

The Shin Bone's Connected to the Knee Bone

In WFRN's morning Rosary chat on Sunday 7/7/2024, United Hearts America reported having experienced a healing the preceding day [a first Saturday], which just so happened to be the day right after the conclusion of the 2024 WFRN Pilgrimage. Here are the related posts:

United Hearts America – Praise report! 5 weeks I have been unable to walk without excruciating pain in Left shin. Doctor, chiropractor did not solve. Yesterday [Saturday 7/6/24] some odd events caused knee to crack & change position! Weird! Glory 2GOD.

Angel Blue – United, praise GOD.

Ginger-B153 – @United Hearts America, another beautiful praise report! Our GOD still heals!

Mary E – United Hearts America, are you now without pain?

United Hearts America – Mary E, the shin pain is gone. And now, just a slight muscle pain to the side of the original pain, I think weak due to the limping.

Susan Kovach – United Hearts America, Hallelujah.

Mary E – United Hearts America, praise GOD for the improvement! For your complete healing.

United Hearts America – My pain is gone...I've been set free!! I feel completely different in my whole body!! Revived!!

Angel Blue – United, maybe Mother Angelica interceded for you. She had a miracle healing, overnight; didn't need braces on legs, after needing her whole life.

STEPHEN BENEDICT 16 – @United Praise GOD.

Angel Blue – United, a miracle.

Peter Perrine – Awesome @United Hearts America. Now be careful and don't go down the stairs too fast!!

Susan Kovach – United Hearts America, put a refrigerator magnet on overnight; it draws blood to the area & heals.

Paula's comment: This is undoubtedly *another WFRN Pilgrimage-connected miracle*, which we've been anticipating in joyful hope! Significantly, in the chat after today's Rosary, Sam reminded us of the great miracle that occurred on the last day of the 2022 Pilgrimage, by posting this:

Pieta Rosary (Multicast) – Miracle of the Beads review tonight: 1 year, 11 months.
