

## Hurricane Harvey is God's Warning to America

A lot of news is being made across the United States, and probably around the world, about the destruction being caused by a Hurricane Harvey in Texas. And I want to mention that three weeks ago I did a program warning you to leave the shore lines surrounding America; that would be the Atlantic Ocean, the Pacific Ocean, the Great Lakes and the Gulf of Mexico. Now, I'm not claiming that I knew about Hurricane Harvey beforehand; that's not what I was warning about. I was warning that you must leave the Whore of Babylon, or as John puts it, **'come out of her my people'**, and the geographical location, as I proved on that program, is that the Whore of Babylon sits on 'many waters', including the Gulf of Mexico, and that's what you must leave from.

And in fact, if you had taken my advice at that time you could be avoiding the effects of Hurricane Harvey. And that is why I believe Almighty God sent Hurricane Harvey: to verify what John is saying in the book of Revelation. Hurricane Harvey is not part of the plagues that will strike the Whore of Babylon, but it's leading up to the great burning of America with fire in one hour and I think we are going to see more of these warnings as we approach the Great Sign on September the 23rd. And I want to read for you from the book of Revelation the warning that precedes the Great Sign and this is Revelation chapter 11, verse number 19: **'And the temple of God was opened in heaven and the Ark of his Testament was seen in his temple'**. Now, the ark of the Testament is Mary herself and this relates to Revelation 12, verse number 1, the Great Sign where a woman appears wearing the sun and with a crown of 12 stars on her head and being in childbirth and this verse 19 just precedes verse 1, **'And there were lightnings and voices and an earthquake and great hail'**.

Most of those are natural catastrophes and I don't believe the catastrophes that John is writing about here are limited to them, for example, lightnings are also associated with thunders and a lot of rain. And 'earthquake', that word is singular, so it could be just one event, and 'hail' is usually associated with high winds. So it could be that Hurricane Harvey is a fulfillment of this prophecy in 11:19 although we don't see, or have heard the voices yet, that would be supernatural. And we haven't seen Mary in the skies, but I believe between the eclipse of last week and September the 23rd, those 33 days, we will see more of these warnings from Almighty God.

But as I say, these are not the judgments on Babylon yet; these are warnings about the judgments coming to America and I am going to reiterate once again, you must leave the 'many waters' that the Whore of Babylon sits on, as John describes, and those are real waters and those are the large bodies of waters that I mentioned. And if you don't have at least have some kind of a plan, some kind of evacuation plan to leave on a moment's notice, I hope now, following Hurricane Harvey, you will listen to what I have been trying to tell you.
