), 10), 11), 12), 13) from bottom to top. Once you do that, then you read it in a normal fashion. In other words verse 1), then verse then verse 13), then verse 2) then verse 12), then verse 3) and so on and I will do that later.

I'm going to go through the prophecy as Dana gave it, verse by verse. All the words are there. When I go through the correct way to get the chronology, I'm going to condense the various verses otherwise I'd read the entire program vision all over again, and we don't have to do that.

Okay here's the part 1 of Dana Coverstone's "Distraction Dream". I've got to remember that name because it doesn't make sense. I don't know why he does call it the "Distraction Dream".

## THE DISTRACTION DREAM

**1) "I dreamed that I was watching a large passenger plane with an American flag on the tail. It was not an American airlines flight; it was just a plane with an American flag on it. It was flying very briskly at what appeared to be around 35,000 feet when it began a slight descent that seemed like a normal angle nose up."**

Okay now, like all apocalyptic prophecy, the symbolic interpretation takes precedence over the literal. In other words, this is not a real plane. This plane signifies America. That's why there's an American flag on the tail, and Dana and Cheri Goff, they both understood that part of it. The fact that the plane is up in the air tells me that this is a message from the Holy Spirit. The Holy Spirit is going to tell us the spiritual characteristic of the United States at this time, and Dana says that the plane has already started a descent, and I think that means that America has started to already descend, spiritually speaking.

And what is the significance of the 35,000 feet? The plane is up in the air 35,000 feet as Dana says. Well those of us who pray the Rosary, we understand that 35 is the Rosary number backwards. In other words 53 is a Rosary number. That's the number of Hail Marys in a complete five-decade Rosary; five decades plus the three Hail Mary's at the beginning , and you don't count the three zeros in prophecy, like for example the 144,000 converted Jews in the Book of Revelation. You count the number. The literal number is important. In other words the plane is actually 35,000 feet in the air, but the significance of the 144,000, the significance of that number is you just look at 144, and in this case you just look at 35. And as I say, it is 53 backwards, the way Satan would write it.

And that means that America is in opposition to Mary's Rosary and I think that's true. I can't even get the Catholic Diocese to do live stream rosaries like I do. I do a livestream Rosary every single day here on YouTube at 10 am in the morning. It's very important, but America is not going to be saved until they say "Yes" to Esther, as Kim Clement said, and that means praying the Rosary. So when it's in reverse like this, it means that America is not respecting Mary as they must. And it's interesting that the Holy Spirit gave this prophecy to an evangelical and I don't think he's prejudiced against Mary but I'm sure he doesn't have a clue what the significance of the plane being 35,000 feet in the air is, even though he understands that the symbolic interpretation takes precedence over the literal.

So let's continue now with this first verse because that's not the entire verse. Continuing with first one:

**“I could see a large layer of cloud far below the plane as well and that the clouds there were churning almost like there was wind blowing or something. And I could see people through the windows and they appeared unworried, unafraid, reading magazines, listening to headphones. They were resting and sleeping.”**

So, as I noted before, America is already in decline, and the Holy Spirit says that the clouds are churning below. That's a sign of the Holy Spirit also and I think that the churning clouds mean that there's big trouble ahead for the United States, certainly big trouble is ahead for the United States in this dream. So let's look at the next verse, verse number 2.

**2) “Then very suddenly and just like this, just suddenly, the plane did a complete nose dive and headed straight down. The people on board made no changes in their activity despite the plane heading towards an explosive end. In other words, they just kept doing what they were doing and I was watching them do it as the plane was going straight down.”**

So now what is causing this plane to go straight down? If you just read Dana Coverstone's dream, in this sequence you wouldn't understand because we've already finished the first verse, and that's all there is to it. Why the plane is going down is not explained in here. When we get to the chiasm, it is explained. Then we will understand it, and it's interesting that the people are unconcerned. We'll find out why, and notice that the change is sudden. There's a sudden change and that is significant because this relates to Bible prophecy.

And notice also now in this next verse which is verse number 3, there is a sudden scene change. This is one of the reasons I had to figure out that this was a theistic organization to this prophecy; the chiasm, because the scene changes are so clear and they're so different. And each scene is delineated exactly, and that's in addition to my understanding the first verse about the plane is explained by the last verse which is typical of a chiasm. Okay so let's look at verse number 3.

**3) “At this point I saw naval ships surround Taiwan and aim heavy caliber weapons at the nation. They had started further out of the water but they moved together like they were tightening a knot as they got closer. So basically they were just kind of coming in like this towards Taiwan.”**

And when Dana illustrates this, he brings his hands together like they're putting a noose around Taiwan or as he says they're laying siege to Taiwan. And in this prophecy, Dana does not give a date. Usually in his prophecies he gives a time stamp or it might be the leaves changing color or spring weather, or there'll be some kind of a time stamp or he looks at his watch or the calendar flips up and down, but I did not find any time stamps in this particular prophecy. So, when will this take place? It could be this year, next year, the year after. I don't know. I suspect very soon, but there is no time stamp given on here.

So why would China initiate a siege of Taiwan? And I have a theory about that, and this is not in Dana's dream. I've got a feeling that China is learning from this invasion of Ukraine by Russia with all of the intolerable defeats. I mean there are no winners in war, as they say, and I think China has understood that invading Taiwan would be a disaster. I suspect that they are putting, as he says, like a knot around. I think they're trying to put a stranglehold on Taiwan which to me is logical strategy. Will the United States let them get away with it? Well we're going to find out in this dream that yes they will. Okay let's look at the next slide. This is verse number 4.

**4) “Then I saw mainland China” notice another new switch of scene, “and a room with military leaders at a table pushing pieces on a table map indicating movements of troops and indicating movements of warships. There was radio communication going on between them and I saw leadership sitting near a red button. And I’ll just kind of make it clear this way: I could see Xi Jinping but he was hidden by all the officials that were there. Military was all over; he was kind of backed up in there but he was there.”**

So as I said, here we have another clear scene change. That's one of the things that told me that this could be a chiasm. Obviously in this scene China is at war with Taiwan and who knows who else. We'll see I think in a minute with the United States. We're eavesdropping on a military meeting and Xi Jinping is there. That indicates this is top level, and notice that Dana mentions radio communication. That's very significant as we will see in a little bit. Okay let's look at the rest of verse number 4.

**“Radio communication was going on and I saw leadership. Xi Jinping was sitting near a red button. There was also angry speech and pounding of fists on the tables and they were going back and forth hollering. The Chinese leader was also staring at a phone in his hand and was rocking nervously in an old-fashioned American rocking chair that did not fit the decor of the room. So if you've ever gone to Cracker Barrel and seen those rocking chairs out front, that's kind of what they were sitting on.”**

So this is kind of humorous. Now you notice that Dana mentioned radio communication twice, and you notice that Xi Jinping has a phone in his hand. As far as the rocking chair goes, I'm not sure what that means. Maybe it means that they

are relying on an old-fashioned type of military strategy. I'm not sure. Probably Cheri Goff and Dana discussed the meaning of it and I did not watch it so I don't know and as we notice here, as I said, this was another complete change of scene and these scene changes don't make any sense. It just seems random doesn't it? When we read the chiasm, then we will understand that it's not random and all of this makes sense. Okay let's look at the next verse, verse number 5.

**5) "I then saw a table set right beside Saint Basil's Cathedral near the Kremlin. Putin and his military leaders were having some sort of picnic lunch with large picnic baskets and an abundance of empty wine bottles, not vodka bottles as you would most likely see in Russia, empty wine bottles. They covered the table and the ground around them. Putin was holding his side as if he was sick and having sheer pain in his abdominal region but he was not drinking with his men. He had a cell phone in his hand, was staring at it, while sitting in the same kind of rocking chair as the Chinese leader. Putin was very calm and relaxed and untouched by the boisterous generals that were all around him."**

So again, this is an exposition of the spiritual nature of Russia, at least the Communist leaders of Russia. We've already seen the spiritual nature of the airplane which symbolised America, and it was not good. The Americans were all involved with entertainment and they had no respect at all from Mary. That was the message of the first several verses.

Now we see that Putin does not have any respect for Saint Basil. That would be the Orthodox Church, contrary to what the media tries to tell us that Putin is a very much Orthodox and he's not. Not according to Dana's dream. They are outside the cathedral. Saint Basil's is an interesting cathedral by the way. I was doing some research on it. Cheri Goff did research on the Saint Basil's. She said it showed blasphemy, praying to saints. So I hope Cheri Goff starts praying the Rosary one of these days, but anyway this shows that Putin is not religious. He's outside the Orthodox Cathedral.

And why are they drinking wine instead of vodka? I think Cheri Goff went into this but I'm not sure what she said. Well this is actually saying the same thing, and you'll laugh at me when I say this. Vodka is a spirit. Wine is not. This is another indication that Putin and his generals are not spiritual. They're drinking wine instead of vodka. Now I know some of you are laughing at that and it's kind of funny but it's nonetheless it is true, and I can verify it in Bible prophecy. And it doesn't mean that they are less drunk by the way, because the wine bottles are all over the table and they're all over the ground, so they've been drinking heavily. They're all drunk but they're not drinking spirits. They're not drinking vodka. They're not filled with the Holy Spirit.

Okay, now I'm going to give you an example from the Bible in the Book of Esther. The king, King Ahasuerus throws his party, and he gets drunk and some people have said that this shows that he's a rotten king. It doesn't. It symbolizes the fact that he's filled with the Holy Spirit. And that's why he gets rid of Vashti and appoints Esther, because he's filled with the Holy Spirit. So spirits can symbolize the Holy Spirit and they do in this place. That's why they are not drinking vodka. They're not filled with the Holy Spirit. So what this tells us is that both America and Russia are not spiritual. I know the way to do it is to tell the way it is in the Bible in the Book of Revelation. They are in a spiritual wasteland. In fact, this is about the Scarlet Beast which, I have been telling you for almost 14 years now here on YouTube, represents international Communism. It's about the harlot. The harlot as I've been telling you for 14 years symbolizes Britain and America.

Dana's dream is all about Britain and America versus Russia believe it or not. That's what this prophecy is going to tell us. Okay, now we get another complete scene change. All of these complete scene changes which seem to be like random, they're not random if you understand the chiasm. Okay let's go to scene number 6. And Dana even mentions here the scenes are changing.

**6) “The scene then changed to Europe and leaders there were discussing the surrounding of Taiwan and what can and what should be done to help them. The decision made was to let the world leaders of the United States of America and Great Britain handle the crisis and all these people had faith in the plan of those two nations kind of heading this up and confronting China over this invasion of Taiwan with the naval ships there. Each of the leaders stood up and they shook hands, but they were also wiping sweat off their brows because they realized this was a pretty serious situation.”**

I like the way Dana Coverstone talks, because he talks down to earth, plain English, very understandable. And Britain and America we're going to find is what Dana's prophesying about here and if you watch my channel I've explained this many, many times who the harlot is in the Book of Revelation and who the whore of Babylon is. Please don't listen to the false prophets who say the harlot represents the Roman Catholic Church. That's a big lie from the false prophets.

And in the Book of Revelation John sees the woman sitting upon the Scarlet Beast and the woman represents, as I say, Britain and America, but John says he goes into the desert in the spirit. He says I was in the spirit and the angel took me into the desert and he sees the harlot riding the beast. So in other words both the harlot and the Scarlet Beast are in a spiritual desert and that's exactly what Dana is saying in this dream.

America is in the plane and Putin is outside of Saint Basil's. Both Russia today and the United States are in a spiritual desert. This mirrors perfectly what's in the Book of

Revelation, and in the Book of Revelation we know that the Scarlet Beast burns the harlot with fire in one hour. We'll see that in this dream also of Dana's.

Okay so now we get to the next very interesting verse here, verse number 7. This is the crux verse. So verse number 7 is split into the two and actually Dana tells gives us a clue that we should do that in the very first part he says:

**7-A “Then I saw a split screen of both the Chinese leader and Putin and they both hit ‘send’ on the phones in their hands at the very same time.**

**7-B And they were literally rocking like this so when they were rocking they were rocking opposite but in the same motion towards one another. The leaders then casually shut their eyes and began to go to sleep.”**

Well this is an interesting development. Now first of all I want to mention the splitting of seven. We have to do that because there are 13 verses and with a chiasm you have an equal number of verses on one side and an equal number on the other, so we have to split seven to get half a seven on one side half on the other, and actually the Holy Spirit told us through Dana and the term “split screen”, that this is the correct way to arrange these verses. You split verse number 7.

And Putin and Xi, they hit “send” on their phones at the same time, because it means they are on the same page. They are working together, and anybody who tells you that there may be conflict between China and Russia, that's a lie from Satan. They are all the Scarlet Beast and Revelation represents all of the Communist nations of the world, most especially Russia and China.

What's interesting is that at the end of this particular verse, verse number 7, Putin and Xi Jinping, they shut their eyes and they go to sleep. Does that make any sense? It doesn't make any sense. Remember, there they are in the middle of a war and they go to sleep. That's a way to let us know that this chronology is not correct. You have to rearrange the verses in a chiasm. When we do, then you will understand why Putin and Xi go to sleep at this time. Okay let's look at the next verse, verse number 8.

**8) “The navy ships quickly turned from the coastline to Taiwan and began speedily untying the dragnet that they'd been tying around Taiwan.”**

Well here's another perplexity. What does this indicate? Has China given up? Are they not fighting Taiwan anymore? This is very similar to the last verse. In this chronology there's no explanation of this. When we see the correct chronology we will understand what China is doing here. Okay let's look at verse number 9.

**9) “And I saw over Ukraine many missiles raining down on a larger scale than I've seen in the previous news headlines. They were bigger than even when**

**there was bombing in Kiev and the steel plant where some of those people were trapped. A lot more missiles were coming in than in those headlines.”**

Wow. Doesn't it sound as if Russia is escalating this war on Ukraine like nothing we've seen before now? It doesn't make sense for Putin to be asleep at this time. It doesn't. We will understand this through the chiasm when we get to that. We will know that it is perfectly logical for Xi and Putin to be asleep but not in the middle of the war of course. Okay let's look at the next verse, verse number 10.

**10) “I also saw some large silos all over western Europe uncovered and smoke coming out of them but no launch took place and that reminded me of the missile silos that we have all throughout the Dakotas and around the northern parts of America. Smoke was coming out but nothing was being launched but the lids came off so they could be launched.”**

Well here's another perplexing scene. It looks as if Europe is considering a response to Russia or China but they have decided not to do it. Is that because they're letting America and Britain do it? I think so. That's one of the reasons. But why is there smoke coming out? I think we'll get a clue as to why there's smoke coming out but no missiles, as I say, when we look at the chiasm. Okay let's look at verse number 11.

**11) “I did see a large rocket launch from one of the navy ships the Chinese had around Taiwan. It headed straight up and then took off at what could only be hypersonic speed and then headed east across the Pacific Ocean. I could see over the sky almost apparent lines almost like a grid like if you see a missile going, you see like the check marks, what's going on. You can tell where it's going to end up at. It was headed right over the United States but the trajectory stopped right in the middle of the country.”**

So now we see that China has decided to attack the United States, but Xi Jinping is asleep at this time. You can see the chronology is not understandable until we look at the true chronology of this dream. It's very similar to other apocalyptic prophecy in the Bible especially Daniel. Daniel uses a chiasm very often, so it's not unheard of but I don't think any of the other dreams by Dana have showed this chiastic structure. Okay let's look at verse number 12.

**12) “And at that time, I then saw the plane from the first part of the dream dip right below the lowest clouds and I could see land patterns on the ground below. And then I saw an explosion above the clouds and the plane below the canopy lost all power. It still had power as it was diving but until that explosion above the clouds happened the power went off on that plane almost at the same time simultaneously. So I saw the explosion above the clouds and the plane below the canopy lost all power.”**

Now it's funny if you watch this video which you should and I think Cheri says the same thing over and over that this is not about an EMP (*electromagnetic pulse*) explosion. I don't see how you can say it's anything but an EMP explosion. I don't see how you can interpret this dream otherwise but Dana insisted that this is not an EMP. So I have no idea what he thinks it is, but remember, it is not the job of the prophet to explain his apocalyptic prophecy. It doesn't mean the prophecy is not true. The prophecy is true, but it's up to the co-prophet to explain that yes indeed that is an EMP attack on the United States. Okay so let's look at the rest of 12, because that's just the first half I read to you.

**“Before, it appeared as if the pilot was pushing the speed towards the ground on purpose but now the lights inside the plane were off and people became aware that their music had stopped. The TVs were off and they were looking out of the windows in shock and in literally absolute panic. They were screaming. They were beating on the pilot's door: absolute panic. And then it went completely dark inside the plane.”**

Now remember this plane represents America. So how can you say this is not an EMP attack? The music stopped. The TVs went off. The plane goes dark. Well that's obviously an EMP attack right? I don't see how it could be otherwise. Now he said in the second this slide I just showed you, that it appeared as if the pilot was pushing the speed towards the ground on purpose. That was at the beginning.

So before this EMP attack, the pilot was directing the plane into a decline and I'm wondering if that refers to the president. Is Biden deliberately trying to destroy America? Is that what Dana is saying here now? He doesn't say that specifically but he does mention the pilot deliberately, apparently putting the plane into a dive. Okay now let's look at verse 13. This is the last verse in this dream.

**13) “As that plane was going straight down, I caught one last image, one glance. I could see the man that I always see sitting next to the window unafraid of what was going on. He was just sitting right in the window. I'm looking almost like if I had to turn my head sideways to see how he was sitting. He said out the window towards me: 'I told them to pray but they did not. They need to take it seriously now'. The man disappeared and I woke up.”**

So that's the end of the dream. It's not the end of the prophecy. This actually comes towards the middle of the prophecy, and when we go through the chiasm in a few seconds, we will learn why Putin and Xi go to sleep when they do. They're not going to go to sleep in the middle of a war. We will learn why the ships first advance on Taiwan and then back off.

I'm going to read the prophecy in the order of the verses as found on the chart. So I'm going to read the chart. This is the chiasm chart. This is the way it must be read

to understand the chronology, to understand the meaning of Dana's dream. First I read verse number 1, then verse 13, then verse 2, then 12, and so on. And I'm not going to read each verse in their entirety, but I'm going to kind of condense them and I think you'll remember what the verses are about. A chiasm is one typical Hebrew way of writing out verses. This is common. Okay so let me go through these now and read these in the way they should be read. So verse number 1.

**1) "I dreamed that I was watching a large passenger plane with an American flag on the tail. It was flying very briskly at what appeared to be about 35,000 feet. I could see people through the windows and they appeared unworried, unafraid, reading magazines, listening to headphones. They were resting and sleeping."**

And now we add verse number 13, which explains why the Man in White is criticizing these people. He says:

**13) "I told them to pray that but they did not. They need to take it seriously now."** The man disappeared and I woke up. Now that verse is normally the end of the prophecy, but as you can see it doesn't come near the end of the prophecy it comes at the very beginning. And he is telling the people they need to pray. And what should they pray? Well the 35,000 feet tells us what they should pray. The Man in White is telling the people on the plane, instead of listening to the TV and the headphones and going to sleep and doing all that kind of stuff; Americans are obsessed with entertainment. He's telling them they should pray the Rosary.

I'm sure Dana Coverstone will probably reject my interpretation, but that's what this prophecy is all about. That's the true meaning of the 35,000 feet. That's backwards of the Rosary, so obviously they are not doing what the Man in White tells them to be doing. Not only must they pray, but that is specifically what they should be praying. So we see how verse 13 explains verse 1. This is exactly the way Daniel does in his chapter 10 and 12. Those two chapters are actually the same chapter, and the chiasm convention works the exact same way here in Dana's dream. It's interesting that Dana and Daniel are quite similar. That's not an accident by the way. Okay let's look at the next combination of verses which we would be verse 2 and 12.

**2) "Then very suddenly the plane did a complete nose dive and headed straight down."**

**12) And at that time, I then saw the plane from the first part of the dream dip right below the clouds and then I saw an explosion above the clouds and the plane below the canopy lost all power. The TVs were off and they were looking out the windows in shock and literally absolute panic."**

So I've condensed that scene, but I think you remember that that what it was all about. So first of all we see that the plane very suddenly does a complete nose dive.

That's a reference to Revelation about the harlot and the Scarlet Beast, because remember in the Book of Revelation, the Scarlet Beast burns the harlot with fire in one hour, very suddenly. That's what we see here, and we see the explosion. That's the burning in one hour. Now remember this plane symbolizes America. And the TVs go off, the headphones are off; all of these things. The lights go out. This has to be an EMP attack and I don't know why Dana didn't want to admit that this was an EMP attack. It's pretty obvious. Okay so now we look at the next combination which is verses, verses 3 and 11.

**3) “At this point I saw naval ships around Taiwan and aim heavy caliber weapons at the nation. So basically they were just kind of coming in like this towards Taiwan.”**

And verse 11 explains it:

**11) “I did see a large rocket launch from one of the navy ships the Chinese had around Taiwan. It headed east across the Pacific Ocean and it was headed right over the United States.”**

So first of all, notice how these two verses both mentioned Taiwan. There's no longer a big gap between the two verses. It's not a completely different scene. It's all one scene and you wouldn't know that with the original chronology. Now is this the same rocket launch as we saw with the EMP explosion? I don't think so. If you go through Dana's dream as he reads it, you might think that this is the same attack I don't think it is. I think this is a nuclear tank. This comes after the EMP attack which makes sense. This is how anybody who's going to wage nuclear war; this is what you do. You first detonate an EMP explosion over the nation that wipes out their electronics and they cannot defend themselves, and then you launch a nuclear attack.

So I think Dana's sequence here, if we understand it, that there are two missile attacks; the EMP comes first and then the nuclear attack, but you wouldn't understand that chronology by reading the dream as first given. You're only going to understand this through this chiasmic structure. Okay now let's look at the next verses which would be 4 and 10.

**4) “I then saw mainland China in a room with military leaders at a table pushing pieces on a table map ... there was radio communication I could see Xi Jinping ... radio communication was going on and I saw leadership ... Xi Jinping sitting near a red button.”**

Now let's look at verse 10.

**10) “I also saw large silos all over western Europe uncovered and smoke coming out of them but no launch took place.”**

So I think we can glean a lot of information when these two verses are put together. Now he mentions radio communication twice remember. Notice that? And he mentions that they're looking at their phones. That means that China has not been hit with an EMP attack. That's the significance of that. He mentions it twice; radio communication. However I think it's very possible that Europe has been hit with an EMP attack. Does that explain the smoke coming out of the silos but not launching? I can't think of any other thing it could be. I think you have to read between the lines here. These two verses are together, verses 4 and 10 I think to indicate why the silos in Europe; why they are not fired, and I think it's because Europe also has been hit with an EMP attack. And this is very often in apocalyptic prophecy; you can discern the meanings that are not spelled out.

Anyway that's my theory. My theory is that the silos are smoking because of an EMP attack. And really anybody will tell you that. If you want to take over a country like China wants to take over Taiwan, or Russia wants to control Europe, it's much smarter to use an EMP attack, because then you save all the infrastructure. You don't destroy everything, like Russia is doing with Ukraine. That's not modern warfare. The modern warfare is doing exactly the way Dana's describing here, although I don't understand why they're in a rocking chair with modern warfare. That part I don't quite understand. Okay now let's look at the combination of 5 and 9, and see what that indicates.

**5) “I then saw a table set right beside Saint Basil's Cathedral near the Kremlin. Putin had a cell phone in his hand, was staring at it, while sitting in the same kind of rocking chair as the Chinese leader. Putin was very calm and relaxed and untouched by the boisterous generals that were all around him.”**

**9) “And I saw over Ukraine many missiles raining down on a larger scale than I've seen in the previous news headlines.”**

So Putin is on his cell phone. He's not asleep. The war in Ukraine has stepped up a great deal with numerous missiles. But, Putin has his cell phone on. Russia has not been hit by an EMP attack. We saw that China had not been hit by an EMP attack. They were using their radio communication. Here, Putin has his cell phone. Russia has not been hit by an EMP attack. It's very likely that Europe has and we know that America has, and at this point we cannot look back and say that Putin and Xi Jinping are asleep because they're not asleep yet with this chronology and that makes sense, because as we can see, the war is escalating. So let's look at the next two verses which are verses 6 and 8.

**6) “The scene then changed to Europe and leaders there were discussing the surrounding of Taiwan and what should be done to help them. The decision made was to let the world leaders of the United States of America and Great Britain handle the crisis.**

**8) The navy ships quickly turned from the coastline to Taiwan and began speedily untying the dragnet that they'd been tying around Taiwan."**

So you can see that China has changed its mind about Taiwan. They're backing out. They're untying. They're not laying siege to Taiwan anymore. Well, why would they do that? Because they've already got Taiwan in their grasp. They don't have to invade. They've learned from Russia's invasion of Ukraine. What can Taiwan do?

Notice these two verses are related. Europe has decided they're not going to do anything. I don't think they can do anything. I believe they have had an EMP attack. They're going to leave it up to Britain and the United States. Notice how Britain and the United States are combined in this prophecy, and as we know in the Book of Revelation, Britain and America are combined to form the harlot as I've been saying for almost 14 years here on YouTube. And this dream is about the harlot versus the Scarlet Beast.

So Europe has decided they're going to let Britain and America handle the situation, but as we've seen, America has been burned with fire in one hour, so Taiwan is going to be taken without firing a shot, which is by the way, the exact same way that China took over Hong Kong. Okay now we are at the end of the dream as it should be read, and that would be 7A and 7B.

**7-A "Then I saw a split screen of both the Chinese leader and Putin and they both hit 'send' on the phones in their hands at the very same time.**

**7-B And they were literally rocking like this so when they were rocking they were rocking opposite but in the very same motion towards one another. The leaders then casually shut their eyes and began to go to sleep."**

So now it makes sense. This is the end of the dream. This is the real end of the dream. This is the end of it. They both push 'send' on their phones. That means that neither China nor Russia has been hit with an EMP attack. When they hit 'send' on their phones, I'm sure that means that they've launched a full-scale nuclear attack I would say against both Britain and America. Russia just said a couple of weeks ago that they could wipe Britain right off the face of the map with one missile, and I'm sure they could. That's what I think the 'send' button means.

So why can Putin and Xi Jinping go to sleep now? Because it's over with. They can go to sleep and relax now. And we only understand that with a chiasmic structure. They go to sleep in the middle of Dana's dream, but they go to sleep at the end of the prophecy. And as I say, we only understand that when you understand this chiasm.

And as I say, the chiasmic structure is the same as Daniel uses in chapters 10 and 12. In other words Dana's vision or dream is sealed up, very much like apocalyptic

prophecy in the Bible; sealed up like the prophecy of La Salette. This is one of the characteristics. Another characteristic is the indication of Mary's Rosary. All apocalyptic prophecy that I am aware of, points to Mary's Rosary and so does this dream. And this dream is also a recounting of the prophecy in the Book of Revelation about the Scarlet Beast burning the harlot with fire in one hour. So it lines up with End Times prophecy. Okay that is the end of my interpretation.

Until I do see all of you again, may God bless all of you and may all of you have a very blessed day
