

## Next False Flag Hidden in iPad Commercial

On this program I want to talk about the next false flag event and, believe it or not, it is predicted in a new iPad commercial called "Change is in the Air". <https://www.youtube.com/watch?v=tqXR7YxCivM>  
And I think maybe you ought to listen to me because a year ago I told you that an iPad commercial called "Your Verse" predicted a false flag event and that prophecy came true with that Charlie Hebdo massacre in Paris.

And first of all, I want to thank one of my subscribers, Matthew M., for alerting me to this new iPad commercial. And, as we go through this, I think you will agree with me: the Illuminati are getting much more subtle when they give their hints about what they are planning to do. Yes, this commercial does tell us there will be two events. First, an explosion type of event and second, a smoky type of event, and, they are also verifying that the number 8:15 will be associated with this next false flag terrorist attack, however, they are being much more subtle. I suspect it's because they know we are figuring out their plans and they have to be a little more careful than they have been in the past.

So now, let's take a look at the relevant scenes in this iPad commercial and we are going to see only a small portion of the scenes because there are almost 90 different clips. And one of the ways the Illuminati are hiding their plans is by showing the important sequences for only a fraction of a second. I advise you that if you want to study it, you should download it to your computer and look at it in slow motion; otherwise you are going to miss most of the very interesting clues which they have given us.

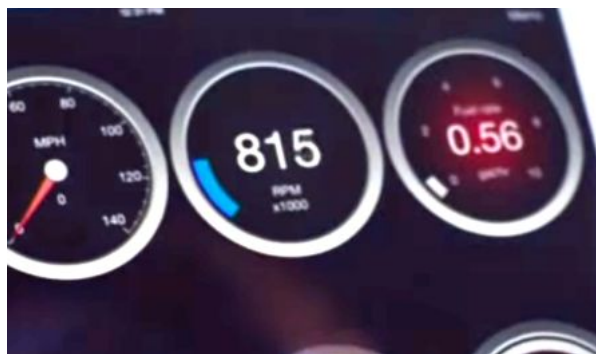

The first manifestation of the number 815 is seen in this number 8 which is formed by a reflection in a glass.

So, as you can see, they are getting much more subtle in their presentations, and you might ask, "Well, where is the 15 part of 815?" If you look very carefully at the second mark where this number 8 appears, it is at the 15 second time stamp mark, and no, that is not accidental.

The second manifestation of the number 815 is also extremely well hidden. It's obvious here in this top center gauge, however, this number appears on the screen for only 1/10th of a second.

It is the last number in a sequence beginning with the number 809 and I will play this clip for you at regular speed and then I will play it for you at slow motion because otherwise you will miss it entirely. They are definitely hiding the fact that 815 is the most important number in this entire commercial. So we saw that the first 815 was cleverly hidden and so is this manifestation of 815. Let's look at the number sequence ending with 815 in slow motion.

The third manifestation of the number 815 is found on what I call this "demon" racing car. I call it a "demon" racing car because it is

associated with Free Masonry. That's what the checkered flag signifies.

Now, the number 8 is pretty obvious on the side but where do we get the number 15? Well, actually the number on that car is 78. The 7 is completely hidden by the driver. The only way we know that it is 78, that is 7 plus 8 equals 15, is by looking at that very tiny box on the far right. Once again, the Illuminati have hidden that number 815 very, very subtly in this iPad commercial.

Now, the significance of this car with the number 78 on its side is emphasized by the fact that it is shown three times in this commercial. There is no other element repeated that number of times. And, once again, it is very hidden.

I have blown this up so you can see it. In the actual video you can just barely make out the 78 on its side. Now, another number which is

extremely important is the number 54 and that number is very obvious so you might ask, "Well, what is the significance of the number 54? That doesn't match any of the numbers we have been talking about."

The significance of the number 54 is they want you to look at what appears at the 54 second timestamp mark of this video. And here, once again, we see the demon racing car. And its demonic aspect should be fairly obvious by now with the passenger giving the devil horns sign and of course sticking out his tongue like the demon goddess Kali.

And, if you look very carefully, down in the lower left hand corner, you can see that this appears at the 54 second mark of this iPad commercial.

And there are other manifestations of the demonic in this iPad commercial, for example, this demon mask-type face, and we see angler fish.

We see a person screaming at an angler fish, and we see skeletons or human bodies.

I think that's telling us what they expect to do to us.

And what would an Illuminati message be without the all-seeing eye inside of a truncated pyramid, just like the eye on your dollar bill inside of a truncated pyramid.

This is not accidental, people. This is a very sure sign that this Illuminati video from iPad is indeed a warning of a false flag event. Now originally on this video I was planning to go over possible locations which could be found in this iPad commercial for the false flag events which the Illuminati have planned for us but I thought I would maybe do Part 2 instead and get some input from you, my subscribers.

And last year, don't forget, that iPad commercial contained the names Frank and Charles which indicated France and Charlie as the locations for that terrorist attack in Paris. Unfortunately, I did not understand that until after the fact. Maybe you and I can do better with this iPad commercial this year. If we can determine the locations, which undoubtedly are hidden in this commercial, we may be able to put a damper in their plans.

And, one final note, my subscriber who wishes to remain anonymous, the one who believes that the location is determined by the number 8:15, (in other words, you superimpose a clock face on a map of the United States), he is planning to fast for 24 hours before this year's Super Bowl, and I think that's a great idea! He is Jewish so he said he can't fast until starting Saturday night at 8:15 until Sunday night at 8:15. I'm not Jewish, I'm Catholic, so I believe I will join him a day earlier and fast from Friday night at 8:15 until Saturday night at 8:15 and that's not really a very difficult fast if you would like to join us. It's really only 24 hours and you miss two meals, basically. And don't forget what Jesus said: **"Some demons can only be cast out through prayer and fasting"**.
