

Goat on Hoover Dam: Bible Prophecy or False Flag?

Quite a few people this past week have done videos on this amazing huge goat logo which was projected onto the Hoover Dam and they have pointed out that it is very demonic: a goat is a symbol of evil in the Bible. Jesus said in the End Times he would separate the sheep from the goats. And this, I guess, was some kind of a Guinness Book of Records, the world's largest projected video display and it got quite a bit of attention.

However, none of the videos pointed out the fairly obvious Bible Prophecy connection to the goat in Daniel, chapter number 8, and they also did not point out all the number 11's obvious in this logo. I am sure you remember several years ago, Jonathan Kleck reported that God told him they would blow up the Hoover Dam on 11/11/11, in other words November the 11th, 2011. Well, that never happened and a lot people said Kleck was a false prophet, they accused him of that, but I never said that and because it's very possible when he exposed the plans of the Illuminati they had to back off. So I always gave him credit.

In fact, the Lord has told me specifically also that 11/11/11 is a very significant number, not necessarily for the Hoover Dam, but because 11/11/11 often appears in Daniel, Ezekiel, Zachariah, and in the Olivet Discourse. The number 11 simply means that 6, that is the number of the Antichrist, is followed and defeated by number 5, which is Mary's Rosary. And if Jonathan Kleck is a false prophet it is in regards to his attacks on the Catholic Church, and Mary and Our Lady of Guadalupe.

In fact, that's why, I think, he has cut back on making videos lately. He has to repent of those false accusations and he should stick to calling what is happening in the world today and that is we are adopting the sins of Egypt. And he said once that is what the Lord told him he should be doing and that's what he has to get back to.

Now this satanic logo is actually for a German sports team which is located in Cologne, Germany. That spelling "Köln" is how they spell Cologne and I think the reason the Illuminati okayed this projection on the Hoover Dam is because they wanted to put a hex on it and to tell us ahead of time what their plans are. Some people ask "why do the Illuminati tell us ahead of time what they are planning to do?" And the reason is because Satan imitates Almighty God. God tells us what He is going to do and Satan says "well, I'm going to do the same thing" and there's no doubt they would love to blow up the Hoover Dam, especially at this time. Not only would it be a tremendous false flag type event but it would hurt the water supply in the southwest which is going through a tremendous drought. A lot of people depend on the water in Lake Mead.

So now, if we take a closer look at this very interesting logo, I think the two spires of the Cologne Cathedral, which we see in the logo, are very reminiscent of the Twin Towers in New York City and, of course, the 9/11 false flag event. Is this supposed to remind us of that disaster which they successfully pulled off? And of course the two spires indicate the number 11 but there are also several other 11's at least which I see here, for example, the two horns on the goat. That to me indicates the number 11. How about that pointed beard on the goat? That also symbolizes the number 11. In fact, you could even look at the hind legs of the goat as an 11.

However, we need to understand that 11 can also be expressed as a Roman numeral. In other words, is 2 also significant? Could 11/2 be the date? And in fact if we look at bar codes, when they devised the bar code, the first, middle and last numbers are indicated

by the number 6, that is by two thin lines, in other words by 11's.

Therefore, the date we are looking at could be even in June, maybe June 2nd at 11 a.m. or maybe June 11th at 2 p.m. just to give you some examples of how this destruction of the Hoover Dam may be very imminent, perhaps this month.

On the other hand, this projection of a goat on the Hoover Dam may be an even more serious warning from Almighty God Himself! Let's look at Daniel chapter 8:5, ***"Behold a he goat came from the west on the face of the whole earth, and touched not the ground: and the goat had a notable horn between his eyes."*** Is that what this goat on the Hoover Dam is prophesying? Notice that this is a he goat. Notice that it comes from the west. The Hoover Dam is in the south-western part of the United States. Notice that the goat is astride this large globe. Does that indicate "the face of the whole earth"?

I'm not sure if the goat is touching the ground. In the original prophecy the goat "not touching the ground" symbolizes the One World Communist Tyranny defeating the United States. It indicates speed and quickness and surprise; so this goat may be indicating that because it represents a sports team, although the symbol itself does not show the goat rising above the ground which would indicate, by the way, an attack by missiles and airstrikes. And as far as a "notable horn" goes, this goat logo shows one horn larger than the other which would be more an indication of the ram in Daniel chapter, number 8. Chapter 8 shows the defeat of Britain and the United States by Russia in these End Times, so if it is just predicting the destruction of the Hoover Dam we actually should be thankful.
