

## **“It’s Not Me They hate, It’s You” Dream**

This is a special program and we are going to be talking about a recent dream between January 23rd and January 26th by Dana Coverstone. The title of this program will be the same as the title of Dana Coverstone's dream and that is “It's not me they hate, it's you” and of course that's basically what Donald Trump said all during the campaign, He says, I am the only one between you and the Deep State and he was so true. And of course they are coming for all of us now and Dana Coverstone's dream is a very serious warning to the United States and I think, just like all of his dreams, they are very accurate. I think they come from the Holy Spirit. If you read Jeremiah 23 you know that God said that he will give us true prophets in the End Times. A lot of false prophets of course are all around, but there are a few true ones and I believe Dana Coverstone is one, and we had one with Kim Clement.

So let's go through his dream, and I think what we're going to find, is that all of the major institutions in America; none of them are going to save America, and of course this is the opposite of what we've been told. I mean if you listen to Q, which I did for the last two and a half years, he said “Trust the plan”, over and over again, “Trust the plan”. Well what plan was that? I think most people were really let down at the inauguration because people expected, at least Biden would be arrested and most of the traders in the audience, but none of that happened and all of the people who supported Q were kind of flabbergasted. And they've tried to come up with a lot of excuses since then of why the plan did not happen and I can tell you why.

It was not God's plan, and I think Dana Coverstone will reveal in this dream what is God's plan. That doesn't mean that Donald Trump is not still guided by Almighty God. In Isaiah 45, his right hand is guided by God and I think God told Donald Trump to back off the plan. It was his decision. I was the first one here on YouTube to tell you that. I mean there were all kinds of possibilities expressed. Somebody said that he

was afraid a nuke would go off, or the Deep State was threatening him, but Donald Trump is not afraid of those things. I am sure it had to be a higher authority that told him to back off and not carry out the plan that we were supposed to trust all these days. In any event let's take a look and see what Dana Coverstone said.

Now he's divided this up into different scenes and the first scene is called the "Hospital Nursery", and I will put these on the screen and I'll read them right along with you.

**Scene 1) HOSPITAL NURSERY. "First of all I saw a hospital nursery filled with hundreds and hundreds of cribs with babies and many were crying, some were sleeping. And I saw maybe 12 to 15 nurses who were running everywhere trying to take care of all these babies. It was obvious they were stressed. They were sweating, they were nervous, they were running from here to there. They'd get one baby put down and another would start crying. And this room was huge like an auditorium."**

So I remember when I first I listened to him saying it, I knew right away that this had to be symbolic. I mean what hospital do you know would have room for hundreds and hundreds of newborn babies? First of all, there are not that many newborns in this society, even if it was in the biggest city in the country, and besides, Dana says the room was like an auditorium, so this has got to be symbolic. And in this next section we'll see that the man who appears in Dana's dreams often tells us that it is symbolic and it tells us what it symbolizes. So there's not a real secret about what this room symbolizes and that's another indication that this is apocalyptic prophecy that is it must be interpreted.

As you know the rules of apocalyptic prophecy symbolism takes precedence over the literal interpretation. You need a co-prophet. Any work of the Holy Spirit requires two people. In this case a prophet and a

co-prophet. Numerology is always extremely important and Mary's role in the End Times is usually prophesied.

So let's look at the second part of the Hospital Nursery. **“They kept saying there were not enough of them and they needed help. They were actually calling out for help, ‘anybody here, can anybody help, please come help us, please come help us’. They were still unable to help take care of all those babies. Some of the nurses were holding two and three babies at a time trying to feed them, trying to calm them, trying to get them calmed down, put them back into the cribs. That man that I see so often was dressed as a doctor in a white coat. He just looked panning the room and he said, “the harvest is full but not enough for helping.”**

So I'm not sure if he says it here but anyway, that's of course a paraphrase of what Jesus said, “the harvest is great but the labourers are few.” So this is obviously the church. And I would say the church in America, because all of Dana Coverstone's dreams that I've seen so far refer to America, especially the election and the aftermath of the election. So he is describing the church as being overrun with Christians who are babies; baby Christians I guess you could say. They only have a very rudimentary knowledge of their faith, and the whole the church is in a state of confusion.

People are running here and there. And the people who are trying to teach or help the baby Christians, there's just not enough of them. So I think basically, what the Holy Spirit is telling us is, don't expect the church to save America. As I say, this dream is about those groups, those institutions that are not going to save America, so we can write off the church. That's what the Holy Spirit is telling us.

So now we're going to look at the next group that will not save America.

And I call this section, section 2 when I call it Two F-16s, because that's what it's all about.

**Scene 2) TWO F-16s. “The next thing I saw was Washington DC and there were two F-16 s flying in a circle around the boundaries**

**of the city, of the Capitol. And they would circle and then they would fly towards each other but not in the same line, not head-on. And then when they got to the other side, they would do that circle again and they were both circling in different directions. They weren't going, it was not two F-16s circling together like this, it was one going this way, and they were meeting going around.”**

It sounds to me like he's just describing a figure eight, but basically I believe that the two F-16 s represent the military and you get the impression that the military is very weak and what they're doing is, they're going around in circles. The military is just another institution in our society that is not going to save America. And a lot of the pundits on YouTube, a lot of the people I follow, they say ‘well trust the military’. I think it was Praying Medic who said that the church would save America. I’m not sure. I forget. I shouldn't quote other people, but anyway I listen to what they say.

And so now we see that neither the church nor the military are going to save America. Now this section continues. This is the second part of the F- 16. **“Each of those F-16s,”** and here Dana Coverstone interjected his own comment. He said, **(“I used to live in Terre Haute right next to a military air force base or an air force area and we saw F-16s take off all the time so I know what they look like) they had sensor-like equipment on the bottom of them as well as missiles under each wing. And the pilots were watching very close to the airspace; you could see the pilots talking to one another and looking and watching at the perimeter.”**

So I get the impression from this image that the military are weak and we've only got two F-16s guarding the capital. And as I said, they're going in circles, and I think the message is that the economy, the military is not going to save America. And next we're going to see that the economy is not going to save America. And the title of this slide or this section, the third section, I call it, “Money

Blowing in the Wind”. So let's read this part of Dana Coverstone's dream.

**Scene 3) MONEY BLOWING IN THE WIND. “Then I saw the Capitol building and inside, in the chamber, there was what looked like a furnace but no wood, no fires. It was like a suction device under where you would put the wood and I saw congressmen and senators and they were shovelling stacks of hundred dollar bills into those fireplace areas.”**

Now let's look at the next slide.

**“These congressmen were shovelling stacks of 100 dollar bills into that fireplace and they were being sucked up through those pipes and they were flying with the wind in every single direction out and about, but nothing was landing on the ground. And there were people on the ground in coats and gloves and they were looking up and jumping up to grab the money but it was too far above them and they couldn't get it in their hands. Even people on top of the buildings had nets and bags but they could not reach the money as it flew past them.”**

I think Dana Coverstone is saying here that the economy is also in shambles without any direction. And to me, this is a pretty good image of the government trying to pump up the economy with stimulus checks. But you see, that the average guy on the street level, they're not getting the money. It's blowing up over their head, and even the upper management types, and the elites and the professionals, they're trying to grab the money, and they're not getting it. And most analysts I have read about these stimulus bills, will tell you that most of the money goes to foreign countries or to special interest groups or to pet projects of the congressman. It doesn't go to the people.

And I know Q used to say that if you follow the money, the foreign countries give kickbacks to the congressmen who voted them all of these taxpayer funds. And I think that this image is a good example, is a

*Page 5 of 13*

good indication in Dana Coverstone's dream from the Holy Spirit that, don't expect the economy to save America. Don't expect government stimulus checks to save America. So that's the third group that is not going to save America. So now let's look at the next group that is not going to save America. And I call this scene;

**Scene number 4) SENATORS ROUGHED UP. “Then the next thing I saw was up in the balcony of the Capitol there were about 30 congressmen and senators. I know who I saw; I’m not going to say names for this one. And they were barricaded into the middle section there and it was obvious that some of them had been beaten, some of them had been abused physically.”**

Now remember as I said, this is apocalyptic prophecy and therefore it is symbolic. I don't think that these senators and congressmen were physically assaulted although that's the way he is describing it. I think that means that they are politically assaulted. And actually we see that go going on right now. Any supporter of Trump is being threatened. I think they want to pass bills that you can't even have a federal job if you supported Donald Trump. You can't be in the military. In fact they tried to vet all of the National Guard in Washington that any Trump supporter or any Republican couldn't be part of the national guard in Washington. So this kind of attack on the right, on the Trump supporters, it'll probably eventually end up physically, but in this case I believe it is symbolic. And it's amazing to me that Donald Trump is still being attacked in the media and his supporters. So let's continue with these senators being roughed up dream. This is my second slide.

**“They were surrounded by a police unit, non-military with rifles with body armour helmets and they had faces that were covered. And they were being very aggressive towards the elected officials that were kind of rounded up in this middle section of the Capitol balcony. One senator stood up and he demanded to know why they were being held like prisoners and treated like prisoners and was**

**hit in the face with the butt of a rifle and was told to stop asking questions.”**

So symbolically that symbolically this is exactly what is happening right now. You could say that this is not really a prophecy, but I think since it is a prophecy, what the Holy Spirit is telling us is that this is going to continue, and it's going to get worse. In other words the senators and congressmen, that's one more group that is not going to save America. And why? because there's too much antagonism, too much division, Congress is bitterly divided, and as such it can't save America.

**Senator Rand Paul**

If you listen to Rand Paul a couple days ago, he described the impeachment on Trump as a vendetta. It's to try to impeach a president who's already left office. What are these people afraid of? Well they are deathly afraid. They're afraid probably that the truth is going to come out. And finally we come to the last scene in Dana Coverstone's dream and we are going to find the one man who most of us had hoped would save America, but it doesn't look good.

**Scene number 5: TRUMP ALSO ROUGHED UP. “The scene quickly changed to the floor where the former President stood in the area where the State of the Union address is given. He was in handcuffs and one ear was bleeding a very bright red, and not normal blood red or the color of blood that you would see flowing. It was a very bright red blood.”**

So remember symbolism takes precedence over the literal and here, the Holy Spirit tells us that this is not really blood. It's the color red is what's important. And in this case I think the red blood symbolizes communism. And there's no doubt that Trump has been attacked non-stop by the Left ever since he took office actually. And I think that's what this dream is about and that these attacks are not going to stop. I check out, I think it's Yahoo news every morning,

*Amazing Prophecy in Dana Coverstone's Dream, "It's Not Me They Hate It's You"*

*William Tapley – 27<sup>th</sup> January 2021*

*Page 7 of 13*

and you would think there had been no election. You would think the election was still in the future, the way they continue to attack him. I mean I'm not surprised that the media hates Trump but why would they continue attacking him, unless they themselves still consider Donald Trump as the real President. Let's look at the next section of Donald Trump being roughed up.

**“And the other ear was bruised to the point it was just black and blue, like you'd be like if were in an accident, or a car accident or something and you'd been hit by a two by four it seemed. His ear was just black and blue, bruised, deeply bruised. His eyes were very bloodshot and he appeared to barely be standing on his own. Matter of fact, the sergeant-at-arms was directly behind him holding him up and he was whispering in his ear.”**

As I say symbolism is what we're talking about here, so being bruised in the ears, I think that means that he can't hear his supporters or he can't communicate with them. I think that's what it means. In other words he's in isolation, and of course I think he is in isolation.

*Donald Trump's estate in Florida, Mar-A-Lago*

I don't know where he is now, I guess down in Florida, but he basically has been cut off despite what a lot of this his supporters are saying on YouTube and elsewhere. I think Donald Trump is no longer really effective. So let's look at the next section on Donald Trump, and this would be the third section.

He's talking about the sergeant-at-arms, **“He would occasionally squeeze his right arm as well and the former President”**, well the former President has got to be Donald Trump, **“would wince almost like he was hurting, he was in pain. And he would almost go to his knees every time that the sergeant-at-arms would squeeze his right arm. And suddenly the former President pushed himself up towards, just closer to where he was. He stood up and went**

**forward quickly and he suddenly spoke out loud and said, 'It's not me they hate it's you, it's not me they hate it's you'."**

And as I said at the beginning of the program, that's a paraphrase of what Donald Trump has been saying all throughout the campaign. He is the only one standing between us and the Deep State. And there's no doubt that the Deep State will come after all of Donald Trump's supporters, unless there is a plan in place. Is there a plan in place to defeat the immaculations of the Deep State? The Holy Spirit is telling us that we can see there are at least five elements in our society including Donald Trump, who are not going to save America.

And the Holy Spirit is verifying in this dream that what Donald Trump has said is true, that he is the only one standing between us and the Deep State. Let's look at the next part of this section. This is the fourth slide.

**"He was then rushed out the door and a congressman came to the podium and this person hit the gavel roughly enough that it broke both the gavel and it dented the desk, the table that they were sitting at. And this person said, 'Now let's get the rest of them because it's our house now'. A congressman looked up to the balcony and said, just looked up and pointed and said, 'put them with the rest'."**

And this is what we're seeing in Congress, is a division. The people in charge we know the Democrats control both the house and the Senate now, and they are going to isolate the Republicans. This is division. They're not promoting unity whatsoever, and the Holy Spirit is telling us that this is going to continue and get worse. In other words Congress and Donald Trump, neither one is going to save America; the Congress because they are too divided, too bitterly antagonistic to each other and Donald Trump because he is too wounded to save America.

And now we're going to see what the man who comments in Dana Coverstone's dream, and he gives the words of the Holy Spirit. What does he say about this dream?

**“Then the man that I see so often was now standing up in the middle of those 30 leaders who are in the Capitol balcony and he said loudly ‘I never said to stop bracing’. And he helped those beaten leaders to their feet and he walked out with them through the back door of that balcony area. He looked back as he went through the door and he said these words, ‘stay braced for His name's sake, stay braced for His name's sake’.”**

I think the Holy Spirit is telling us, that we need God's plan. That's why we stay braced for His name's sake. And Dana Coverstone and many of his dreams has said that the message is to stay braced, and now he's telling us to stay braced to prepare, I believe, for God's plan. So we've seen now that there are five groups or people or institutions that are not going to save America. They are all in either disarray or confused or going in circles or injured or divided, and the question is who will save America?

*Pastor Kim  
Clement*

And I believe the answer in this dream is the same as in Kim Clement's dream, which he received March 25<sup>th</sup> 2011, where he said that the woman will save America. And I watch all these guys on YouTube and I have yet to see any of them say that the woman is going to save America but I believe in this dream Dana Coverstone has put down all of these other possibilities that we hear all the time.

So how does Dana Coverstone tell us that the woman is going to save America and that that woman is Mary? Remember, Dana Coverstone is an evangelical. Kim Clement was an evangelical. Neither of those denominations give much praise and honor to the Blessed Virgin Mary. So the Lord, working through them does give them true prophecies. He talks usually symbolically.

In Kim Clement's dream he used Esther as the name for the woman who will save America, and in Bible prophecy Esther is a stand-in for the Blessed Virgin Mary. So how does Dana Coverstone indicate that Mary is the woman who will save America? And I think he does so through

these five scenes. I did not divide those things up. Those are exactly the way he spoke those scenes.

Five is Mary's number in Bible prophecy. In the Olivet Discourse we know that 666 is followed by 555. 666 of course is the number of the Beast. 555 indicates Mary's Rosary. Five is the number of decades in a Rosary. Five is the number of pebbles that David chose against Goliath, even though he only needed one.

So let's see how Dana Coverstone emphasizes that there are five scenes and he divides it up very clearly into the five scenes that we just spoke about. Let's take a look at those.

### **FIVE SCENES**

- 1. First of all I saw a hospital nursery ...**
- 2. The next thing I saw was Washington DC ...**
- 3. Then I saw the Capitol building ...**
- 4. The next thing I saw was up in the balcony ...**
- 5. The scene quickly changed to the floor ...**

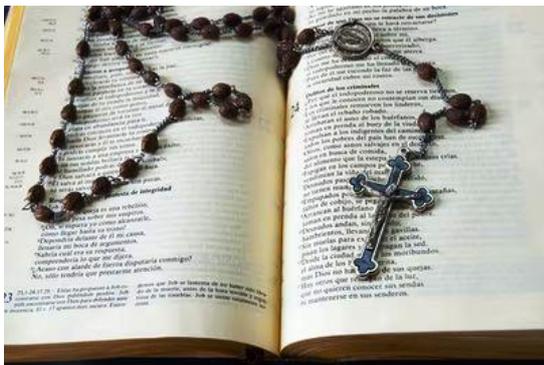

So in the first scene he said **“First of all I saw a hospital nursery”**, so that very first word is an indication that there is numerology involved here. **“First of all”**, and this was the first scene. **“The next thing I saw was Washington DC”** etc; that was the second scene. **“Then I saw the Capitol building”**. That was the third scene. **“The next thing I saw was up in the balcony”**; that's the fourth scene and then he says, **“The scene quickly changed”**. So all of these scenes are clearly marked, clearly announced, clearly delineated.

Now does Dana Coverstone understand his dream? I doubt very much. And that's not unusual actually. Daniel did not understand any of his visions. He asked the angel several times. He wanted to know what the meaning was. The angel told him, “Go your way Daniel, the vision is for another time.”

It's interesting that Daniel and Dana are very close together. I think Dana is a true prophet, but as I say, if he were to give Dana a dream in which he said Mary is going to save America, I'm not sure he would let us

know about that. He would say, "Oh I can't believe that came from the Holy Spirit"; in the same way with Kim Clement. Even when Kim Clement received his vision, on March 25<sup>th</sup> 2011, which was the Feast of the Annunciation, he did not recognize that he was given that on the Feast of the Annunciation.

And Kim Clement, at the end of relating his vision to his congregation, he yelled out "Yes to Esther" and he had the whole congregation yelling out "Yes to Esther" at the same time. And how many times did they do that? 15 times. That's not accidental. He did not plan it that way. That was the Holy Spirit telling him to yell out "Yes to Esther" 15 times. That represents Mary's Rosary 5 + 5 + 5. Those are the decades in the original rosary. And as I said, even our Lord in the Olivet Discourse indicates that 6 6 6 will be defeated by 5 5 5 Mary's Rosary.

And this morning I received an email from Mary's Battle Beads. And Scott had some interpretations which I'm going to read for you. Scott said the color red equals Communism and I got that too Scott. I understand that. I'm sure that's what it meant. Then he said that the colors black and blue,

remember Donald Trump's ear was black and blue; the one red on the one ear was bloody red, the other was a black and blue. He said that indicating Black Lives Matter and Antifa. So that's good. That's very possible. He had an interesting interpretation of the two F-16s, the two fighter jets. He says two 16s would be 32, and that is another indication of Mary's Rosary, because 3 over 2 yields the decimal 1.5 in other words 15, and 3 over 2 of course indicates God over man. That is the victorious arrangement of those numbers. 666 is derived from 2 over 3 when you put man over God. In other words .666, and you don't count decimal points, so 15 defeats 666.

And let's see what Scott said here; the two F-16s flying in a circle in opposite ways indicate time suspension. Well that's an interesting possibility. I get the idea that they were biding their time so to speak,

*Page 12 of 13*

back and forth, back and forth going in circles. I think what it really indicates is that the military is not up to saving America. That's not part of God's plan. None of these parts of scenes in Dana's dream, none of these institutions are part of God's plan. Mary is God's plan for saving America and Dana is indicating that, even though it's symbolically.

And here's Scott's last comment he says the money going up into the sky equals hyperinflation, a crash of the world's system. Okay that's a good interpretation. The money being blown up in the air indicates hyperinflation. Okay, so thanks Scott.

We pray the rosary every morning by the way on this channel at 10 am for those of you who would like to join. And that is what all of America has got to start doing, because God's plan revolves around Mary and the rosary and Kim Clement was accurate and so is Dana Coverstone as long as you understand the dream. If you do want to write to me my name is William Tapley PO Box 291 Osage, Iowa 50461 and if you would like to write to Sister Renee, use that same address. Just mark your envelope "Attention Sister Renee".

And as long as I've got you interested I have decoded many, many prophets. I have been on YouTube for 12 years and I have a series of four books called the Holy Spirit Guide to End Times Prophecy, and this particular volume is called "Mary Will Crush the Head of the Serpent", and of course that's taken from Genesis 3:15.

We should not be surprised that Mary will save America. Each of these books is 315 pages and they are available on my website. Look under the Newsletter tab, the July newsletter, there is an order form there, and you can order all four volumes. And if you would like to know what you're getting into, each book is also printed under Transcripts, and so you can read the books in their entirety. You don't have to purchase the books, but believe me it's much handier to have these books.

May God bless all of you.
