

## Did Jewish Teen See Israel's Future? Is Obama Gog?

Quite a few of you, my subscribers, have asked me to comment on the vision which Natan, a 15 year-old Israeli boy, had when he suffered a near-death experience several months ago. At first, I was kind of skeptical, but I have been studying his vision lately and I believe he is right on. The main thrust of his vision is that World War III is imminent and that Israel is about to suffer a major attack in which millions will die. I want to go through his vision which he had because the first part of his vision is very interesting and I believe God gave him the first part to verify the second part.

The first part, as I said, is a near-death experience: Natan's soul left his body and went up to Heaven, and he also saw Hell and while he was there, he also saw how we will be judged because he was judged and he said that his merits were put on one side of the scale and his transgressions on the other and he said we will be judged on the basis of our works. Now, he didn't say that exactly, he said on the "*basis of our acts of kindness*" but acts are works and those of you who think we will not be judged on our works, I would advise you to watch this video and I will put a link to it below, because it is fascinating.

After his vision of Heaven and Hell, Natan was given a choice of whether to return to earth or to stay in Heaven. He chose to return to earth because he wanted to increase his merits and when he decided that, he was then given a vision of Israel's future. And this is a most startling vision and that's why his video is getting an awful lot of views on YouTube, and I believe his message comes from Almighty God. He said the attack will come within months and remember he had this vision back, I believe, in September. He said it will be sudden, even though he said this war has already begun, that millions will die, that the IDF, the Israeli Defense Force, will only be able to hold out for two days and they will be overrun. ISIS will kidnap and torture many Israeli citizens. The most astounding part of his vision is that he said this will be a Gog Magog War and the leader of the forces, that is Gog, is none other than President Barack Obama.

Well, this is where I had my original skepticism although I am not surprised that World War III would be a Gog Magog war. In fact, I did a video on this six or seven years ago saying that World War III will be a Gog Magog War and you can look this up if you want to. At that time, I believed that the Gog of World War III, that is the leader, would be Vladimir Putin. Now, the leader at the time of Armageddon is the Antichrist, that also is a Gog Magog war. The leader of the war at the end of the Millennium, which is also a Gog Magog war, would be a postcursor of the Antichrist but the leader of World War III would be a precursor of the Antichrist and, as I said, I thought that would be Putin, however, according to Natan, it will be President Barack Obama.

Now, it's interesting that the conductor of the interview is Rabbi Levy, and he interpreted this war as the Ezekiel 38 war as have all of the YouTube interpreters so far that I have seen and they are mistaken. It is not Ezekiel 38. This is the Daniel 9 war which, as I have been saying all along here on YouTube, precedes the Ezekiel 38 war.

What's very interesting is throughout this interview, if you take a very close look at this particular picture, you will see over Natan's head what looks like to me a cross, a plus sign but, if you look over Rabbi Levy's head, you see what looks like a minus sign. I

believe the Lord is telling us that what Natan is telling us, his vision, is accurate whereas Rabbi Levy's interpretation is not accurate.

Now, the next part of Natan's vision is also amazing. He said he saw the Messiah on Mount Zion. Now, he didn't say Mount Zion, he used a Hebrew term which I didn't recognize and he said there will be a great earthquake and the Rabbi assumed that this would be the Messiah. I don't believe it was. I believe this is the Antichrist. Why do I say that? Because Natan did not see any wounds in his hands or in his feet as Zechariah prophesies. I would not be surprised if the Antichrist shows up and imitates what the Bible says about the return of the Messiah. He could cause an earthquake. The new Haarp Technology can do that. What's very interesting is that Natan says that this figure, who I believe is the Antichrist, kills Obama and that Obama is buried in Israel. Of course that sounds like Ezekiel but as I have said all along

on this program, the Antichrist must bring down three kings and one of those kings is Barack Obama.

Another very fascinating part of Natan's vision is that, even though he saw Obama and he saw one he called the Messiah, he did not see Benjamin Netanyahu. I have said all along that Netanyahu is the "anointed one who is cut off" as per Daniel. I would not be surprised if Obama does go into Israel in order to remove an elected leader. I mean he is already taken out the leader of Egypt who was elected, Mubarak. He took out Gaddafi in Libya. He wants to take out Assad in Syria who is democratically elected. He took out the democratically elected leader of Ukraine so this is typical modus operandi for Obama for him to take out Netanyahu. He worked very diligently using US taxpayer dollars to defeat Netanyahu at the polls so I am beginning to think that Natan's vision is accurate and that when he as Gog invades Israel and takes out Netanyahu, that is a fulfillment of Bible Prophecy and there's no doubt that Obama fulfills the Illuminati's ambitions. They also hate Netanyahu.

It's interesting, for example, that on the Economist Magazine cover of, I believe it was earlier this year or maybe late last year, and a lot of people have analyzed that Economist Magazine cover, many, many world leaders are shown but not Netanyahu. Were they telling us that they had plans to remove Netanyahu (not Obama) in 2015? On that same cover, for example, we see mysterious numbers which very likely indicate the false flag Paris attacks this last Friday the 13th. So in conclusion, I urge you to look at Natan's vision. I believe it is accurate. Don't pay any attention to the Rabbi's interpretation. I believe he is mistaken. I agree with Natan: World War III as it affects Israel is imminent. Millions of people will die, Benjamin Netanyahu will be removed. I believe he is the "anointed one".

I am not giving a date although it's very interesting that this weekend is the 68th anniversary of the United Nations forming Israel as a separate Nation and, according to Daniel's timeline, there's only one more year and he would have had to change his division of 69 weeks from 62 and 7 weeks and leave out that division. Well, I have explained all that in a previous video so I won't go through that on this video. It's getting late already.
