

## Donald and Melania Trump in Nasty DIA Mural

I have some extremely bad news for you today, especially for you, my loyal subscribers. I have come to the very unfortunate conclusion that our newly elected president has snookered all of us, not only you and me in my loyal audience, but all the Democrats and Republicans as well. Mr. Donald Trump is not who he says he is, and I'm going to offer you some very interesting proof that he is, in fact, just another tool of the Illuminati, just like Hillary Clinton.

And one of my subscribers, Elijah Pintm, has been trying to convince me of that for at least the last six months. And I always humored him. I always allowed him to comment on my videos but I just could not believe it because Hillary and Donald were so completely opposite in their platforms. And I understood that Donald Trump was a flawed candidate; I did not vote for the man, I voted for the message.

One of the proofs that Elijah Pintm has been giving me, for Donald Trump being an Illuminati tool, is that he is found in this mural in the Denver International Airport. And we've discussed these murals many times before on this program. They were painted by Leo Tanguma and he not only seems to have prophetic knowledge of the future but he also includes a lot of sexual imagery. He is not a nice person. His murals also showed the ascendancy of Barack Obama; remember the murals showing the Leopard rising above everyone with two cubs and he also shows the word 'voodoo' on his tail. That was not accidental but it was an amazing prophecy.

And we find the same thing here, as an amazing prophecy, an image of Donald Trump. And this was painted back in 1994. What's even more amazing, and I don't think Elijah Pintm has seen this, is that the girl beside Donald Trump is Melania Trump, and she did not even come to the United States until 1996, two years after this mural was painted.

And she did not marry Donald Trump until 2005. What is going on here? Is this mural painted through the auspices of Satan? Only he would know these things, unless the Illuminati did indeed plan the rise of Donald and Melania Trump.

Now, to prove my point that this girl beside the boy Donald, and Donald is very obviously shown here, I mean look at his hairdo there's no mistaking that. But let's take a look at this girl in the mural and compare her with a photograph of Melania Trump.

The first very noticeable features are her eyes; they are both almond-shaped and they tilt slightly upwards at the edges. This is a feature in both the live Melania and the mural Melania. Take a look at that straight nose; that's very obvious. In fact, Tanguma has emphasized the straightness of the nose on the girl next to Donald Trump. Very noticeable also are the high cheekbones on both of these images. In fact, take a look at the shadow on both the photograph of Melania and Miss Melania in the mural. Also, take a look at the shape of her mouth; almost identical. Take a look at that pointed chin, the same on both. And in fact, the outline of both Melania's face, that shape, is almost identical to the outline of the girl next to Donald Trump in the Denver International Airport mural painted by Leo Tanguma.

I sincerely hope that you my subscribers can convince me I am wrong. Donald Trump's platform was perfect; maybe too perfect. And now I want to show you something else about this very strange mural in the Denver International Airport: what is Melania's hand doing to Donald

Trump? I don't want to be too explicit, but that's a very nasty image. Let's take a close up. Please don't tell Anderson Cooper what you and I both see here. It's obvious that Mr. Tanguma knows that there is an intimate relationship between Melania and Donald way back in 1994, even before she came to this country.

Did the Illuminati tell Donald, for example, that he had to divorce his second wife, Marla Maples? A year after he broke up with her he was introduced to Melania Trump. Is Melania Trump a tool of the Illuminati and also a foreign agent? She is no ordinary person; she speaks six languages fluently. That's not the sign of a model, that's the sign of a foreign agent. Was she sent by the Illuminati to the United States, and not just the United States, specifically to New York City, to marry Donald Trump? Obviously, Tanguma knew what was going on and that means the Illuminati knew what was going on. Maybe Donald Trump didn't even know until after Melania arrived here in New York City.

As I say, I hope you my subscribers can convince me I am wrong. This evidence to me is amazing; it's overwhelming. Mr. Donald Trump is not who we think he is. And I want to add one note: even though he is the 777 in Bible prophecy, and that is the Scarlet Beast, as I explained in my last video, I would still have voted for him. I don't believe we could have worked with Hillary but I think that Donald Trump could be convinced to leave his Illuminati masters (1). They stab their own in the back. Look at poor Hillary Clinton: I'm sure she was promised eight years ago that she would become president. She is now evidently uncontrollably sad, from what I read. In fact, I would put Hillary Clinton on suicide watch. Mr. Trump, your life is also ultimately in danger. These people have no loyalty to you. Hillary was the 'thesis', you are the 'antithesis'. Who do you think is going to be the 'synthesis'? The Illuminati completely have someone else in mind to rule the planet once you are dumped just as they dumped Hillary.

*(1) Since writing this I've become convinced that Donald Trump has broken away from his Illuminati past and is successfully working against the One World Tyranny.*
