

## Dana Coverstone Prophecy Snake Chains Invade America!

On this program I want to fulfil one of my duties and that is as a co-prophet, and in this case I want to do an interpretation of Dana Coverstone's recent dream which he called "The Snake Chain Dream", and he did not give an exact date that he received this dream, he just said it was recent. And it's kind of interesting that when he published this on Monday, almost a week ago, he had two people with him Sheree Goff and John Redenbo, and they interpreted the dream for him and I don't think they did a very good job. They got a few things right and that's why I decided I better do a decode myself, because I think it is an important dream, and I do believe Dana Coverstone is a true prophet, one of the few in these End Times. I mean there are hundreds if not thousands of prophets on YouTube, all over the place and I think most of them are in error. And they may be in error as far as claiming that Donald Trump will get a second term, and we will discuss that on this program.

So I think we can start taking a look at his dream and I broke it up into 15 different sections or verses in order to make it easier for me to interpret and easier to refer back to all of his dreams. And he's been given quite a few in the last I would say six months, and they are about the election here in the United States. And many of them before the election were prophetic of what would happen in the months before the election, and then prophecies of the election itself. And now he is giving

*Cherry Blossoms*

prophecies of the aftermath of the election and he's always about a month or so ahead of the actual fulfillment of the prophecy.

So let's start, by taking a look at what he calls a Snake Chain Dream.

**"I saw cherry blossoms in Washington DC and there was a brilliant sun cutting through a foggy haze early in the morning. But then there was a bolt of lightning that went across the sky from straight up to the clouds and a**

**very loud and long-lasting clap of thunder that ended with a huge rainfall for just a few moments. But the rain stopped just as suddenly and the sun was out again as if a high noon day. There were silver and gold flecks in the clouds and they were glistening like diamonds.”**

Well Cherie Goff and John Redenbo interpreted all of this as symbolic, and I think they are mistaken. This first verse is basically a timestamp. Now that's very common in prophecy and the time stamp is the Cherry Blossom Festival in Washington DC. The place of course is our nation's capital and the cherry blossoms come out usually towards the end of March and the first part of April. In other words, this is after the election and after the inauguration. We don't know who will be president because Dana is not told that in this dream, although I think, as we go through this you will see it has to be Biden as the president. Maybe not, but let's take a look and see.

They also interpreted the rainfall and the lightning and the thunder as if this was the voice of God and as I say, I don't believe this first verse is symbolic. I believe it's all a time stamp. And the sun shower, that's typical. That's atypical of the springtime; the cherry blossoms; the lightning and thunder; that's not unusual in the springtime. And after the sudden shower, the sudden downpour, then the sun comes out again. That's very natural. They said that well since the lightning goes from the ground up, that's unusual. Actually it's not.

That's scientific. Lightning does go from the ground up. That's true with all lightning. So this first part of this first verse is natural, but the last verse is not. That's a very significant verse. So let me read that one. I mean he reads it right along as if it were part of the natural part, but it isn't, and here's what he says.

There were silver and gold flecks in the clouds and they were glistening like diamonds. Well that is not natural. When was the last time you saw silver or gold flecks in the clouds, or that they were shining like diamonds? I've never seen that. This is a transition verse. It leads to the rest of the dream which is prophecy. In other words the first part is natural, and this is a bridge to the supernatural part of the dream. So let's continue now with verse number 2.

**“The cherry blossom leaves began to fall off the trees, slowly at first, and then a hand appeared and began to rip them off the trees in clumps. The wind was blowing them up into the air, and then a tornado funnel appeared and picked up all the leaves, put them up in the air, and then it disappeared and the leaves all fell to the ground and they covered every square inch of the ground.”**

*Tornado Funnel*

Now this is **not** natural. The cherry blossoms falling; you might say well that indicates the fall. No it doesn't. That's the importance of that transition verse; that we are now in the supernatural realm. The fall of the cherry blossoms indicates the fall of America. And then there is a hand which appears and tears the leaves off in clumps. That should tell you that this is supernatural. And of course there's an evil hand bringing about the fall of America. The tornado; that would symbolize devastation and a crisis that's about to come which Dana is going to tell us about. The leaves all fall down. They cover every square inch of the ground. That means that this fall of America is complete and total. That is my interpretation. Let's look at verse number 3.

**“The air then became very dark and gray clouds appeared in the sky and the trees were leafless and appeared very gnarled and ugly and the health of the trees seemed to be in question. But as I got closer to them I saw that the trunk and the limbs of the trees were actually covered in large links of chains and these chains were**

**about the size of boat chains. They must have weighed hundreds of pounds. The leaves on the ground seemed to be about a foot deep around the trees.”**

So, these trees I’m sure are the same as in Bible prophecy. As you know

*Swamp Trees*

this is, as I’ve been saying, this is the symbolic portion of the dream. And in the Bible, trees like this symbolize prominent people. And I’m sure they symbolize are the swamp creatures in Washington DC. These are the prominent members of the Deep State; both Republicans and Democrats; Mitch McConnell, John Roberts, people

like that. They are rooted in the Deep State. That's why they're trees and they are ugly because swamp trees are ugly. And they are leafless because they are lifeless. That's my opinion.

Now the chains represent slavery. In other words the deep swamp creatures are slaves to the system. I think that is what this prophecy is telling us about. I’ve always said that the Deep State is the same as the Scarlet Beast in the Book of Revelation. And this also reminds me of Daniel chapter 4, where the great tree is cut down. The great tree symbolizes western civilization and there's a band of brass and a band of iron around the tree. That symbolizes the One World Government and the One World Religion; the same as the Scarlet Beast in the Book of Revelation. It’s very similar imagery; the chains and the bands around the tree. Let's look at verse number 4.

**“And then I saw a group of men marching in a straight line along the national mall and they were wearing hiking boots and work clothes or what you would consider to be construction type clothing. They each went and stood close to a specific tree. They reached down through the leaves which were all dead and brown by now”**; that does not indicate the fall by the way, this is still symbolic;

**“and they reached down towards the roots of the trees and they grabbed the lowest length of the chain and they began to pull.”**

So who are these construction workers? I'm going to suggest they are Freemasons. I mean the Freemasons are known for construction that's how they get their name Masons. They were, I believe, originally stonemasons in the Middle Ages and that's where they are derived from. That's where they get their name. That's why I think that the construction workers also refer to, maybe to radical labor union leaders. In other words these people are Biden supporters. They seem to be in charge.

And their job is to spread these chains throughout America. They want to enslave America, and these workers could be Communists. The biggest holiday for Communism is May Day. It's possible that we are moving up now to the part through May after March and April, and they are not freeing these

swamp people from their chains when they pull on these chains. Their goal is to spread this slavery throughout the country. Let's look at verse number 5.

**“As they began to pull on that chain their faces were contorted, their muscles bulged. It was a lot of work, very intensive. It was as if the tree had grown into the chains because as they pulled the bark and the pulp they were interlinked between the links of the chain, cracking and popping and exploding off the chains.”**

So that's an interesting image. I think it shows that these swamp leaders, people in Washington DC, they have grown so used to their chains and their slavery, that it's part of them. It reminds me of a barbed wire fence, when a farmer uses a tree as part of the barbed wire fence. I don't know if you've ever seen that or not. I had a huge cherry tree on my old property, and there hadn't been a barbed wire fence there in well I don't remember and I lived there 80 years and I don't remember ever seeing any. Well maybe a few barbed wires, but you could still see the outline of the barbed wire in the bark of the tree. There was a little ridge where the

barbed wire had gone. Of course the barbed wire was deep inside the tree by this time, but that reminds me of this image of where the chains are so embedded, that it's become part of their entire body. They are slaves to the core, so to speak. Let's look at verse number 6.

**“These men were sweating, they were strained, and they began dragging the chains behind them back the way they came on the scene. They strained, they kept pulling, their muscles were physically ripping it was even causing injury to these men as they pulled these chains. It was slowing them down but it did not stop them from pulling the chains at all.”**

I think the Holy Spirit is telling us through Dana Coverstone, that these people are dedicated. Well there's no doubt that Communists and Socialists are dedicated. No one can doubt that people like Bernie Sanders and AOC; they really do prefer socialism to democracy. And I

*The Freemasons Emblem*

think all of Washington DC does; the entire swamp. I think they voted for Biden like 90% of them voted for Biden, instead of Donald Trump. I think that's what this image is. These Socialists, Masons, Freemasons and radical Labor Unions, they are dedicated to overturning capitalism and democracy in this country. That's what this dream is all about in my opinion. Okay we are up to I think verse number 7.

**“And I saw then that they walked onto a large map of the United States of America and each man went and laid the chains down on the boundaries of the different states. And the states, which were represented by horses and mules and oxen, they were just standing there in the outline of all the interior of all the states. These animals began to push against the chains like they wanted to back away.”**

So what do these animals represent? Notice that they are all work animals, oxen and was it mules I think. Mules and horses, these are all

farm animals, work animals and I think that's what they represent. They represent the work ethic of Americans; small businesses for example, and there's no doubt that Deep State is working against small businesses. I know where I live, there's a lot of small businesses that have been forced to close down and all of these Covid rules, regulations; I think it's designed to squeeze small business businesses out. All we have left are places like Costco and Walmart and so on. That's the typical goal of the Socialists. They want to eliminate individual incentive and that's what we are seeing right now. But as you can see, in that verse, the animals, the work animals, the people who have a work ethic, they oppose this socialist takeover of America. Let's look at verse number 8.

**“The marching men eventually connected all their chains together and laid them over the geographical boundaries of each state and those animals were trapped and caged by the chains and they were trying to kick against them and push against them and jump over but they could not do it. They were trapped there. And then a shot was fired into the air and one of the marching men yelled, “that will be heard by the whole world”.**

And of course that is a reference to the famous poem by Ralph Waldo Emerson where the embattled farmer stood and fired the shot heard round the world. I think that was the battle of Lexington and Concord, but there's a big contrast here. That shot heard around the world was about America gaining her freedom. This shot will be heard around the world because it shows America losing her freedom. And I think the construction man is right, that the fall of America will have tremendous interest around the world. Now this sounds to me like a Biden presidency. I can't see any of this happening with Trump as president. It could, because even now the Deep State has a tremendous amount of power, so Donald Trump could be president but it shows that if he is, he doesn't have much power. Verse number 9:

**“And suddenly the air was filled with red, white and blue lightning and the crack of thunder was very loud and the trees began to bleed from the roots and the blood that was coming from those**

**trees began to stain the ground under it until it flowed to every state boundary and through every state on the map.”**

*4th July Fireworks*

In this case I believe the red, white and blue lightning is another time stamp. I believe it symbolizes the fireworks; the 4th of July. I think we are now up to the 4th of July. Now you might say, well why didn't Dana Coverstone just show fireworks, red white and blue fireworks going off? Well because remember this is the symbolic part of the dream. Certainly the red, white and blue lightning is not going to symbolize

something wonderful for America, because what we see of America is the enslavement of America. That's why I believe this is a time stamp and I believe that it signifies the 4th of July. The enslavement of the states starts in the spring, in other words shortly after the inauguration of the president, but the ensuing bloodshed will start later in the summer. I think that is the meaning of this.

Now the swamp trees, the blood coming up from their roots, that's an unusual image, but I think it simply means that the swamp trees are rooted in bloodshed. The only bloodshed I can think of is abortion. This is the lifeblood of the swamp. This is the one thing they fight the most for. How many innocent babies have been aborted due to policies in Washington? Washington, 50 to 60 million I believe. I think that's what this bloodshed indicates.

The only campaign promise that Donald Trump was unable to fulfil was the defunding of Planned Parenthood. There was so much opposition to that platform. All the other parts of it, points on his platform he got passed, but not the defunding of Planned Parenthood. That's what I believe this bloodshed represents, and it also indicates that the spread of Communism throughout America will result in bloodshed. Okay let's look at verse number 10, the next verse.

**“And the chains then coiled back like live snakes until the blood had covered the entire outlay of the states. So it just kind of moved from where the trees were in Washington and it just moved steadily and slowly until it covered all the ground of the map on the boundary lines.”**

So this is now a development, as far as the chains go. They, with the bloodshed, we now see that the chains are evil. The chains not only indicate slavery, but serpents and of course we know serpents in the Bible are demons, and in fact the number 1 serpent we see in the Book of Genesis, Genesis 3:15: “and the serpent seduces mankind”. And I believe this is a reference to Genesis 3:15, because in Genesis 3:15, the woman crushes the head of the serpent. Not all denominations including my own Roman Catholic faith teaches that any longer, but nonetheless that is the truth. And I think that's very interesting because Kim Clement in his famous prophecy, which he received on March the 25<sup>th</sup> 2011 or 12, he said that a woman will save America, not Jesus, not the church. He called the woman Esther. The woman in Genesis 3:15 is Mary and Esther in the Bible also symbolizes Mary. So let's look at verse number 11.

**“The heads on the chains kept guarding the boundaries and hissing and spitting at anything that got close to them and biting those that got too close. I then saw people who appeared to be bitten and once they were bitten these people would go to the ground and start having seizures and foaming at the mouth and then they would die.”**

So now we see that this bloodshed is affecting American citizens and we should not be surprised. The spread of Communism throughout this country will be violent, and we see that already with people like Antifa and BLM. Verse number 12:

**“But there were some that knelt in prayer and after they had prayed on one knee then they**

**approached the snake chains with a rush and no fear. And some of these people were bit by the chain snakes but they did not go down.”**

Well now this is an interesting development. So now the people have learned how to defeat Communism. Now it's very interesting that they go down on one knee. What does that signify? Cherie and John; when they interpreted, they never talked about going down on one knee, but that is tremendously significant. That means one faith, one dogma, one Church. And it's only after they go down on one knee that they begin to have success against this Communist takeover of America. And as I tell people on this program, especially in my morning Rosary program, this represents the one faith in the End Times which succeeds, which is the remnant Catholic Church, not the Roman Catholic Church. The Roman Catholic Church has been taken over by Satan and the False Prophet as Mary prophesied at La Salette. Rome would lose the faith and become the seat of the Antichrist, and as I say, the stone cut from the mountain in Daniel 2 represents this remnant Catholic Church. That's what these people have become.

Now Dana Coverstone doesn't mention that and the Lord does not show him that. If the Lord showed him that the one faith, one dogma, the one knee, symbolized the remnant Catholic Church, Dana Coverstone would reject the message and he would say 'This can't be from the Lord', but of course my job is to let you know what that, 'going down on one knee' signifies. Okay let's look at verse number 13.

**“Others were bit and did go down but they did not die and they returned to praying before they approached the boundary again. They were in pain but they kept walking to pass the boundaries praying as they walked through and they also seemed determined to find other people praying and join with them to pray in a larger block.”**

Okay so what does this mean? A larger block; this means that the stone cut from the mountain, the remnant Catholic Church is growing, and we know that from Daniel that the stone becomes a great mountain itself,

and covers the entire planet. Notice however that these people are in pain, and we see that in Genesis 3:15 where the serpent strikes at the woman at her heel, and the same would be for the seed of the woman. Our job was to take on the seed of the serpent. That would be the Antichrist and his minions, and that's what we see here. So there will be pain, even on those who are part of the remnant Catholic Church. We will suffer in this battle. Let's look at verse number 14, I think I'm up to.

**“And when they met in larger groups they would sing, they would lift their hands, they would pray, they would link arms and they would be shoulder to shoulder. And the main thing I saw with them, that they had smiles on their faces, there was joy, they were appreciative and excited. And even though the snake chains were lifting up behind them and hissing and whipping there were more groups meeting after crossing the lines to pray and they were growing.”**

So I think we see further development of this stone cut from the mountain. Now the stone is cut by Jesus. Jesus certainly has a very important role of course. He is our Commander-In-Chief, but don't forget in Kim Clement's dream /vision, it is not Jesus or the church that saves America, it's the woman. I don't think Dana understands that but at least he is describing our remnant Catholic Church and it's similar to George

Washington's vision. He received a visitation from the Blessed Virgin Mary, but he did not understand who the woman was. And the woman showed him a very similar vision of these End Times about America that coincides with what Dana Coverstone is telling us here; very similar about the battle against the red fire which is Communism.

In fact this dream is identical to Dana Coverstone's dream, his 'Hold Your Breath'

dream. Remember the blue wave covers America and the people are knee-deep? And I told you at the time, I interpreted that dream that, that blue wave actually is a red wave. And that also symbolizes Communism. This is really the same dream. Remember in that dream everything seemed normal at the beginning. It was as if 2020 never happened, according to the way Dana put it. Well that's the way this dream started. It was springtime in Washington. The cherry blossoms were out, and there was a passing light thunderstorm. Everything was back to normal, but it didn't take long before Biden's presidency, in my opinion, exerts itself. Okay now let's look at the last verse, verse number 15.

**“So every state was covered with people who were praying and praying together. The clouds were still churning with evil but the people were praying and they stood their ground and they prayed even louder. And that was the end of the dream that I had.”**

So thank you Dana Coverstone for receiving that dream. It's certainly very interesting, and as I said Jesus is our Commander-In-Chief in this struggle, but Mary is his five-star general, and the weapon we have to learn to use, and the Protestants are also going to have to learn to use it, and that is Mary's Rosary.

I had a comment on one of my videos just today. The guy ranted on for, oh my goodness, I couldn't even read his whole comment. And he said Dana Coverstone is a false prophet, and then he gave the example from the Data Dream, where Joe Biden is supposedly in the casket, remember? And there's a date on the calendar December 17<sup>th</sup> but Dana Coverstone said that did not necessarily mean that Joe Biden was going to die, but anyway this guy thought he sure had nailed Dana Coverstone down to the wall. But I explained in that dream what that December 17<sup>th</sup> represented, and I told you that the casket did not hold Joe Biden. The casket was Joe Biden. He is like the whitened sepulchres that Jesus said the scribes and Pharisees were; full of dead man's bones. That's what that casket represented in the Data Dream.

The date of December 17<sup>th</sup> I explained that too. I said there was a countdown. The Data Dream as you know was about the discovery;

discovery of the corruption of the Biden's, and Biden says that he is the Democrat party and that's what we find out. All this data that's pouring in tells us the corruption of the Democrat party, and Biden, and the Biden family, not just him, but his wife and his son.

And the date of December 17<sup>th</sup> has to do with **when** this would start. Remember there was a countdown? 10, 9, 8 and so on, and a countdown on one side of the Mississippi and I said by extrapolation there was a 10 day countdown on the other side of the Mississippi. That's 20 days. When you go back 20 days from December 17<sup>th</sup> and you come to just about Thanksgiving which is what I said. And I said it is at just around Thanksgiving that this data dream will explode on the scene and that's exactly what happened. Thanksgiving eve, Sidney Powell published her 104 page indictment of the corruption in the Democrat election process, and on the same day Rudy Giuliani held his first public

*Pastor Dana Coverstone*

hearings in Pennsylvania. His dream was 100% accurate as long as you understand the interpretation.

If you people who call out Dana Coverstone and say he's a false prophet because nothing happened at some December 17<sup>th</sup> they don't understand the prophecy, and you have to be very careful to call a lie like that about somebody. That's bearing false witness against your neighbor.

The problem with the Data Dream is that the corruption of Biden won't be exposed, and I told you the problem is that Donald Trump may very well decide not to prosecute Biden and the Democrats. He may concede in other words. I know that's not what we're hearing a lot on YouTube and all over, and that is that he's fighting tooth and nail, but not according to Dana Coverstone. I think that he may concede in the name of unity. Remember in that dream, the angel appears and he says this will not bring about unity? And he's right of course. That will not bring about unity.

So I think it's kind of interesting these this chains to snakes' dream. I'm not sure if I can say that this is indicating that Biden will be president or a very weakened Trump will be president, but either way it shows the snakes and the chains encircling the states, enslaving the states and then the bloodshed shows that the takeover of America by communism will be violent. This coincides exactly with the vision that George Washington received. And of course the answer is prayer and Dana Coverstone understands that part.

We Catholics in the remnant Catholic Church, we who are in the stone cut from the mountain, we understand specifically that the prayer we must pray is Mary's Rosary. Okay so that is the end of my interpretation of Dana's dream.
