

Locution from Jesus: Destruction Coming to America

I received a very interesting letter today from one of my subscribers who has the YouTube handle, "Sayaku", and she told me about a locution she received from Jesus and she also received a miraculous photograph and to me it verified what I had said just a couple of days ago about the Abrahamic accord, and she verified that in a sort of roundabout way. So let me explain.

I said a couple of days ago that the Abrahamic Accord signed by President Donald Trump and Prime Minister Benjamin Netanyahu and representatives of Bahrain and the United Arab Emirates was a fulfilment of Daniel 9 verses 26 and 27. It was a confirming of the covenant and that is the Abrahamic covenant, where the land of Canaan would be seeded to Israel in perpetuity, and I pointed out that the false prophets for generations have been telling you that the Antichrist signs this so-called peace treaty, but that is a lie from the pits of Hell. Satan does not want you to understand Daniel 9, because it is the good guy in verses 26 and 27 who confirms the covenant.

In the near time, it was our Lord, Jesus Christ. Now He confirmed a different covenant. He confirmed the Messianic covenant. The bad news, as I pointed out is that the confirming of the covenant is followed by the cutting off of the Anointed One, and I believe in this case that would refer to the cutting off of Benjamin Netanyahu, which is followed by the destruction of Israel, in other words the abomination of desolation. And the result is the Daniel 9 war which means that Israel will be ruled by her enemies, and the reason is because they no longer follow their own ten commandments. They could still repent. They have a very short time in which they could return back to their Biblical roots. In any event, after I posted that, one of my subscribers said but won't America go to Israel's aid? In other words, won't we be able to help her defeat the "prince who shall come"?

In the near time by the way that was the Roman General Titus. In these End Times I suspect it's Vladimir Putin, or at least one of his protégés, maybe Erdoğan from Turkey, and I answered and I said, America is going to be involved with her own destruction, and this letter which I received from Sayaku, this locution from Jesus, I believe verifies that; that we will be involved with our own destruction, and we will not be able to help out Israel.

So let me go right ahead and read this letter, and here's what she writes: Dear Mr William, almost a week ago, " now this letter is dated September 13th which is four days ago, so that means she received this about 10 or 11 days ago. She says, "Almost a week ago I was sitting next to a window. God called me to talk to Him. So I lowered my phone. He tells me to look outside. So I did, then He told me to look up at the sky. So I did. Then he told me to enjoy the view because soon, in a few months it will be like a battle, everything in ruins."

Now Sayaku lives along the east coast, and I don't want to give you any more information about her location because she did not give me permission to, but I'll give you a hint. I left New York to come out here to Iowa for the same reason that she is talking about.

“In the picture it shows my view at that time. Then He asked me to look up at the sky. For a second time since I was looking at something else. It was like, what was I supposed to see? Lo and behold, there was a heart shaped cloud the size of our Sacred Heart of Jesus.” She saw a cloud.

“I asked Jesus if I can take a picture, and He gave me permission. I was shocked. Let me know what you think. Thank you. God bless always, love Sayaku.”

So thank you so much for that Sayaku. Now I'm going to show you the pictures

that she sent me, and now this is the first one. This is the scene outside of her window and the cloud is at the top center. It's quite faint. It's the faint cloud. Remember the Lord whispers, so the faint cloud in the center. It does have a heart shape. It's not really dramatically heart shaped, but that is her view, which I know she lives in an urban area, so it's actually looks quite green.

So then she took a close-up picture of the heart shape and she included the Sacred Heart of Jesus with the photograph, so you can see, and I think that is

pretty much of a heart shape. It also looks something like a face, in other words I think it is a dramatic confirmation of what the Lord told Sayaku about the destruction that she would look out of her window in a few months and she would see destruction. In any event I wanted to bring that message to you today.

I think it was very important and I wanted to get it out as soon as possible, and Sayaku receives quite a few visions and dreams from our Lord and I will give you a little hint. She has already told me, she has her bug out bag ready to go at the door, and that is my recommendation to all of you also. So until the next time I see you again, may God bless all of you, and may all of you have a very blessed day.
