

## False Flag at Trump Rally in Phoenix?

This is Sunday (20th Aug 2017) and I am here to warn Mr. Donald Trump and his Secret Service agents to be especially on the look out this coming Tuesday when Donald Trump hosts a rally in Phoenix, Arizona; and that's because I have a suspicion that the evil people of the Deep State, the One World Government, the supporters of the Antichrist, will stage a false flag at that occasion on that date. And I made quite a few videos several years ago pointing out that the Illuminati are using the number 815 in their false flag events. As a perfect example, let me show you how this works, this was a couple of years ago at the Charlie Hebdo Massacre, and maybe you remember, when the crane hoisted the getaway car, the number on the crane was 815.

And just to show you that was not a coincidence, the number on the license plate was 815 backwards. That was not accidental, people.

At the time I made those videos I pointed out that those numbers, 8-1-5, may not refer to a date, they may not refer to an hour; they could also refer to a location when you superimpose a clock face showing the time at 8:15 over a map of the United States.

Notice, by the way, that I put the center of this clock on Ferguson, Missouri. The big hand is pointing to Charlottesville, the little hand is pointing to Phoenix, Arizona (1).

Now, there could be some other cities involved, and this may not be the next false flag event, and I'm not sure Charlottesville was a false flag, although there are a lot of videos on YouTube suggesting that, and there were a lot of very strange circumstances surrounding that event. And there's no doubt the news media is trying to pin that tag of 'racist' on Donald Trump. No politician in America can survive with that title attached to his name, unless of course you're a liberal. I notice they are knocking down all these Confederate statues but why don't they knock down statues of Margaret Sanger? She was a huge avowed racist; and if you're really concerned about black lives, Planned Parenthood kills (proportionately) twice as many black babies as white babies. So you protesters, why don't you take that into account? In any event, and by the way, do you remember the exact time that the DA, Robert McCulloch, announced that he would not prosecute the white policeman who shot that unarmed black man in Ferguson, Missouri? He announced it at exactly 8:15 in the evening. They said ahead of time that they would announce it at 8:00 p.m. That would be the worst possible time if you wanted to avoid a riot. They

knew long before that but they wanted to incite as many fires, and police bombings and windows being knocked out and cars being blown up as possible. They wanted chaos; they wanted to incite a riot and when McCulloch walked into the room, take a look at this clip, the time on the clock was exactly 8:15.

And take a look at this TV monitor, the screen;

notice the time date stamp at the upper left is exactly 8:15.

That's not accidental.

I'm not saying the Ferguson, Missouri incident was a false flag but certainly the Deep State absconded with it and made it a false flag. At this upcoming event in Phoenix on Tuesday, they also could very well abscond with this and make it their next false flag event. They've already got Charlottesville on the map located as a racist event. Will they also point that little hand to Phoenix, Arizona and fulfill their 815 scenario? So, I am warning Mr. Trump and all of his Secret Service agents: be on the lookout. And you my subscribers, also let me know what you see.

1) See: *San Bernardino terrorist attack.*
