

iPad Ad: Prince William is the Antichrist

This will be part 2 in my series on that new iPad commercial called "Change is in the Air" <https://www.youtube.com/watch?v=tgXR7YxC1vM> and I have discovered another amazing feature of the commercial is that the Illuminati, who undoubtedly made this commercial, tried to tell us that Prince William is their candidate for the Antichrist, and that is nonsense! Don't you evil One World Government people realize you do not get to choose your leader! In Daniel 4:14, Almighty God says, **"I will appoint the basest man over them."** Almighty God will choose the Antichrist and not you evil Illuminati people!

And there are many other descriptions of the Antichrist in Scripture which do not fit Prince William. For example, Isaiah says he will be the "Assyrian". Daniel says he comes from the Roman Empire. In fact, I believe Daniel even pinpoints the location of where the Antichrist comes from and that is Istanbul, Turkey. Prince William does not fulfill any of these prophecies.

In part 1 of this series, I showed how the mysterious number 815 is secretly embedded in this iPad commercial, and I believe the reason is because 815 will be associated with the next false flag event which the Illuminati plan to perpetrate on the rest of us. And I want to

thank all of you, my subscribers, who have contributed greatly with your ideas and I hope to do my next video on the date and location of that false flag event.

In the meantime, as I was studying this commercial, I discovered that at the 54 second time stamp mark, that same mark where we saw that demon car, there are 15 separate images including a hidden image of Prince William as the Antichrist. I couldn't believe it! What that means is this hidden image is shown on the screen for only 1/15th of a second. I doubt very much if the tens of millions of people who have watched this iPad commercial saw that image. This 1/15th second image is not there to sell iPads! Now I am going to play this clip at seven times slower than normal, in other words, super slow motion. See if you can pick out this hidden image.

I believe the reason the Illuminati people, who came up with this video, have made it so difficult to identify the Antichrist from this sequence, is because they themselves are not sure of their candidate, Prince William; and they have good reason to be unsure. As I said, Almighty God is the One who is going to appoint the Antichrist. Now, I'm going to play this clip at normal speed three times just so you can see how impossible it is to pick out any particular image including that of Prince William as the Antichrist. So without further ado, this is the hidden image of the Antichrist as found at the 54 second mark of this iPad commercial.

Please notice that this individual certainly looks like Prince William. Also, please notice that that crown on his head is showing 5 points. That would mean that the back of the helmet or crown also has five points and those 10 points symbolize "the ten horns" which Bible prophecy says is found on the crown which the Antichrist wears.

Also, please note that the Antichrist figure is smiling. None of the other people in this image are smiling and that's because this picture of the Antichrist is showing the four beasts which come up out of the sea in Daniel 7: the lion, the bear, the leopard, and the fourth and final beast, the Antichrist. Now, it's interesting that one of these figures is a woman. Now, why should that be? The reason is because the lion is not actually a lion but is a lioness and you can find this interpretation only in the Catholic Douay Rheims Bible which is the most accurate. The Illuminati know Bible prophecy better than most Christians. These are the four final beasts and there's no doubt that they are promoting Prince William as the Antichrist beast.

Notice also that he is carrying a trident. He is shown as the pagan god Neptune in this picture. A trident has three points on the tip of the spear. Those three points symbolize the three kings which the Antichrist brings down. They are the same as the other three beasts in this picture. Since Neptune is the ancient Greek god of the sea, the creators of this commercial cleverly chose him to indicate the **“beast that comes up out of the sea”**, that is, the Antichrist (Revelation 13:1).

Here is the back view of the Antichrist and if you look at his crown you can indeed see there are a total of 10 points or 10 horns. Incidentally, this is the image, this back view of the Antichrist, which appears at the 15 second mark and that number 8 is very prominent in the lower left hand corner.

In fact, one of my subscribers sent me a message saying that he believed that 815 is the actual number of the Antichrist. He suggested that when the Scripture says **“we must read 666 as the number of the Antichrist with wisdom and understanding,”** we have to extrapolate the number 815 and that is also what this iPad commercial is telling us.

Now, here is why the Illuminati are really stupid in trying to promote their candidate, Prince William, as the Antichrist and there's no doubt this image shows that is whom they have in mind. According to Bible prophecy, the Antichrist must come from both the ancient Assyrian Empire and the ancient Roman Empire and Daniel says in chapter 8 that he comes from Istanbul, Turkey. And the reason for this is

because western Turkey is the only geographical area on the entire planet that was at one time a part of both the ancient Assyrian Empire and the ancient Roman Empire. Therefore, there is no way there is anything in Prince William's background to indicate that he comes from Istanbul. Or, is there?

Now, I am going to present a fascinating theory that Prince William is a clone from the Shroud of Turin. According to this theory, and you can find this in many places on the Internet and here on YouTube, a blood cell taken from the Shroud of Turin was used to create a zygote which was implanted in the womb of Prince William's mother, Princess Diana. Of course this is extremely far-fetched; however, there are some intriguing possibilities to this theory. First of all, Prince William does look an awful lot like the face of Jesus on the Shroud.

Secondly, Ron Wyatt says that blood samples of Jesus left behind, not only on the Shroud but on the Ark of the Covenant, have an amazing property: they are alive! And this would be consistent with Bible prophecy in Psalms, and repeated in Acts, where David prophesies about Jesus: **"You will not allow the holy one to undergo corruption."** Does that apply to the blood of Jesus which we find on the Shroud of Turin? Certainly that would make it much easier for scientists to clone the body of Jesus. Is Prince William inside the cloned body of our Lord?

And that brings us up to a very fascinating possibility. The Shroud of Turin does indeed come from Istanbul. Of course the Shroud of Turin was the burial cloth of Jesus Christ; however, it was discovered in the 1300's by the Fourth Crusade in Constantinople which we now know

as Istanbul. It was taken to France and subsequently to the city of Turin, Italy. That's why we call it the Shroud of Turin. Consequently, it is very likely that the Shroud of Turin spent most of its existence in the city of Istanbul, Turkey.

Now, I want to state here and now, I believe this is a far-fetched theory. Unless the Illuminati can prove to me that the DNA of Prince William matches that of the blood on the Shroud of Turin, that is just wishful thinking on their part. Prince William is not the Antichrist and it is actually going to be a blessing that Almighty God will appoint the Antichrist. And the reason is because it will make it much easier for those of us who are faithful to recognize him. Admittedly, the Antichrist will be extremely popular, just like Pope Francis, but we will know him by his actions, just as we know that Pope Francis by his actions is the False Prophet.

On the other hand, it's a well known fact that Prince William has already taken the mark of the beast. It was reported in the Washington Post that when he was 12 years old they chipped him just in case he was ever lost. And so, maybe the makers of this iPad commercial know something that the rest of us don't know.
