

“Shutting Down the Machines” Dream

I have another extremely interesting video about Dana Coverstone's most recent dream which he called “Shutting Down the Machines” Dream, and as you'll see I have a personal interest in this dream. In fact I think it has a direct effect on me and it's very similar to I think, the dream remember where he had that dream where there was a refuge, where the refugees came to a “T” in the road? Well I'm sure the “T” refers to my refuge, and I mentioned it at the time. And then the refugees, they went off into a field of corn. That sure sounds like Iowa to me. In any event I think we'll find now this dream is also significant for my ministry.

And the machine; I'm going to give you people a quiz, all of you, my WFRN members. What does the machine represent in Dana's dream? I hope some of you, hopefully all of you have watched Dana's program. I'm going to suggest in this video that the machine that Dana saw in his dream is a specific reference to one of the evil entities of these End Times, and Cheri Goff never understood that but it is true.

When I was going through the list of the evil entities of these End Times, I found one of which is represented by this machine. For example we have the False Prophet. We have the Antichrist. We have the harlot, the whore of Babylon. We have the Scarlet Beast that she rides and those are all in the Book of Revelation. In Daniel we have the lioness, the bear and the leopard. In Daniel 7, going back to the Book of Revelation, we have the angel of the abyss, I think that's right, the angel that has the key to the abyss and unleashes the plague of locusts; obviously an evil entity. We have of course the black horse, the red horse, the white horse and the pale horse, not in that order, but that's all out of the Book of Revelation. We have the statue of Nebuchadnezzar in Daniel 2 with the gold head and the silver chest and the belly of bronze, and the legs of iron and the feet of iron and clay.

In Daniel 7 we have the prince who shall come, who destroys the city in the sanctuary. Some people think that's the Antichrist, but it's not. We have Wormwood which is another term for the False Prophet. In Daniel 8 we have the goat which represents Russia, and we have the ram which represents Britain and America and actually they are evil. They are destroyed, both of them, so I would have to say that they represent evil forces. So anyway, of all those evil entities that I just mentioned, one of them is symbolized by this machine in Daniel's dream. So as I read this dream over, I want you to listen carefully and see if you can determine which one. This gives you a gold star for this class in Mary's School of Prophecy.

Now Dana had this dream over four nights and I think we can get right in it. So let's look at the first slide I've got here. This is Dana Coverstone's newest dream.

SHUTTING DOWN THE MACHINES DREAM (March 9th to the 12th)

He received this dream between March 9th to the 12th (over 4 days) and of course 4 is a very significant End Times number.

“The dream began with a heavy duty machine spinning in a circle in what seemed to be a huge commercial building. It was like a very large bicycle tire with spokes that were spinning very fast and was solidly built. This was commercial quality, heavy-duty equipment. The equipment was menacingly large and hooked to a chimney that was blowing thick black smoke into the sky above the building.”

Now of all the evil entities that I mentioned at the start of the program, only one of them is manufactured. So there is a clue I'm going to give you, for you to determine if you can tell me which of those evil entities this machine represents. Now Cheri Goff, she got some things right. She interpreted Dana's dream as usual, but she did not understand which evil entity this machine represents.

Now the black smoke pouring out of this machine indicates evil, black. That's why it's black. I would say it represents lies, and for example like the New York Times disinformation, and in fact I first thought that this machine represented the media. That was my interpretation. And if you remember Dana's dream about the 2022 Jets, the sky turns black in September. I think all of his recent dreams are related. Okay let's look at the next slide.

“The smoke was churning over the United States almost as if it were alive. It looked as if it was moving, like it was breathing, and moving, and pulsing. The machine was spinning at a very high rate of speed and had sparks of electricity and small flames coming off of it at various times. It was humming loudly and it sounded like a jet engine. Have you ever been in a jet when they pulled on the runway when they get ready to take off and they start to wind those engines up? That's what it sounded like the entire time; like when you're on a runway and the pilot picks up speed to take off.”

Well that's a good description of this machine I've been in a jet. I know exactly what that means and that's when you get excited, when you're at the end of the runway and you hear the engine rev up like that, you know the most critical part of the flight is about to occur. After the jet gets off the ground you can relax. Now notice he says that he's looking down over the United States and just like I would say on all the dreams that I can remember, his dreams are primarily warnings to the United States, and this is no exception. Okay let me get the next slide.

“I then saw a person with a big axe who was running towards that machine and tried to strike the circle at the bottom, in the middle, that was spinning and

he was immediately thrown about 20 feet back, and the axe in his hand was thrown even further. Then from the other side of the wheel that was spinning a woman came and she ran towards the machine in the same way with the same kind of axe and she struck that thing right at the very middle at the bottom and she too was thrown back and the axe was thrown from her hands.”

So now this is kind of interesting. We have a man attacking the machine on one side; a woman attacking the machine on the other. So here's my second quiz for you. Who do the man and woman represent? That's the next question for you as I read this dream. Who do they represent? I think they represent real people.

At first I thought that they represented Dana Coverstone and Amanda Freitas, because they both received very significant dreams, which are intertwined, and it's possible they represent more than one couple. As you go through this you'll see though that the people I think they represent fit the prediction better.

Another thing is that mankind is represented by a man and a woman in Bible prophecy; the number 2 over 3 for example. When you put man over God, 2 for mankind, a man and a woman and 3 represents the Divine Trinity. When you put man over God, you get the fraction two-thirds which signifies .666 as you know.

And notice also, when you're trying to figure out what this machine represents, it has two sides; the woman comes from one side, the man from the other side, and he emphasizes that quite often, the dual side nature of this machine. That's another clue as to what evil entity this machine represents. Okay let's move on to the next slide.

“Now both and the man and the woman were left groaning on the ground and moving like they'd been in a car wreck. They were like trying to get up and holding their hips and their arms and legs and just looking at their head and things like this. So like they've been beat up when they got knocked back from the machine. And then the man I see so often walked right up to the spinning machine and while the spinning continued, it didn't stop, but he spoke and he said, “You have to work together as I have told you before, and you need more people to attack what is producing the darkness.”

So here's another clue. There are two characteristics that prevent the man and the woman from defeating the machine. First they don't work together and secondly they don't have enough people. In Dana's dreams, the Man in White represents most likely Jesus and I think that's what he represents in this case. It certainly represents the divinity. Sometimes he seems to think it's the Holy Spirit. I think Cheri Goff has said the Holy Spirit and just saying it could be God Almighty you know. That's who the Man in White represents. Anyway the Man in White is the one who tells them why they are failing in their efforts against the machine. Okay let's look at the next slide.

“And the scene then changed and I was looking down on the United States and watching the smoke begin to churn even faster with tornado-like winds that were pounding the surface. This thing was moving and churning. If there was ever a picture of what they say global warming is, it would have been it in that sense. And I’m not a big believer in global warming. The point is it was chaotic, it was awful, it was evil, it was ugly.”

Well let me tell you Dana, I don't believe in global warming either. In fact I heard one of them say when we were in a cold spell, they said, well global cooling is caused by global warming. So that shows you how much that is, but global warming is symbolic in people's minds and I think that's why Dana mentioned it. Global warming is an idea that man is messing with nature and upsetting the natural balance of things. It's like an affront by mankind against God's creation and I think that is a good description when I tell you what this machine represents. I think you'll see that that is a good description, a good representation or symbology for this machine; that it is an affront, something manufactured by mankind which is an affront against God, which would be similar to global warming. Okay let's look at the next slide.

“I then saw some small fires that were starting in the Midwest and some were stronger than others and some were weaker and went out. But some of those fires that I saw in the middle of the United States, (and I saw fires in the West coast and East coast too) but the ones I saw in the Midwest began to burn through the clouds. They got brighter and the stronger those fires got it began to push through the dark, thick smoke and it seemed like to burn a hole through it. And then the flame was above the cloud. And then suddenly the fire would start burning above the smoke and pushed it away from the area where the fire was.”

Well isn't that kind of interesting that Dana sees this fire starting in the Midwest. You can see why I immediately felt an affinity with this dream of his. I think that I would not be surprised if at least one of these fires is our own ministry right here in Iowa, and there are others in this area as well. Sister Renée has a ministry. Keith Nestor has a ministry; all in Iowa. There's another one in Iowa too and I don't know if she's still doing the Rosary or not, but I think so far I think my ministry would qualify. I'm serious. I think this is true. Okay so now let's look at the next slide.

“In different places around the nation, the fire was burning through the smoke reaching above it and dissipating that smoke and literally pushing it back. It looked like hands. The fire was red-hot. It had blue flames shooting out from the center and they were growing and getting larger in the ground and the flames at times literally looked like hands that were pushing back the smoke and pushing and holding back those dark clouds. And those fires were breaking out then at this time all over the nation. It wasn't the entire nation that

was covered but there were fires breaking out mostly in the Midwest and larger areas on the coast, the larger cities.”

So now that's the third time Dana Coverstone has mentioned the Midwest and I think this is very significant. I don't think he's actually referring to his own ministry. He's in Kentucky which would not be the Midwest. Now the color blue represents Mary and by extension her Rosary and of course that's a primary part of my ministry. Now Cheri Goff said it represented the Holy Spirit and there are not too many places in the Bible where the color blue is found, so I'm not going to disagree with that though of course Mary is the spouse of the Holy Spirit, so there would be a relationship there.

Now this blue flame Dana said looked like hands. Well, I think that's a reference to the Rosary. There are 10 decades and there are 10 Hail Marys in a decade and of course 5 and 5, as you know, 5 and 5 is the number that defeats 6 and 6; 5 5 5 defeats 6 6 6. Now Cheri Goff did make a correct interpretation of the hand. She says that the hand, this would represent unity, in other words the five fingers, although individuals, are part of the hand, and that would indicate that the people have taken the Man of White's advice and to join together. That's what the hands I think represent.

I think it represents both Mary's Rosary and the unity which evidently the groups that are fighting against the machine have now taken into consideration. That's why the fires are breaking out. They've learned how to be unified. Okay let's look at the next slide.

“I was then back in the warehouse that was now filled with people who were all holding axes and they were also all staring at the circle in the center and moving slowly and methodically toward it on both sides. It was hundreds and hundreds of people and they had axes in their hands and they were taking one step at a time. Their focus and their faith was completely on what they were walking towards which was at the center of the bottom of that spinning circle.”

So like before when the man and the woman came at the circle of spinning bicycle wheel or a machine from two different sides, this group is now on both sides but now there's hundreds and hundreds of people. So we've satisfied the second requirement of the Man in White, in other words, there are many more people, and certainly that's many more people than I have in my ministry for example. So my ministry may not be the one. We'll see eventually of course I will know.

Now Cheri Goff did make a correct and interesting observation here. In fact I don't think I saw this when I saw it the first time. She says that all the people, the hundreds of people are concentrating on the machine, they are all looking at the machine. They are not looking at each other. In other words the unity comes from not looking

at each other's faults for example, but looking at the enemy. We have a common enemy and I think that is how our Marian ministries are going to succeed through unity and through an increase in number, just like the Man in White says. Okay let's look at the next slide.

“They get slowly methodically walking towards it. They stopped about five feet from it on both sides and they raised their axes and they cried out one word and when they cried out that one word, it was the word “now”, but they said it like this “NOW”, and it came out loud and boisterous so everybody could hear, it was a loud voice. At the same time they cried out “NOW”, the man that I always see was standing behind that group of people and he mouthed the word at the same time: he mouthed that same word “now” as they were shouting “NOW”. It gave me one of those, we're standing at the walls of Jericho pictures in my head.”

So, we've got another set of fives don't we? On one side, they are five feet away. On the other side, they're five feet away. That's not accidental. So we've got four fives now. The hands with the five fingers on each hand and the groups each group is five feet away on the two sides. Once again notice we've got both sides mentioned. So what would the four fives represent? Well that represents the five mysteries of the Rosary; the Joyful, the Sorrowful, the Luminous and the Glorious.

Now of course Dana and Cheri Goff, they don't understand any of that, but if they understood biblical numerology, especially 555 and that defeats 666, those things would stand out in their minds. And of course the both sides as I say, that's one of the keys to understanding what this machine represents. Have any of you figured it out? Which evil entity in the Bible does this machine represent? The two sides is a key to understanding it. Okay let me look at the next slide.

“And from each side with axes raised, they stormed the spinning wheel and they each struck the foundation with their axes and they didn't pull the axe away; they left it there stuck deep in the root of that situation. It was a loud screech as the axes bit into the machine and it stopped spinning. The power was still trying to spin but the people held their axes in place and you could see the strain. They strained and they strained against the power of the machine but they held their ground and a sickening sound began to pulse through the building where it was housed so the whole building began to pulsate.”

So, once again we see that term, “on each side”, there's two sides. So are you close to figuring out what evil entity is? As I said, only one of those evil entities I mentioned before is manufactured. Okay let's look at the next slide.

“Everything was shaking. Even in the dream it appeared as if the floor was shaking because they were stopping the pressure of this machine that was going. The people holding their positions were bloodied and they were sweating and obviously strained but they stayed in place, And they encouraged each other to stand strong and I heard them quote together Psalm 144 verse:1. They were shouting this. “Blessed be the Lord my rock who trains my hand for war and my fingers for battle.” They were shouting that together, chanting it almost.”

Another interesting reference to fingers; I don't think that's accidental. And now what does Psalm 144 refer to? It's kind of interesting. Now in the Douay Rheims Bible by the way, the numbering is different, it's Psalm 143. Well Cheri Goff did not mention this. I think she should have. Psalm 144 is about David taking on Goliath. In fact there is a not a footnote, but a pre-note, whatever you call it. There's a little note before the chapter in my Douay Rheims Bible, and I don't think the King James has that, but that's what it refers to. This is *“Blessed be the Lord my rock who trains my hands for war and my fingers for battle”*. This is a reference to David defeating Goliath.

If you follow my Rosary at all in the morning, you know that David chooses five smooth pebbles against Goliath. That's not accidental. He only needed one. The five smooth pebbles; that's Rosary imagery. The five smooth pebbles; that reference is the Rosary and it connects with the two hands of the blue fire and David against Goliath.

All Bible scholars will tell you that prefigures Jesus taking on the Antichrist. And as we know Jesus is the commander-in-chief in this battle, but Mary is the five-star general. That's why David chose five smooth pebbles. That represents the Rosary, and the shepherd sling that he has represents Mary's scapular. Those are the two weapons that we use against the forces of the Antichrist.

In fact, I think that's one of the reasons for the two sides, is to represent the two sides that we attack, and the two weapons that we use. And it's possible that there's more than one meaning here. It's possible that the man represents the Rosary, in other words the aggressive side of the equation, the offensive weapon and the woman would represent the defensive weapon, in other words the scapular. I expect somebody to figure out what this machine represents. Okay we're up to next to the last slide people.

“And the machine began to whine louder and began to shake and still the people held their position though it was fighting against them. And finally this large piece of the top of the circle shattered and the machine stopped all movement and vibrations and it began to smoke and the factory began to shut down. All the doors were opened to the outside of the building and the people

walked out with their axes. But they were being led by the man who led them out.”

So it's interesting that at the top even though they are striking the machine at the bottom, at the base, it breaks at the top. I think that's significant as we'll see when we find out what this machine represents. Now this group that is taking out the machine that is successful, is being led by the Man in White and it takes a group, a large group, hundreds of people according to Dana's dream, and the people are led by Jesus and I think that's another clue to what this machine represents. Okay this is the last slide everyone; your final chance to get bonus points in Mary's School of Prophecy today.

“As they got outside the man pointed to the distance and he said, “You won't stop all the evil but together you can take down more of it. Focused prayer and unity is more important now in America than ever before. It's up to you, so find the motivation. It's up to you, so find the motivation and strike at the root together. Remember that evil will fight back but I am with you and in you and greater in you than you know.” He then pointed again at a city in the distance. You could see the lights and you could see darkness. And he said, “Strike together and aim for the root.”

Okay, so that is the end of the dream, a fascinating dream, and raise your hands if you know who or what the machine represents. Carolyn says the machine is probably the Deep State. That's pretty good, but where is the Deep State though in the Bible? I'm saying that it represents a specific entity in End Times Bible prophecy but I think I will certainly give you partial credit for that Carolyn.

Carolyn says, I think it means that Catholics and Protestants must work together. There are not enough Catholics to go it alone. He mentions Catholics, Dana Coverstone does, and of course he's Protestant and I'm Catholic, so I think that's right maybe we can get Dana Coverstone to move out to Iowa. What does that sound like? Carolyn says, is that spinning machine the Vatican? Blowing black smoke out of it reminds me of Pope Francis becoming pope. Well that's a good commentary Carolyn. You're very close. Okay that's very good. Thank you for that.

Okay, so now I am going to tell you what the machine symbolizes in Bible prophecy and that is, it stands for the statue in Daniel 2, the statue that Nebuchadnezzar dreams about, the statue with a gold head, silver chest, bronze thighs, two legs, notice two legs, two legs of iron and the two feet of iron and clay. As far as I can remember, that's the only entity of all the ones I mentioned that is created by mankind. It really it's the only entity it can represent. So the two sides which Dana mentions many times represent the two feet of iron and clay.

And then there was a group that was successful against the machine. It struck it at the root. Remember the remnant group that strikes the statue strikes it at the base and just like they do with this machine and Dana's dream. And I've said all along that that is the remnant Catholic Church that strikes at the base of the statue. It is cut out of the mountain. The mountain is the Roman Catholic Church. The remnant church grows and becomes a great mountain itself. The small stone, the remnant Catholic Church is cut without hands. That's a reference to Jesus. He is, in other words, leading the group just like he's leading the group in Dana's dream.

And by the way, don't listen to the false prophets who say that the stone is Jesus. The stone that smashes the feet of iron and clay is not Jesus. It's the remnant Catholic Church. Jesus is the stone cutter. He forms the stone just like the Man in White leads the group against the machine. Okay so now I think I've got that pretty right. I mean, I admit I've been thinking about it for three or four days, so if you didn't get it right away don't worry. I did not think of it right away either.

And now, how about the man and the woman? Does anybody have any ideas on who the man and the woman represent? First of all, they don't get along. Did you notice that? They don't strike the machine together, and Dana specifically says they need unity. Now who does that tell you who are they? Number 2; Their ministries are way too small. They don't have enough people. Now that should tell you. I'll give you another clue. they're located in the Midwest. I can't spell it out for you much more.

The feet of iron in Nebuchadnezzar's statue represent the One World Government, so I think I think Carolyn mentioned the Deep State. That would be the same thing. The other, the feet of tin, which everybody calls clay; the feet of clay, represent the One World Religion. So when Carolyn said the Vatican, I think you actually got it Carolyn. You got the feet of iron and the feet of clay, and they don't mix. That's why we have separation of church and state. That's an expression of the End Times relationship between the One World Government and the One World Religion.

I believe the man and the woman who fail at bringing down the statue and the machine represent me and Sister Renée. I mean it took me a while to think that up, but I said, who else are not cooperating? That's Sister Renée and me. Who else are in the Midwest? Who else have very small ministries? I really do think that that's who Dana is talking about.

Anybody got any suggestions on how we're going to rectify the situation? First of all how Sister Renée and I are going to get our ministries in order, and secondly how we're going to grow our ministries? I came out here to Osage mainly because Sister Renée and her group were such a big supporter of mine, so I think we still have a destiny to work together on this, but we have to take Dana's advice. We have to look at the enemy and not at each other's faults. I really think Cheri Goff got that right. All the people who are successful and defeating the statue of Nebuchadnezzar; the

machine, the One World Government, the One World Religion; they focus on the enemy, they don't focus on each other. So that's the key. That's very good advice that I think we have to take.

Dana mentioned Catholics. He said Catholics and Protestants have to work together so there's more than one interpretation. I'm sure that there's probably another interpretation for the statue or for the machine which I say is the statue, and I've given my reasons, so I think that's the end of the program.

So until I do see all of you again, may God bless all of you and may all of you have a very blessed day.
