

Mary's School of Prophecy The Devil Moose from Belarus

I think you will find the program this afternoon quite interesting, because we are going to talk about the devil moose from Belarus, and if you have your textbooks with you, this is from volume 3, "Mary Will Crush the Head of the Serpent", and it is on page 49. I'm basically going to follow what I covered before on that program, but I will be adding a few little messages on this program.

We should say our prayer to the Lady of All Nations. In the name of the Father, the Son and the Holy Spirit. Amen. The Prayer of the Lady of All Nations. Lord Jesus Christ, Son of the Father, send now Your Spirit over the earth. Let the Holy Spirit live in the hearts of all nations, that they may be preserved from degeneration, disaster and war. May the Lady of All Nations, the Blessed Virgin Mary, be our Advocate. Amen. And please note Mary calls herself the Queen of All Nations, plural. She is not the Queen of the One World Religion or the One World Government.

So now here's the first image I want to show you, and this is what I am talking about. This is the devil moose from Belarus, and this happened I think in 2014, and here is the headline; **"Moose on juice runs loose and hits bus in Belarus"**. As you can see, it is a picture of a moose with his head stuck right through

the windshield of a big tour bus and of course this was one of the messages from Almighty God which I have been talking about.

I have been saying that God has already given us many, many warnings about the End Times and people ignore them, and this was a very obvious warning, but you won't find any of the false prophets on YouTube discuss it because they don't understand the significance of it. Anita Fuentes did cover it a little bit at the time, and she understood the 6 6 6 part which I will show you in a minute, but she didn't understand the rest of it, and I did a video and you know it's got several thousand views but that's not what we need. And for the most part, God's warnings to us have been ignored, especially to this country.

So let's go ahead and look at another view of the devil moose from Belarus. By the way, notice that the moose was on juice. That headline is a funny headline; **"Moose on juice runs loose and hits bus in Belarus"**. When they say the moose is on juice, the policeman explained this accident this way. He said that the moose at that time of year, now this occurred over in Ukraine, between the capital of Ukraine, Kiev

and Minsk, over in that part of the world. And he said that the moose at that time of year, they get high on eating fermented fruit that they find, and they stumble around and they sometimes stumble onto the road, and in this case it got hit by a tour bus, but there is a very significant fact about this devil moose from Belarus, and I think I can show you the reason that's important.

Well here's another picture of the moose, a close-up of it. You can see the moose just about obliterated the windshield and his head is totally inside the windshield, but here is the significant part, and this was the odometer, and you can see what the odometer reads. It reads 666.6 followed by the time of 5.55 p.m. Now is that amazing or what? And the Lord was obviously sending us a message.

Now the moose on juice, what does that mean? What does it mean when someone, or moose in

this case is high on, in this case, fermented fruit? It means that he's being guided by the Holy Spirit.

That's the same thing we find in the Book of Esther, where King Ahasuerus is "warmed with wine", I think is the way the Bible puts it. And what is "warmed with wine"? In other words when he is inspired by the Holy Spirit, that's when he summons Queen Vashti to show her beauty, and Queen Vashti refuses, and of course that's a parable of the Israelites refusing their Messiah Jesus, but it was ordered by King Ahasuerus filled by the Holy Spirit.

So in this case, the moose was guided by the Holy Spirit into the path of this bus, so that we could learn a lesson, and I'll give you a little hint. In the Book of Revelation, the Antichrist suffers a head wound, and in Genesis 3:15, the woman, that is Mary crushes Satan in the head. What's the exact phrase? **"She shall crush your head"** and that is what this parable of the moose is all about. And now I want to read to you the headline which is really very interesting, and this is from the Daily Mail.

'Devil moose' smashes headfirst through Belarus coach and stops mileage clock at the number of the beast: 666.6

- The moose smashed its head through the glass of the Belarus bus
- Bus was travelling on a highway leading from Minsk to Kiev
- The speedometer in the bus showed it stopped at the 666.6 kilometre mark
- The digits 666 represent 'the mark of the beast'

“Devil moose smashes headfirst through Belarus coach and stops mileage clock at the number of the beast: 666.6”. To me, the amazing thing about this, is that in this secular newspaper that is probably online, but they talk about the mark of the beast, I mean you would hardly find any newspaper ever mentioning that, so I mean the Lord got their attention by stopping the odometer at exactly 666.6.

“The moose smashed its head through the glass of the Belarus bus. Bus was travelling on a highway leading from Minsk to Kiev. The speedometer in the bus showed it stopped at the 666.6 kilometre mark”. I think they mean odometer, not speedometer. ***“The digits 666 represent ‘the mark of the beast’”***.

And of course it does, but notice that the article does not mention the significance of 555. Now you and I know the significance of 555. In the bible, it represents Mary's Rosary. That's why, remember when Pope Benedict resigned, God struck the Vatican at exactly 5:55 pm? He was letting us know He was not happy with Pope Benedict's resignation, even though He directed the operation. And He directed this parable also of the devil moose from Belarus.

And did you read the bottom part of when this was printed? Now this was extremely interesting. Let's look at this headline again. Notice where it says below the Daily Mail Reporter, it says it was published 07:06 Eastern Standard Time, on the 18th of June 2014? Now, I have told you before what 7:06 represents. That is when Pope Francis, the white smoke came out of the chimney, [remember that?](#) At exactly 7:06. That represents six hours plus 60 minutes plus another six minutes, in other words 666, and actually the date says the same thing. June 18th 2014. Of course 18 is 6 + 6 + 6 and June is the sixth month of the year. None of this was accidental people. God is giving us a warning.

The only thing I'm not sure about is Mary's identity in this parable, because we know that Mary is the one who is going to crush the head of Satan, so somehow the bus has to be associated with Mary, and I'm not sure how, except perhaps the area that it occurred in, and that is between Kiev and Minsk. And in my program, I attempted an explanation of this, and it may be correct. That area, according to Father Malachi Martin says that it is discussed in the Third Secret of Fatima, and I have never read the Third Secret of Fatima, so I can't understand what that could be, but he says that the salvation of the west will come out of the east, and he says specifically Kiev. He says that Kiev is found in the Third Secret of Fatima. Now I can't verify that, and I'm not sure if he's a reliable source or not, but Malachi Martin had read the Third Secret or at least he claimed that he had.

So now I just want to read this article. Now this is from the Daily Mail. I'm just going to read this to make sure I've got everything down right. ***"A moose smashed through the windshield of a packed coach as it travelled along the highway stopping the mileage clock at the number of the beast 666.6."*** So the article mentions also the number of the beast. I think this is amazing that the mainstream media would dare talk about it, but of course in this country they didn't.

"The moose unexpectedly darted into the path of the bus which was travelling from the Belarus capital, Minsk to the Ukrainian capital, Kiev." And I mentioned to you why the moose stumbled into the path of the bus, at least according to the police. ***"It was only afterwards that the police noticed the mileage clock on the bus read 666.6. The moose smashed its head through the glass of the bus travelling on the highway leading from the Belarus capital Minsk to Kiev. The 666 represents the mark of the beast."***

Now listen to this paragraph. This is very interesting. ***"Several passengers held a roadside service and prayed as police and firemen battled to remove the dead moose on the front of the bus. Bus driver Isaac Voronov said, 'I noticed the 666 on the speedometer too', I think he means odometer; 'but I am not a superstitious person, but when the passengers on the bus heard about it, they began crossing themselves right away, rattling their beads and setting up a cross at the side of the road to pray',*** which I thought was an interesting detail.

By the way, did you notice the name of the bus driver? Right out of the Old Testament, his name was Isaac. So all these details tell me, that this was a verification really of Bible prophecy, that 666 will be defeated by 555, and we have found that in so many instances. We found it when we discovered in Daniel 9 in the last three days. So we discussed how he broke up Daniel in chapter 9 into 27 different verses with six pairs, that's 6 and 6, followed by five verses, followed by two sets of five verses, in other words 66 followed by 555. And our Lord Jesus uses the exact same formula in the Olivet Discourse. The Tribulation verses are in a 666 pattern followed by the victory verses in a 555 pattern, and I've pointed that out 11

years ago here on YouTube. I told you then the verse structure of the Olivet Discourse in St. Matthew,

And nobody in the church, no Catholic, Protestant or Bible scholar has ever picked up on that. And what does that tell me? That tells me that this is all going to happen. We are going to have World War 3, and we are going to have to go to our refuges, because people are not listening to these warnings from God and that's why I don't think we will get a great warning before World War 3. I think He has given us enough warnings. He's given us enough parables like this parable of the moose.

And by the way I've got a picture here I want to show you. You know the Antichrist has seven heads and ten horns? Well I want to show you what a moose looks like with ten horns. I really think that this moose symbolized the Antichrist, and I happened to find this picture. Moose have all different kinds of numbers of horns, but this one happens to have ten horns. This is an Antichrist moose so, there you go. There is the story, and I think it's, well it's very fascinating, and if there were just one or two details, you wouldn't think anything about it, but there are so many details that all fit together, that lets you know that something was going on here, something different than an ordinary incident. Okay, I went a little overtime, but I hope all of you got something out of that parable.

So thanks everyone for being here this afternoon for Mary's School of Prophecy and may God bless all of you and may all of you have a very blessed evening
