

DANA COVERSTONE PROPHECY FULFILLED IN WICHITA EXPLOSION!

*A Remarkable Correlation to Dana Coverstone's Dream,
'Worse Than You Thought It Would Be'*

William Tapley's broadcast of April 26, 2023

William (WT): Welcome once again, everyone, to Mary's School of Prophecy. I'm your host William Tapley, also known as the Third Eagle of the Apocalypse and the Co-Prophet of these End Times. And, once again, in this program I will be aided by your friend and mine, Paula, who is really an expert on this particular program. In fact, she did most of the decode. And we will be decoding Dana Coverstone's dream [see Dana's broadcast of 3/21/2023], as it was fulfilled in an explosion out in Wichita, Kansas. So, as I say, she will be doing most of the talking. We've discussed this together and have both come to the conclusion that Almighty GOD's warnings to our Remnant Catholic Church are becoming more frequent and more obvious.

About a month ago, Dana Coverstone received his dream, 'Worse Than You Thought It Would Be.' In the dream, he saw a fireworks explosion disaster—which was a warning, we both believe, to the Remnant Catholic Church, for us to flee from the disintegrating Roman Catholic Church. And less than three weeks later...about two and a half weeks later on April 9th, there was a frightful fireworks explosion out in Wichita, Kansas. I'm sure you saw it on the news. And it occurred just a few blocks from two of our WFRN members, Joyce and her daughter Rachael. Let me get a hold of Paula right now, because this is really her program. It's really very interesting what she has discovered. Hi, Paula. I'll let you take over the floor, and every now and then I'll put a slide on the screen. So, go right ahead.

Paula: Okay. Late Easter Sunday, WFRN member, Joyce Adcock, posted a report (on Pieta Rosary's chat) that earlier in the evening there was an explosion at a house in her daughter's neighborhood. It had shaken **Rachael's** home like an earthquake, while they were having Easter dinner. Joyce stated, "It was only 3 blocks away." Three symbolizes that the Divine Trinity allowed the accident, for mysterious reasons. Also, it's very significant that the April 9, 2023 explosion happened on the third day following the 7-month anniversary (observed on Friday, April 7) of **Rachael's** Miracle of the Beads, which occurred at our 2022 Rosary Pilgrimage. This confirms that the Catholic Church will indeed follow her LORD in His Passion, Death, and Resurrection (on the third day). [Rachael's Miracle of the Beads was associated with *the Transfiguration*; and now, she is also associated with an incident on *Easter Sunday of the LORD's Resurrection*! Two Solemnities—amazing!]

Dana Coverstone Prophecy Fulfilled in Wichita Explosion!

William Tapley – April 26, 2023

Page 1 of 11

RACHAEL'S MIRACULOUS ROSARY

WT: I'm putting up a slide of Rachael's miraculous Rosary, her "Miracle of the Beads", on the screen. But, can you explain why this new sign (the fireworks explosion/fire) confirms that the Catholic Church will indeed follow her Lord in his **Passion, Death, and Resurrection**—which is also prophesied, by the way, in the official Catechism of the Catholic Church [see 675-677].

Paula: The explosion happened on Easter (= the **Resurrection**, which was 'on the third day' following Good Friday (= **Passion & Death**). And the explosion happened on the third day following the (7-month anniversary) of Rachael's Miracle of the Beads!

Because Rachael was the recipient of the Miracle of the Beads AND because she was personally impacted by the explosion in Wichita—that duality signals that this event is important for WFRN to understand, *especially since the incident occurred on April 9, so soon after Dana had broadcast his fireworks-explosion dream on March 21.*

This catastrophe and its timing represent **a prompt physical confirmation of the spiritual reality** that Dana Coverstone prophesied, less than a month earlier, regarding the destruction of the Catholic Church. [See WT's previous decode video and/or transcript.] This sudden event demonstrates that time is speeding up, for the sake of the elect (the Remnant), who are hereby reassured about *the safety of refuges*—which was also clearly portrayed at the end of Dana's dream!

WT: At this point I would like to show a photo of the burned-out house in Wichita, where the fireworks explosion took place. [See photo, next page.]

Paula: To reiterate, the residential explosion took place on Easter Sunday during dinnertime. And similar to Dana's dream, folks were expecting a joyous celebration—but then tragedy struck. Joyce stated that, after the explosion, "**we heard sirens.**" The word 'sirens' has 6 letters—as does the word 'flares' that Dana mentioned when describing the fireworks in his dream. **Both sirens and flares are strictly reserved for emergencies.**

THE AFTERMATH (note the house's brick facade)

The *dovetailing* of this real event with Dana's dream is a *fire alarm* activated by GOD the Holy Spirit! Here's what "United Hearts America" said in the chat on Easter Monday: "The house (of GOD) is on fire. Is it the fire of GOD's consuming fire in response to sin, or is it the fire of the Holy Spirit blowing through the land? I think it is both. Get ready people for all types of fire—fire in our hearts, our homes, our streets, our churches. GOD will purge and cleanse, before His presence arrives." Very well said, United Hearts America.

WT: It's also interesting, Paula, that there were two main explosions in Dana's dream **and two** main explosions in the Wichita disaster. It's also *not accidental* that all four explosions—the two in Dana's dream and the two at the Wichita house fire—were caused by fireworks. When the Holy Spirit wants to convey a true prophecy, there's no such thing as coincidences! Do you see any more 'coincidences', Paula?

Paula: Easter this year fell on **4/9/2023**; the numerals in that date total 20 (the number of decades in a full 4-mystery Rosary). Emergency responders to the Wichita fire were dispatched at **5:30 p.m.** (= 53, Hail Mary's in one full Rosary). The time of 5:30 p.m. is consistent with Dana's dream, because he said that their drive to the fireworks display was in the early evening. The Wichita fire department's Battalion Chief stated that they initially used "5 attack lines off an engine"; so, that's **1** engine running **5** hoses (= 1 followed by 5, or **15**, decades in the original 3-mystery Rosary). Remember: Dana's dream *also* incorporated a lot of Rosary numerology.

About the initial explosion, Joyce explained in the chat, "It was a very **loud** explosion." Likewise, Dana had emphasized that the fireworks in his dream were very, very loud. Officials suspect that **the explosion and subsequent fire were caused by fireworks in the garage.** 'Garage' makes us think of cars, and cars were predominant in Dana's dream. (While the garage fire was being fought by emergency crews, bomb experts safely extracted large

quantities of uninvolved explosives from the house.) Praise GOD that Rachael and her family were only aware of the explosion, and were completely unharmed. *This offers a 'firm hope' of safety for the Remnant in refuges.*

THE ATTACHED GARAGE WAS FULLY ENGULFED

WT: Yes, I couldn't agree more. Rachel was protected from the fireworks explosions just as Dana was protected in his dream. We know that Remnant Catholics will be protected when we fly to our refuges on the two wings of an eagle, as Saint John describes in the Book of Revelation. Those two wings symbolize Mary's Rosary and Scapular.

Notice that Rachael was protected inside her home, while Dana (in his dream) had to *flee* back to his home. And it reminds me of the two types of protection that Jesus describes in the Gospels. He says that it will be as in the days of Noah and as in the days of Lot: Noah was protected by building an ark around himself, while Lot had to flee. So, I think it's very interesting that these two incidents—Dana's dream and this Wichita explosion—are very much connected to what Jesus describes in the Bible. Any other observations, Paula?

Paula: You'll recall that **Dana did not recognize the place in his dream, as it was neither Indiana nor Kentucky (two states familiar to him).** He didn't recognize the place, because it was *Kansas*—virtually in the center of America.

Easter Monday, on Thirdeaglebooks' chat, Joyce posited this theory, "We have been in drought. There has been **static** electricity. I wonder if that would set off fireworks." Well, her logical comment correlates to the 'static' on the radio in Dana's dream, which kept him from receiving the news (the Good News about traditional Catholicism).

WT: Here is a slide of the huge second explosion. You can see some of the ejected debris on the upper right. [See photo, next page.]

HUGE SECOND EXPLOSION, WITH FLYING DEBRIS

Paula: Someone on Facebook named Lori Moats uploaded to KAKE News an eyewitness video of the garage fire in progress. At the beginning of that video, **papers are seen flying around** (on the left side of the screen), like Dana described in his dream. While firefighters are busy coordinating their plan of attack (after being dispatched to the scene, following the first explosion that resulted in the blaze), **a *second* explosion occurs and it is HUGE!**

Instantly, burning debris is ejected and flying/falling everywhere; then people are running scared—all very much like in Dana's dream. Some of the debris looks like burning sticks—also described in Dana's dream. The front of the house has a damaged brick facade, with bricks on the ground from the explosion—falling bricks were also in Dana's dream.

WT: This slide shows the fire at its peak near the time of the second explosion. This may well be what Dana saw in his dream:

BOAT, BASKETBALL HOOP, AND PEOPLE RUNNING

Paula: There's a basketball hoop along the edge of the driveway—a symbol of recreation. There's a covered boat parked along the road facing the garage—another symbol of recreation. Sadly, such fun times will not be realized—just as in Dana's dream! Recreation and entertainment are being extinguished by the LORD, to allow for a fiery *faith* instead.

WT: Here is a slide taken AFTER the fire, showing the damaged pickup truck and the basketball hoop in the background:

TRUCK; BASKETBALL HOOP IN BACKGROUND

Paula: There's a **red** pickup truck in the driveway, facing the garage. (Red symbolizes the fire of the Holy Spirit, Whose action this was.) The front hood of the truck was underneath a pile of burning debris. A follow-up news article stated that **the nose of the truck was melted away; its windshield shattered; and all four tires deflated**—damage probably caused by the intense heat and/or by debris ejected during the explosions. This corresponds to the cars on fire in Dana's dream.

WT: This next slide shows some of the clean-up after the fire:

FOLDED FLAG SET UPON THE TRUCK TAILGATE

Paula: *In the closeup photo of the rear of the truck*, notice that someone (a firefighter perhaps) pulled a partially-charred, triangle-folded **American flag** from the doused fire, and set it atop the closed tailgate, along with a water bottle. Remember, Dana said that he did NOT get the feeling that his dream was about either the Fourth of July, or FLAG Day. Well, Dana was right: It wasn't about July 4th or Flag Day. It was about EASTER!

BLUE COOLER, AND TRUCK WITH LAWN CHAIR

Paula: In a photo taken from the end of the driveway, we can see the back of the pickup truck; in the cargo bed is a white plastic **lawn chair**, and alongside the truck is a heat-bubbled, blue **cooler** with a white lid. Dana mentioned that trucks (in his dream) were loaded down with outdoor items for the fireworks event; also, that his station wagon (in the dream) was loaded with coolers and lawn chairs.

THE TRUCK'S BLUE-OVAL FORD EMBLEM

And now it gets even more interesting. A news report stated that the truck is a Ford, model **F-150**—which is significant for a few reasons:

- In Dana's introductory remarks, he mentioned that **150** people had reminded him about his Trump-in-handcuffs dream of a year ago. (Maybe they were thinking that the fireworks in this dream symbolized patriotism/politics?)
- Dana said that the second blast of fireworks in his dream was “really, really loud” and sounded like F-16s taking off. Likewise, **the second explosion of fireworks at the real fire in Wichita was so immense, loud, and startling** that firefighters immediately

retreated to fight the blaze from a shielded position with long-range nozzles. (And there was a third, but smaller explosion later on—another sign that our Trinitarian GOD allowed this misfortune.)

- Note the vague similarity between the truck model F-150 and the model of the jets F-16. In sacred numerology, zero has no value and may be overlooked; so, F-150 may be understood as F-15, which is one less than F-16. (Not accidental.)

WT: In other words, the F-16 jet plane reference may SYMBOLIZE the Ford F-150 pickup truck. In prophecy you can be off by one number or one letter, and still be 100% accurate. Did you know that, Paula? I'll give you the example...the example I always give is Nostradamus, when he gave a prophecy about Hister...he was talking about Hitler, so he was off by one letter (substituting s for l, and transposing letters). That's considered an accurate prophecy, which it was. He saw the rise of Hitler, but he didn't want to give him that name, so he gave him the name Hister, which is interesting.

Paula: Well, I guess if Ford had had an F-160...! [Laughs] But F-150 was the closest model truck that would align with the F-16 jets.

Also interesting are these obscure details: The phone number on the two trash cans does not include an Area Code, but the website indicates it's 316; and if you're out of the locality, you would start by dialing a 1. In that case, the phone number of the Waste Link company is **1-316-838-5465**, which totals 50 (the Rosary).

PHONE NUMBER ON TRASH CANS AT THE CURB

WT: Tah-dah! Isn't that amazing? That's not accidental, people! This is the way the LORD gives us signs. I'm glad you discovered that. I couldn't believe it when I read that!

LICENSE PLATE ON THE PICKUP TRUCK

Paula: And the truck's license plate reads: **AE495**. When the letters 'AE' and the numerals '495' are decoded separately, the values are: A is 1; E is 5 = 15 (Rosary), and 495 = 4+9+5 = 18 = 6+6+6 (Beast).

WT: Super! That is such a wonderful decode, and you're 100% right. And we know there are many places in the Bible, in End Times prophecy, where those two numbers—the Rosary number and the Antichrist number—are side by side. And *at the very end*, the AC number precedes the Rosary number; in other words, the Rosary number 555 defeats 666. But Dana's dream and this Wichita fire is at the *beginning*—this is where we are now, in the beginning of the Great Tribulation, when the Woman must flee into the desert; therefore, 555 is defeated by 666. And that's what this truck's license plate is telling us. It's really amazing. Okay, go ahead, Paula.

Paula: Finally, *regarding the deaths*: There was more than one death in the fire. But here's where it gets surprising. The male resident was home and died as a result of the accident. The female resident was not home at the time of the incident. (She arrived during the ongoing conflagration and was driven to police headquarters for interviewing away from the scene.) Now I consider the fact that the man died and not the woman...it's like in the Garden of Eden. Like you say, Adam fell further than Eve, so it was Adam who had to make up for the transgression against GOD's justice; that's why Jesus died on the Cross and not Mary. Similarly, in the fireworks fire, the man died and not the woman.

About the other deaths involved in the fire: There were four dogs killed in the disaster (evidently, the residents took care of foster dogs awaiting adoption). So, four dogs were killed in the disaster—*but* one dog was rescued. So, they had a total of 5 dogs in that house. Well, one dog being rescued out of 5 dogs means that **20% of the dogs were saved** (5 decades in a single-mystery Rosary; 20 decades in a full 4-mystery Rosary).

WT: In other words, **20% saved** means *only a remnant* will survive into the Millennium. In fact, that's my opinion. The largest group in the Book of Revelation, the hugest group the Bible talks about, they go to Heaven but they don't survive into the Millennium. They know enough, for example, not to take the Mark of the beast. (I've mentioned this many times.) And I suggested that people like the Amish and Mennonites, for example, they understand that you have to flee from the harlot; they won't take the Mark of the beast, but they won't survive into the Millennium. And the Bible praises them. I mean, they are shown in Heaven wearing white robes; in other words, they're martyrs. And they are the largest group. But a tiny Remnant—the Remnant Catholic Church—will flee on the two wings of an eagle, which represent Mary's Rosary and Scapular.

Paula: Undoubtedly, further symbolism could be uncovered; but this decode is sufficient to prove the point that **the real fireworks-fire definitely correlates to Dana's fireworks-fire dream**, for the many reasons put forth in this presentation.

FIRE LOCATED NEAR LARGE OPEN FIELD

WT: I want to mention—I have one more slide here—that Dana (in his dream) saw all this take place in an open field. And I've said that the Catholic Church is described as a field in the Book of Revelation. Jesus refers to it as a field, also. And it's interesting that this field is near where the fire takes place. In the slide, you can see the fire on the left and on the upper right is a large field. And Dana, he called it an open area that was the size of three to four football fields. So, I think this is what Dana saw in his dream: that large green area that we see in the upper right corner, which I would say is the size of three or four football fields. Now, the fire is not smack-dab in the middle of the field, as in Dana's dream, but Dana saw the fire in various places in the field, if I remember correctly. So, I still think that that is the field that Dana saw. It's less than a block away from the actual fire!

Paula: Dana could see that the fireworks explosion debris was falling on the field, but not on the bluff. That he was protected, he was on higher ground.

WT: Well, I think he was protected, because he's not a member of the Catholic Church! In other words, he was seeing the destruction of the Catholic Church. At least that's what I interpreted, remember? And he was kind of on the periphery around the outside, which saved him in a way.

Paula: And also with the destruction of the Catholic Church, Dana's not gonna be drawn to it. [Laughs]

WT: In a way I hope he isn't. (I shouldn't say that.)

Paula: No, but we want him to come into the *Remnant* Catholic Church.

WT: Exactly. And I think he will. I mean, his dreams are *full* of Rosary symbolism.

In summary, it's pretty clear that the Wichita fireworks explosion was a fulfillment of Dana Coverstone's "Worse Than You Thought It Would Be" dream. Plus, I am sure that *both* Dana's dream and the Wichita fireworks explosion are prophecies of the fall of the Roman Catholic Church in these End Times. As Mary prophesied at La Salette: "Rome Will Lose the Faith and Become the Seat of the Antichrist."

Paula: 'Coincidentally', a traditional type of FIREWORK is called a Roman candle!

POSTSCRIPT FROM HAILSTONES:

Carla Cacciatori: Fireworks Explosion is 18 letters = 6+6+6.

RosaryandScapular 555: The license plate reads 495, which represents Easter Sunday, April 9, 2023 or $4/9/(2+3=)5$. If you extrapolate the license plate number AE495—based on the 5 equaling 23—you get 154923: That's **4/9** for the date of April 9, and 53 for 5:30 (the time the explosion was called-in), with 12 for End Times. Also note that AE is 15, which Paula mentioned, and the time span between 1/5 and 4/9 is exactly 3 months and 5 days [53 mirrored].

United Hearts America: Lebanon, KS, is the center of the United States. Wichita is 3 hours away.

6/4/2023 + + + paula
