

Butte Plane Crash - The Abortion Connection

This weekend, that is on Sunday, they are going to erect a granite memorial in Butte Montana in the Holy Rosary cemetery, where last March 22nd, a plane crashed killing all 14 people on board. This week two You Tubers have sent me some amazing information about this plane crash, which I was not aware of.

'Children of the Way' sent me a message saying, 'Third Eagle, what do you think of the plane crash in Butte Montana last March? It killed 14 people, a pilot and three families. In all there were seven adults, seven children, seven males and seven females. Of course this alerted me immediately, to the fact that this must be another End Times plane crash. Both the numbers 7 and a number 4 are End Times numbers. That's become a seven is the last day in a week, and 4 is the last week in a month. Notice also there are three fours, fourteen, four different families involved and four number sevens. Now 4 4 4 is Barack Obama's number and also the number for the United States in Bible prophecy.

I believe this plane crash was another warning to America about the End Times. You may recall another plane crash in Buffalo where there were four different types of fatalities. There were 44 passengers and four crew members killed in that Buffalo plane crash. Again 4 4 4 is Barack Obama's number in Bible prophecy and also the number of the United States.

A second You Tuber also sent me an interesting article from Christian Newswire this week, which adds more interesting facts to this matter. The Holy Cross cemetery, which this plane crashed into contains a tomb for the unborn where local residents go to pray the Rosary for the souls of aborted babies. This plane which crashed was owned by a man by the name of Irving 'Bud' Feldcamp. He lost two daughters, two sons-in-law, and five grandchildren in this crash. What the news media will not tell you is that Bud Feldcamp is the owner of the largest chain of for profit abortion clinics in America. His 17 abortion mills in

California abort more babies than even Planned Parenthood, and so far there is no explanation for this plane crash. It is a great mystery. The F.A.A. has yet to determine a cause of why this plane crashed just 500 feet short of the Butte Montana Airport. Now you might ask if this is a warning to America as I claim, but why wasn't Bud Feldcamp, the owner of those abortion clinics killed? Why was it that his innocent

family members were killed? The reason this is a warning to America, is because many, many innocent people are going to die when America is burned with fire.

All of us are going to face God's judgment for allowing the crime of abortion in America. You need to read Revelation chapter 6 verse 9, because the souls of the innocents under the altar, are crying out for vengeance. This is very unusual for martyrs to cry for vengeance. Under the altar means that these souls have been the victims of human sacrifice, and that is exactly what abortion is.

Another amazing fact about these aborted babies is that the angel tells Saint John is that when their number is filled up, then the End will come. In other words, when a certain number of babies are aborted, and then God will reap vengeance on America. As you know 7 is the biblical number for completion. There were four sevens in this plane crash. This plane crash is indicating that our number is up. The number of babies to be filled up have been completed. Judgment upon America can occur at any moment. You also need to read Revelation 19 verse 2, because that states clearly that God will avenge these babies and America, that is Babylon will be burned with fire.
