

## Complete Decode of Snowland's "Slender Man" Dream

Welcome to Mary's School of Prophecy. I'm your host William Tapley and I think you will find this is another fascinating dream from Snowland and I noticed you made a comment already about the title. She says, "God bless to all; an interesting title Mr William, Slender Man." I didn't think of it that way. Well I will explain in a minute Snowland. Actually I could have titled the program about our refuges, because I think that's what it's actually about; our safe refuges and how to have a safe refuge, but that's a kind of a boring title. I mean I've done so many titles that way but Slender Man is in this dream of hers, so I thought that would be a much more interesting title. Let's face it; it's called "click bait". People are more interested in Slender Man than they are in safe refugees, so I could have titled it either way. So I thought I would explain that right off the bat Snowland. And by the way, as I go through this, if you find me making mistakes, feel free to call in at the end of the program because that's very possible.

Now before I get to her dream I want to get the housekeeping out of the way, and this is my address, for those of you who may be new to this program; William Tapley Post Office Box 291, Osage, Iowa, USA, 50461. Okay I think we can get right into the dream and I talked to Snowland last night, so I think I have gotten just about all of her points. I think I understand them, and I think my interpretation is correct. I've been working at it all day, so let's go to slide number 1 of Snowland's dream and she says she received this dream on November 5<sup>th</sup>. That was what, three days ago and she says:

**Hello William, this dream is a little bit sadder than the other. It starts off in my new home, where I am currently living. In my new house there are two bedrooms upstairs which are connected.**

So I'm going to pause here right away, because this is actually a very interesting start to the dream. And when she says it's sadder, I think she's talking about what happens later in the dream because her three previous dreams have been about the fall of the Catholic Church. I didn't go back to look at them exactly, but I think you'll remember them. Remember the churches were kind of bare and the priests were not reverent at all? And in this new home, I believe that's what Snowland is referring to; her new home as opposed to the Catholic Church I think that's why she calls it her new home. I mean she does have a new home, as you my regular subscribers know but I believe that this is symbolic. And she says there are two bedrooms upstairs. Well, in apocalyptic prophecy, and I think Snowland gets apocalyptic prophecy; that is, it must be interpreted, 2 most often refers to Mary's Rosary and Scapular. For example, the two wings of an eagle that the woman flees to the desert on. That represents Mary's Rosary and Scapular. The two weapons that David uses against Goliath; the five smooth pebbles, that represents Mary's Rosary; the shepherd's sling which represents Mary's Scapular.

And notice that Snowland says the two bedrooms are connected. Well that refers to, I believe what sister Lucy said, and correct me if I'm wrong. Didn't she say that the Rosary and the Scapular are connected? I believe it was in an interview with the Sister Lucy. I noticed that the bedrooms are upstairs. That means that Snowland's new home is under Mary's protection. So this is not the sad part of Snowland's dream.

I did not discuss any of this with Snowland last night, because it didn't occur to me. I've been working today on the decode and I think Snowland will be very happy to know that I believe this is our Lord's message to Snowland and Sayaku and her mom and brother; that their new home that they are in, is a safe refuge. I know they were a little disappointed about having to move out of the old house because they felt that the old house was a protected refuge. Well I think that the Lord is telling you Snowland that your new house is a protected refuge also. Okay, so let me continue with slide number 1.

**I was in the master bedroom. On the left side there is my mother's air conditioner that is installed in the window. I walked up to it and pulled the black curtain so I can look outside. Upon doing so, my gaze caught a normal looking plane flying by, but the pilot was flying dangerously low almost reaching the height of my window. I did notice the airplane doesn't have any passenger window. Then a second airplane similar to the first, flew past at the same height. I darkly joked with God telling Him: "Can you make that plane crash?"**

I can't believe a nice girl like Snowland would tell God to make the plane crash. And I asked her if that didn't shock her as she was saying it to God in the dream? And she said it didn't occur to her until after she woke up that she couldn't believe she would say that to God, but that was part of it. That's evidently an important part of the dream.

I asked her about the size of the plane. Was it like a huge airliner or was it a little Piper Dove? She said it was a medium-sized plane. The lack of passenger windows, there's probably a significant to that. And when she says she joked with God, I think that makes it clear that Snowland is not really serious about wanting the plane to crash. Okay let's check the second slide.

**After I told that dark joke, I took notice the plane was going lower and lower, as the scenery changed and the sun was setting very fast that it turned dark and the whole location from outside changed; instead of seeing the regular scenery in front of my house, it was some other place like state buildings similar to a congress building. (Note, where I live, there's barely any buildings or houses in front of my house.)**

**The plane crashed into the government building and it blew up; out of shock, I went to my bedroom where my sister was and started to cry. "I told God to crash the plane and it hit a building. I think people are dead", I told my sister. My sister began to calm me down. I quickly went back to the window and my sister and mother went to the right side window to see what's going on.**

So I asked Snowland about these planes, and one went by and disappeared, and then the other plane went by. So it was one right after the other, but it's interesting that the planes go by her window, the window of her house, so that she can see them, but that's not where they crash. The plane crashed somewhere else and what's interesting to me is, is this a real prophecy? I mean Snowland doesn't usually give real prophecies like that. When she talks about the church in decay, that's going on right now, but here she is talking about a plane crashing into a government type building. Is this a real event that she is prophesying about? This would be like Dana Coverstone's dream. So let me show you the picture. She sent me a photograph of what she saw or it was like what she saw.

*The Wisconsin State Capitol*

This is the photograph she sent me. And she said that the Congress building that she saw had, I think she said a green roof and I'm not sure if this picture shows a green roof or not, and she said it had a dome on it. So this is the type of building that was in Snowland's dream. And so now Snowland is getting dreams something like Dana Coverstone's dream. Remember Dana Coverstone's dream about Biden for

example being in the Rotunda, and not being charged with any crimes? Well that has come true. And this dream of Snowland's, of a plane crashing into a government building, is this going to come true in the near future? And I told Snowland last night, I said, Snowland, you know if this happens in the near future, you're going to become famous as a visionary. She said, that's okay, but the Bible says that in the End Times your sons and daughters will prophecy. Okay let's look at the next slide.

**While the building was catching on fire another building appeared in front of my house. It had water tanks that clean the water.** That would be a water treatment plant. **A third one (plane) crashed into it and the water came out of it, pouring into the streets. Quickly as that happened, I told my mother and sister to help me remove the air conditioner from the window due to the fact black smoke was beginning to seep in. So we did, and I helped my sister and we placed it on the floor. I locked the window and I kept looking outside. All the**

**power was out, it became extra black; not a light in sight; even the flames had died out.**

And then she talks about some of the creatures, the Slender Man which I will talk about in a minute. So here's another prophecy. Is this a real water treatment plant that Snowland sees getting hit, getting bombed? Is this going to happen in the near future? And I kind of grilled her on this because I didn't think a water treatment plant being destroyed by a plane crashing into it would be significant. And she thought it could be. It could symbolize some kind of water explosion or something like Hoover Dam. That was her suggestion.

And I got to thinking today that Jonathan Kleck if you remember, quite a few years ago, said that Hoover Dam would be blown up on the 11/11. Now he said 11/11/11, in other words 2011, but maybe Hoover Dam will be blown up about three days from now on 11/11. (which is 11/11/22). Now I'm not saying that's what she is predicting but I'm just saying that that's a possibility. Now she also sent me a picture of a water treatment plant that looked like what she saw.

So this is the picture that she sent me, and that's a typical water treatment plant, so I'm sure you all know what they look like. And she said that the water treatment plant, still burned with a lot of smoke. And I said I didn't understand how that could be, but she did not think it was like an oil plant or an oil storage facility. It looked like that picture, a

water treatment plant. So let me continue now with the third slide.

**Onto my far right were creatures coming out. They were extra tall about 9 feet, very skinny, black shadows. I counted 4 of them. They were going after the ones that worked for them. (The Holy Ghost told me in my heart what those shadows were doing.)**

So I'm the one who asked Snowland, "Was this Slender Man that you saw?" and she was familiar with Slender Man and she said, she did not think so because Slender Man, if you've seen him pictured in movies; and you can see quite a few here on YouTube, there's amateur movies and they have people dress up as Slender Man; and they have white faces. And she said there was no white face on the demons that she saw, but the original Slender Man demons, and there were quite a few sightings, and I remember this; this was like 3 – 4 years ago and they would be write-ups, not of course in the mainstream media but in our religious publications of people who saw demons that looked just exactly like what's Snowland saw, in other words Slender Man.

And Snowland says that there are four of these demons in her dream and of course that's an End Times number. It's the most important End Times number, and she said they represent north, south, east and west. And of course that would mean that the demons, in these End Times, that she is seeing, her dream is about an End Times event in which the demons are all around us. Of course they're all around us anyway but they will be seen, and there are a lot of visionaries that say that that will occur in these End Times. Okay, let's move onto the next slide.

**There was a woman and a man. The woman was bright; she was shining like the sun.** So let me break in here a minute, because I was immediately of course interested in this woman shining like the sun. And I said, "Is this Mary?" I mean that's the first thing I would think of and I'm sure you would too and Snowland said, no, because she knew she wasn't, because she was wearing slacks and she was wearing a shirt, but we talked about this together and I think we both agreed that she was in a state of grace. Okay let's go back to the slide.

**On the other hand, the man was covered in pure darkness; he did not shine like the woman. The first demon walked into streets never to be seen again by me. The second one went after the man and smacked him on the back causing his death, his body dropping to the ground. The third creature looked at the woman, and walked away and did not touch her. The fourth demon went to the opposite side and left. (I think all four went North, East, West and South.)**

So I have a slide of Slender Man okay, and this is similar to the thumbnail that I did for this program. And of course, these are homemade movies, made by people trying to scare you, but this is very similar to the description of the real Slender Man demons. Notice that there is no white face in this. These are amateur movies as I say, and I think Snowland, if she looks at this I think she will say that this is very similar to the Slender Man that she saw in her dream. Okay now I want to move on to the next slide.

**Somehow our house had gotten a balcony. (We have none in real life). At this point I heard my mother and sister doing Hail Mary prayers and asking Our Lady to protect us and hide us from these monsters. I joined in asking her for protection and the same second, a demon jumped on top of the balcony and started to walk back and forth looking at us, as it was trying ways to get inside without touching the window. He looked at my mother and sister a little bit longer than he did with me. I tried not to make eye contact with it. We covered**

**the windows. It was extra hard to see because everything was pitch black. I heard my sister and she tells me, "I have to leave."**

So I definitely think this is an End Times event. Everything is pitch black. It reminds me of the three days of darkness. Maybe that's what Snowland is dreaming about. It could also be if there were a nuclear attack, there would also be a complete and total darkness, no lights. She said that, "we covered the windows", and that reminds me of remember, Lot and his wife were told not to look at the destruction of Sodom and Gomorrah. And we've been told that in our refuges to cover our windows with black cloth. They have black cloth in our homes to cover them, so that we can't see God's judgment on mankind.

It's interesting that the demon looks at Snowland for a shorter time than her sister and mother, and I wonder if that means that Snowland is a little better protected than the rest of her family. Maybe because she's the visionary and she said that she tried not to make eye contact with the demon. Maybe that's what makes the demon less willing to attack her, like the demon attacked the Man. So maybe the demon sees that Snowland is shining also like the woman, and here we see that Snowland's sister who would be Sayaku wants to leave, and that does not sound like a good decision to me, and I don't think it is, as we will see. Let me get to the next slide. I think this is the last slide.

**Side note: Everything including outside was so dark, that it was scary. It's beyond dark. I quickly went over to the right side window to see the exit from the other house. It was covered in a black goo substance that the demon had put to let no one inside or outside. I looked at my sister and told her.**

**"The entrance you came from is blocked, you must go somewhere else." At this point, I knew it wasn't my sister. I knew she would never go outside since it was scary. I started to pray at this point, and a sudden vision of a flight of stairs appeared in my head. (It was a stairs heading downstairs.)**

**The end of my dream.**

And that was the end of Snowland's dream. So it can't be Snowland's sister after all and I'm glad to hear that because I certainly hope that Sayaku would know to stay with the rest of the family and her in the safe refuge. And as I said, going downstairs; the stairs remember are going down; this is not a good idea. This is leading away from the two bedrooms which symbolize Mary's Rosary and Scapular, in other words, the safe part of the refuge; in other words, you're walking away from safety.

So let me show you, Snowland sent a picture of the type of stairs that reminded her of the stairs in her dream so there it is.

I think she said that it has three landings. I'm not sure what the significance of that would be, but that's a typical stair, and she says it was going down.

So, as I say, I think this dream was not really sad. The sad part would be of course the demons and the destruction of the buildings, but this closing of Snowland's dream refers back to the beginning of the dream, and that her home is a safe refuge. And I think this is a lesson for all of us in our refuges, that, in other words, leaving our refugees would be like going down stairs, away from safety. If we stay in our refuges, we will be safe from demons. We will be safe from the destruction going on all around us.

And it's very possible that the destruction of the government building and the water treatment plant; those are not real events. It could be that they are symbolic events. In other words it's telling us that in our refuges, don't expect any help from the government, and we are going to have to store all of our necessities like water. That is very likely the symbolism, the meaning of her dream.

So, in any event, I think that Snowland, this is not a sadder dream; I think this is a very positive word from the Lord that you are in a safe refuge, as long as you stay under the protection of the two upstairs bedrooms which symbolize Mary's Rosary and Scapular. And the dream is, I think important for all of us, because it's a lesson. It's a lesson for all of us. So thank you very much Snowland for the dream and passing it along, and now, if you would like to call in and correct me if I made any mistakes, or if you just want to shoot the breeze, people would like it I'm sure if you talk with us, but what I will do now is to go and take a look at the chat and see if anyone would like to talk about Snowland's dream.

[Phone ringing]. Oh Snowland is going to call in. Hi Snowland, go right ahead.

Snowland: Hi everyone.

WT: Okay, did you have any comments on my interpretation?

SL: Yes, a few of them.

WT: Okay.

SL: I would like to start off with the airplanes.

WT: Yeah.

SL: I was thinking about them and it looks like one of those remote airplanes that fly around.

WT: Oh you mean like a drone?

SL: Yes, those.

WT: Oh, okay. Well that's quite a bit different.

SL: Yes, it has the emergency door on the other side I think, like you know where you could put like batteries and stuff.

WT: Oh okay, but you said you were afraid that people were killed? Of course maybe if the drone blew up a building, then people would be killed.

SL: Yes, so I cried out of remorse because I shouldn't have made that joke.

WT: Well yeah okay. Okay go ahead.

SL: And about the demon, as he jumped onto the top of the balcony, he looked at my sister and my mother a little bit longer, because they were doing Hail Marys at that moment.

WT: Oh okay.

SL: And when he looked at me, I tried to avoid eye contact, and I heard them praying and I was doing the Rosary and I think the Blessed Mother protected us.

WT: Okay. Do you think that slide that I showed of Slender Man; does that look like the demons that you saw?

SL: Yes very much, but very, very skinny. I could see their ribcage and their bones.

WT: Oh okay. Okay, very good, anything else?

SL: I think the lady that was shining; she was shining bright. She does represent somebody in a state of grace but also I think she was the one that illuminated for me to see the outside, to see the demons and what's going on.

WT: Oh that's interesting. So she was so bright that she kind of lit up the outdoors. Is that what you mean?

SL: Yes.

WT: Oh okay. Well that's an interesting detail. Thanks for that, very good.

SL: And, in the water I think as a precipitation of water faucets, you know going to the shower, toilet, like everything that you need for, like in the bathroom or like in the sink, in the kitchen basically in the refuge, God is saying that your waters are not

going to be filtered any more. Your pipes are not going to be, you know, running water anymore and, you know I think that's what represents the new era that's gonna unfold with the Antichrist and stuff like that. And people will have to go to a refuge.

WT: Yeah I think you're right. I think that's basically what I was trying to say. The water treatment plant won't be producing water for us anymore in our homes. We will have to have water stored ahead of time. I think you're right.

SL: Agreed.

WT: Okay. Did you like my idea that you have a safe refuge?

SL: Yes, I did.

WT: Have you performed an exorcism with salt around your house?

SL: Yes. I have.

WT: Oh you have? Okay good for you, okay.

SL: And towards the end of my dream, there was a lady who imitated my sister who needed to go outside. I'm not sure but I think there will be people in the refuge that will want to go back to their homes. Do you think that's a highly likely chance?

WT: I see what you're saying, yeah. So she symbolized people who don't want to stay in the refuge. I think you're right, and in other words in order to leave, they've got to go downstairs, away from safety. Don't you think that's probably what you saw?

SL: Yes I think that's the representation of it. And that goo substance, I think that was ... so they had to go back outside basically leaving the Refuge of the Blessed Mother go immerse themselves in darkness to go back home.

WT: Right okay, that's a good point. I think so. I think so too. I think it's kind of a warning to all of us that once we're in our refuges, don't be listening to the demons who are calling us outside. That's the last thing we want to do.

SL: Yes well for many of them, they will fall victim to it.

WT: Yes, that's why we've been warned. They say that the demons will imitate the voices of our loved ones.

SL: Well that's true.

Okay well is that all Snowland. Okay, I think we can sign off. Thanks for helping out and calling in. Goodbye to everybody. God bless you and your sister too. Thanks Snowland. Bye now.
