

Inaugural Address by the Leopard

Well today, I have both good news and bad news. As most of you probably know by now, Barack Obama once again verified who he is in Bible Prophecy. That's because he used the number 444 once again in one of his speeches and that was in his Inaugural Address. He said, 'It will be up to those who stand here in 4 years and 40 years and 400 years hence.' That adds up to the number 444.

'And that it will be up to those who stand here in 4 years and 40 years and 400 years hence to advance the timeless spirit once conferred to us...'

So it is truly amazing that the great Old Testament prophet, Daniel, foresaw the Presidency of Barack Obama more than 2,500 years ago. The good news is: Barack Obama is evidently not the Antichrist. Now, he could morph into the very evil figure that we saw in his dream and that would be one of the loyal ten kings of the Antichrist. Of course, the bad news is that the Prophet Daniel is still correct: Obama is not only the Leopard in his chapter number 7, but he is the last King of the South in his chapter number 11 and that means that he will lose World War III to the last King of the North.
