

## **Complete Decode of Snowland's "Food Market Dream"**

We do have a very interesting dream from Snowland to interpret and one of these days the church will acknowledge Snowland's dreams. I think they're very important and let's see if you don't agree with me. And I want you to pay attention because at the end of the dream I'm going to ask what your interpretation is, because I think there are at least three possible interpretations and maybe they are all valid.

Now I'm going to give you my interpretation of what the food market in Snowland's dream represents. Does it represent food markets? I mean we've had food markets burning. In fact that's why I used the burned food market in; I think it was in Chicago as a thumbnail. Does the food market represent the Catholic Church, the burning of the Catholic Church? That's going to be my interpretation. That's what I believe.

That's like Snowland's other dreams. Many of them are about the destruction of the Catholic Church, or does the food market represent the United States of America? And I think these are all valid interpretations, and the good argument for that was because Snowland received her dream on the 4<sup>th</sup> of July, but the 4<sup>th</sup> of July has other meanings also. The numbers 4 and 7 are the two primary End Times numbers, in which case the prophecy is about the church. Of course the 4<sup>th</sup> of July indicates the United States, but it's also, as Peter Breen pointed out this morning, it also indicates the start of the Illuminati, the One World Government. So it could be any of those interpretations and I'm going to start that in just a second.

Snowland is here, so if you want to call in after I do the decode, I do have my phone here so you can call me up if you want to, no pressure, but if I've made a real bad mistake call me up. I talked to Snowland last night and I really hadn't decoded it at that time because she'd only sent it to me via email in the afternoon, so what I'm going to tell you is probably going to be new to her also and I hope that I get it right. And some of this she told me about, so we'll go through it as we go through this.

I want you to remember the rules of apocalyptic prophecy because I believe this is apocalyptic prophecy. The symbolic interpretation takes precedence over the literal. That doesn't mean you never use the literal interpretation, it's just that the symbolic interpretation is almost always the better interpretation. Sacred numerology is always very important. I already mentioned the 4<sup>th</sup> of July. Both 4 and 7 are extremely important and the two most important End Times numbers are 4 and 7, and you need a co-prophet. All End Times prophecy must be interpreted from Daniel to Ezekiel to Zechariah even our Lord's prophecy in Matthew 24, the Olivet Discourse. It must be interpreted.

All right so now let's look at part one of Snowland's dream. So this is the first slide.

## **Snowland's "Food Market" Dream**

And that's my title by the way. She did not give it that title and Snowland starts.

**"Since I started work recently, I won't mention where, we suffered a mini blackout in the area where I work. It lasted about 2 to 3 seconds.**

**This is where it gets interesting: on July 4<sup>th</sup>, I had a dream. I don't know if it is prophetic, but it is worth a try."**

So I like the way Snowland says, "It's worth a try" (laughing). Okay so I'm going to give it a try here Snowland. So there are two events here in this first part of the dream. First of all there's something that happened in real life to Snowland where she works, and that is they had a two to three second blackout, and then she had the dream on the 4<sup>th</sup> of July. In her mind she must connect these two, that they are related, and I agree they are related.

So in this first part, what does the two to three seconds symbolize? Now the two to three seconds blackout, it could be an electromagnetic pulse (EMP) attack. I think that's the first thing people would think of it symbolized. I mean it wasn't an EMP attack where she works, but it symbolizes an EMP attack, and I think that's very likely. And that would coincide with Dana Coverstone's dream but I'm going to tell you my interpretation which I believe is more important and that is that 2 before 3, as you know symbolizes the decimal point 666. In other words 2 before 3 is another number for the Antichrist. The number 2 is a number for a man and a woman and 2 before 3 therefore represents the Antichrist.

I think that all of these interpretations are probably correct. In fact apocalyptic prophecy often has more than one interpretation, so if that's true then if I'm right in the two to three seconds blackout, the most important interpretation is that it refers to the Antichrist then the food market that she's going to talk about represents the Catholic Church. Okay so let's look at the second slide on my list here.

**"I was lost in a maze trying to find the entrance to a food market. I was walking on heavy snow, maybe 3 to 5 inches of snow, very cold. I did not have a coat, but a sweater. I was confused as to where I was going, but I took a wrong turn only to stop and see shadow figures staring back at me. It was a 4 black shadow group together, all the same height. They looked like shadows; no face, nothing. They gave me a bad feeling."**

Now the number 4; four of these figures would represent mankind, as you know a man and a woman plus a man and a woman. Of course it's also another End Times number. So is Snowland trying to find the entrance to this food market or is she trying to find the entrance to the Catholic Church? That's what I believe it symbolizes. In other words the Catholic Church is a food market giving us the most

important spiritual food which is the Body and Blood of Our Lord, so I think that is actually the food market that Snowland is trying to find the entrance to.

Now what does the maze represent? I'm sure the maze represents our secular society trying to prevent her from finding the church. And I asked her what she meant by a maze, and she said there were walls just like a regular maze that she was trying to navigate around. The four figures as I said represent mankind and we'll talk about that more later.

And the deep snow, what does that represent? I believe that is a reference to Matthew 24, where Jesus said, "Pray that your flight be not in the winter". I think that's what it represents. Now what is three to five inches of snow represent? All these numbers are important in all of Snowland's dreams and in all of apocalyptic prophecy. So what does the three to five inches of snow represent? I think the snow first of all, represents when Jesus said, "Pray that your flight may not in the winter", in other words the Tribulation period. The three to five, I believe represents 3.5, and that would be three and a half. That's the number of years of the Great Tribulation.

So we've got a good picture of what's going on in Snowland's dream. We're talking about the Tribulation which prevents Snowland from reaching the Catholic Church. There's also a maze. I believe of society preventing her and there's also these four figures; four sinister, evil figures.

Now Snowland says that she is not wearing a coat. What would that symbolize? Well that's also in Matthew 24, where Jesus said; Let those who are in the field not go back to take their cloak. In other words, Snowland is outside the church and that's what Jesus is referring to when He says, "That those who are in the field". The field represents the Roman Catholic Church, and that's why Snowland doesn't have her coat. She has fled the church, just as Jesus recommended. In fact He warned those in the End Times, in the Tribulation, we have to leave the Catholic Church. Okay let's look at the next slide I have lined up here.

**"I turned around and went to find the entrance. I noticed I was with another woman. I didn't know her, but we guided each other to find the entrance. But before we found it, we found another woman; she was on her phone. She was complaining about how she couldn't find the entrance; we offered to help, but she denied us as she went on her way."**

So now, who's this other woman with Snowland? Snowland said she thought it might be Mary, and I think she's right. In other words, Snowland says that they were guiding each other. Well certainly that would be Mary guiding her in these End Times. And when Snowland says that she's guiding, that means that she is cooperating with Mary. So Snowland is in a good position as far as the trial she's going through in this dream.

The other woman, I believe represents the uninformed laity; the ones who are trying to depend on a phone, maybe on some site that has a GPS on it. That's how she's trying to find the church. She'll never find the entrance of the church that way, but I think that's what the other woman represents, and she comes back into the dream a little later on. Okay let's look at the next slide I've got here.

**“For us, we finally found the entrance. Once inside, an old man came up to me and said he had worked there since 1870. He was born in 1840; I saw on a paper when his birthday was, and yet this year is 2022. He was there to turn on the engine that supplied the whole building with power. He walked away; I followed behind him along with some other people tagging along.”**

So now we have a very interesting character that just appeared. Who does this old man represent? I'm going to suggest that the old man represents the Antichrist or Satan. Now Snowland did not say he was an evil person. I asked her if he seemed to be good or evil. She said he just seemed like an ordinary workman and that doesn't mean he isn't. I think as we analyze this, we'll see that he has to be an evil figure.

Now he said he started working at the church in 1870 and he was born in 1840, so that means he started working, whatever the “working” means, maybe undermining. So he started working at the church when he was 30 years old. Now that would mirror of course Christ, because Jesus began his ministry at 30 years of age. I think that's the first indication that this is the Antichrist or the forces of the Antichrist.

Now he said he's been working in the church since 1870, so how many years ago was that? And Snowland mentions 2022. That's the year she had this dream, the current year. Well you subtract 1870 from 2022 and what do you get? And I worked this out with Snowland last night. Well 2022 minus 1870 equals 152 years. Now of course this is not a real workman who's 152 years old. This is symbolic. 152 is one year less than 153. 153 is Mary's Rosary number. It's another extremely important End Times prophetic number. It's the number of Hail Mary's and the fish that Peter catches in the miraculous draft of fishes for example.

So what is the significance of having a number one less than a perfect number? It's an evil number. In other words like 7 is a number for God. One less gives you 6, the number of Satan or mankind or evil in other words. 666 is the Antichrist number. It's the same way with the number 10 which is a good number, like the Ten Commandments. So you have 9/11 or 911. 9 is one less than the perfect number. 11 is one more than the perfect number, and so 9/11 is not a good number for example.

And so it's the same way with it here. 152 is another indication that he's been working for 152 years to undermine the church. Well we'll see what we mean by

undermine in a few minutes. That means that he's not using the Rosary, let's put it that way.

And now what is the significance of the year 1870? Well the year 1870; the only place I could think of that number is found in the prophecy of La Salette. And we find also here that this workman gives power to the church. What kind of power is he giving to the church? So let's look at the pertinent part of La Salette, which has to do with the year 1870. So let me find that slide for you.

So here is Our Lady of La Salette prophecy and this is the start of chapter number 5. If you've watched my series on La Salette, you know I have divided the La Salette prophecy up into seven chapters, so this is the start of chapter number 5 verse number 1.

### **Our Lady of La Salette Prophecy, Ch 5**

**1) This peace among men will not last long: 25 years of abundant harvests will make them forget that the sins of men are the cause of all woes which happen on earth (Franco-Prussian War 1870)."**

And the year in other words is 1870, because 25 years of abundant harvests from the time that Mélanie and Maximin receive their secret from the Blessed Mother was 1846, 25 years of harvests. It's not the same as 25 years, so you add 24 years to 1846 and you get 1870. That's the significance of 1870. In 1870 the Franco-Prussian war broke out and in verse number 2;

**2) "A precursor of the Antichrist ... (Bismarck?)"** and I suspect that may be Bismarck. And one of his quotes he says, **"(I have wished to crush Rome that I might crush Christianity.)"**

So is Bismarck the precursor of the Antichrist that Mary talks about in the prophecy of La Salette? When I did my video I suggested it could be Hitler, but I left it open to interpretation. I'm beginning to think now it may well have been out on this Bismarck, the chancellor of Germany. He was an evil person, He was very successful. He's considered a German hero, but he also had no use for the Catholic Church whatsoever. So, for him to be a precursor of the Antichrist makes sense and for him to be referenced in Snowland's dream I think is one more indication that this workman is the Antichrist. Okay, let's look at the next slide.

Snowland says:

**"We went to the engine. It was in the middle of the whole room. It was huge! Very big! The size of a medium tree but not that tall. The people looked up to see the old man put coals inside of the engine. I must admit I was amazed."**

And I talked with her last night and I asked her what she was amazed about. And she said she was **“amazed that an old style coal-fired engine was being used and then something went wrong, very wrong,”**

And it is kind of strange that this food market would be either heated by a coal fire. Of course this would be the winter time you know that this dream is taking place so it's possible but she says it was an engine for power. Now this could go along with the interpretation that the two to three second blackout was an EMP attack and that would indicate that they are using coal in this food market because that's all they have left. They don't have a regular engine for heating or for power and so for that interpretation this would fit.

Now I'm going to suggest that this symbolizes the fires of Hell, and I think that's true. I mean you see you see demons all shovelling coal into big furnaces, which symbolize the fires of Hell. That's my interpretation and that would fit with the old man being Satan or the Antichrist. So let's look at the next part of Snowland's dream.

**“My vision went red, a little yellow, but mostly red. A terrible sound hit my ears and my vision was moving weirdly. I had to get out. I yelled to the people to get out, but they didn't listen to me. It started to get hot. The lady that I came with started to run away. I stayed a little but when people started to get burns and started to yell in pain, I ran after the lady. Once outside, the building exploded. I told the lady, I have to call 911. She said, ‘Good luck with that.’“**

So I think Mary kind of gave a joke there, don't you? “Good luck with that”. Well that verifies to me that this is a spiritual situation. Of course 911 is pretty much useless anyway but in this case it has no use, because the fire is in the Catholic Church and it's a spiritual battle, so Mary says, don't waste your time calling 911. Notice that Snowland follows Mary out of the burning building and I think the message here is that Mary will lead us out of harm's way in these End Times. Okay let's look at the next to last slide here.

**“I looked at her for a moment. I grabbed her arm as we took off trying to get some help; any kind that we can get at this point. The snow had gotten so deep that we had to pick up our whole leg just to walk. We heard a woman talking. She was under white covers. I was stunned for a moment that she survived. She had a mattress on top of her. I removed it and she was on the phone with someone. She looked up to us with a terrified face and told us, she heard whispers in her ear, and she feels like someone is watching her and following her, but she doesn't see anyone behind her.”**

So now this other woman that Mary and Snowland run into, I believe, I think I said this before, she symbolizes the clueless laity. I suspect that she is calling 911 for help. Now Snowland is amazed that she survived this explosion but maybe that's

what the white cover symbolizes, that the woman is basically a good lady but she simply doesn't understand what's going on, and there's so many Catholics like that.

The snow getting deeper; I think that's pretty obvious that the Tribulation is getting worse and if this Tribulation period lasts three and a half years, obviously it's going to get deeper and deeper and deeper. The church suffering this explosion means that the church is not going to provide any protection, so what is Snowland going to do now in this dream? And to find that out, let's take a look at the next slide.

**“I told her to calm down. I walk to where we have to exit (the maze)”**; now this is the maze she wants to get out of now which is what's outside the church remember? **“only to be stopped by the shadow things again, but this time there were 5. I backed away and grabbed the two ladies arms to go to the main entrance. I told them to keep an eye behind us. We were stuck between what was no longer a building and five shadow people behind us.”**

And that is the end of Snowland's dream. So as you can see it is a fascinating dream. The number of figures went from four black ominous figures to five black ominous figures. So there is a passage of time here; the snow gets deeper, the time is going by, the Tribulation is going by.

Now in this case, I already told you what the 4 represents. That represents mankind, the four figures, so 5 normally represents the Rosary in prophecy but it can also refer to Heaven, and I couldn't think of any examples before the program but I know I have found that in prophecy, that 5 is a reference to Heaven. So why would Heaven be associated with these five black ominous figures? And I got to thinking, these two groups of figures the four black figures and the five black figures refer to the secret of Heaven and Earth that Jacinta warned about. Remember that?

She said there will be a secret of Heaven and a secret of Earth and the latter is terrifying. So the first secret, the first four figures represented the secret of Earth, that is mankind, and that's what the secret is that is terrifying. It probably refers to nuclear war, so that was blocking Snowland trying to find the entrance to the church. That's one of the things. The four black figures were preventing her, the maze was preventing her or hindering her, but now she has escaped the church which is burned down and she is also being hindered by five black figures. Well the secret of Heaven is God's punishment on Earth and that's what I think the five black figures represent. The comet for example, striking the earth, that would also produce a lot of black figures, and I think that's what it represents. The secret of Heaven is the five black figures. The secret of Earth is the four black figures.

Let me see now, so I think it's time for the conclusion and I would certainly be interested in what you think. Do you think that the food market being blown up, is that what it represents, the church in the End Times? That's what I think it does.

Does it represent America? I think you could make a case for that. Does it represent simply the food markets, the disruption of the food supply? In other words famine? I think it's very possible it represents all three of those things. A lot of apocalyptic prophecy has more than one meaning, and the conclusion is that we're not going to escape man's judgment or man's punishments or God's wrath without Mary's direction and which has been really Snowland's meaning of all of her visions, just like all apocalyptic prophecy that's really the meaning of all of it.

And what I'm going to ask is, do you think anybody is going to listen to Snowland's warning? Well how about my last video about the evil satanic logo coming out of the Vatican, the Jubilee 2025 logo? Did anybody pay any attention to my interpretation of this?

Did any of the Catholic sites on YouTube, I mean like Taylor Marshall or Return to Tradition or Mystic Post TV or Mother & Refuge of the End Times? None of them. Not that I know of. Wouldn't you think this would be considered an important exposition? So I'm warning all of you, my interpretations of Snowland's dream, Dana Coverstone's dream, my interpretation of Vatican logos, they get pittance as far as a number of views go. It's going to take the

horrible consequences that we see in Snowland's dream to happen and then, that's when a lot of Catholics will wake up

(Phone ringing)

Hi Snowland.

**Snowland: Hi William.**

WT: Okay now, I wasn't expecting you to call in, but you're more than welcome. Have you got any suggestions as far as my interpretation?

**SL: Your interpretation was awesome.**

WT: Oh thank you.

**SL: Yes, did the Holy Spirit guide you?**

WT: Oh I think so. You know I don't think I prayed this time. I usually do pray to the Holy Spirit. I always pray before my programs and that's why I wear my crucifix Snowland. I always wear crucifix when I do these programs because I want to be protected, so that I don't say the wrong thing. You know what I mean?

**SL: Yes. I see in the chat, somebody had a response. "Timing is everything. Shadow banning is real."**

WT: Oh yeah okay. I could do that. Do you want me to go through the comments here and see what they say because that's kind of interesting? Sam says that timing is everything. Shadow banning is real. Okay so maybe Sam is saying that the shadow figures represent shadow banning, because that happens to my videos all the time.

**SL: And it's also demonic.**

WT: Yes, the figures could be demonic. Certainly they blocked your way and you weren't afraid, you wanted to avoid them. You didn't say you were afraid of them but when you saw them, you had a bad feeling about them, right?

**SL: Yes, but I did have that feeling, but also when I saw them, the Blessed Mother was a little bit farther from me. She was like a couple of inches away from me when I spotted them. She would stop and I would continue on, and that's when I saw them. I forgot to add that. I just remembered.**

WT: Oh okay, but now what made you think that the woman was Mary who was with you?

**SL: I think that the fact that it's supposed to represent my sister, but this time my sister didn't have long hair. If you see her today, she doesn't have long hair, and I knew that she wanted me to think that she's my sister but I know my sister doesn't have long hair anymore, and I don't know, she felt so kind.**

WT: Mm-hmm, yes. You mentioned your sister and I noticed that your sister was not in your dream. Now very often Sayaku was with you in your dreams but I noticed she was not in this dream.

**SL: Yes.**

WT: So you had a kind of feeling that the woman who I think was Mary, she kind of was taking your sister's place. Now you're saying this person had long hair, right?

**SL: Yes**

WT: Okay.

**SL: She was very pretty.**

WT: Oh okay. I'm sure that she represents Mary. Let me see what else have we got here? Carolyn says, "Ask God for a continuation of this dream". Well I think the dream is complete. I think we know what we have to do. In other words we're in the Tribulation and the message is that we have to follow Mary, don't you think that's the message Snowland?

**SL: Yes and also I would like to know what happens in the end. I mean I was on a cliff-hanger. Behind me was a blown up building and of course in front of me were the evil shadows. I mean I don't know what would have happened next. I would have loved to finish it.**

WT: Oh I see, so you think there should be a resolution to it?

**SL: Yes.**

WT: Okay well maybe Carolyn is right. Maybe you should ask God for a continuation of the dream to find out. I don't think it's necessary. You're stuck between a rock and a hard place, but I mean that's the way it's going to be in our refuges. It's going to be this way. It's not going to be easy. The resolution is going to be the Millennium and this dream takes you right up to the Millennium. In other words the snow is getting deeper and deeper, and so I thought the ending was good the way it is snowing myself.

**SL: Oh and I did not know about the 1870 war.**

WT: Well yes, that occurred to me after I read over your dream. I said, where do we find that 1870 in prophecy? And then I realized it's in the prophecy of La Salette and it's where it's the end of the peace. There's 25 years of peace and she says at the end of the peace is 1870 which is the start of the Franco-Prussian war, a very famous war in Europe, and the leader of Germany was Otto Von Bismarck and he was an anti-Catholic and well you saw the quote, and I think one of the purposes of 1870 in your dream is to reference Bismarck as a precursor to the Antichrist so in other words, the same as this man in your dream.

Even though you didn't think he was evil I began to realize that he does represent evil and that he is the one that causes the explosion of the church and of course I interpreted the food market as being the church but it could be other things. It could represent food markets in the United States. It could represent the United States, so I think there are three possible interpretations.

**SL: Yes, there's a lot going on right now with the food industry.**

WT: Yes.

**SL: I have people that you know that specialize in this. They said it's really bad because if you look up shrinkflation. You should look up on that. Every time we buy, we're getting less for what we pay for.**

WT: Oh yes, I know what you mean, right. For example, for years mayonnaise jars, and I eat mayonnaise like it's the only way to put condiments on anything, mayonnaise jars always used to be 32 ounces, in other words two pounds. Well they

use the same size jar, but now if you see on the package it's 30 ounces. They don't put as much in. Of course that was quite a few years ago they did that, but that's the same idea. You're right Snowland. They are having shrinkflation. I don't think that's what your dream is about but, it could be. It could be partly that way. I don't know what the people are saying here in the chat. Maybe I should go read through these very quickly.

Roses for BVM says, "The big machine brings Cern to mind." Okay that could be. That big machine that you saw in your dream, that also reminds me of a Dana Coverstone's dream where he had the big machine. Do you remember that dream Snowland?

**SL: Yes**

WT: Right, it's similar to that I think.

**SL: Do you think that this machine is tied to Dana Coverstone?**

WT: You know I should have looked into that. I should have. I didn't do it before the program. I should have watched that decode over again. I'm not sure. It certainly sounds very similar doesn't it?

**SL: Yes, because a couple of days ago I think July 5<sup>th</sup> they just launched the big Cern the second one.**

WT: Uh-huh.

**SL: They just turned on the big Cern.**

WT: Okay well that's what Roses for BVM says. She says the big machine brings Cern to mind, so maybe that is what you're talking about.

**SL: Yes maybe it's going to blow up.**

WT: Well that's possible. It could blow up. I don't know if they would tell us that it happened but maybe that's what your dream is prophesying about. Well as I say I think there are quite a few interpretations Snowland, so thank you very much for it.

**SL: Thank you and everybody just get ready for winter and if your lights go out, do your very best to keep everybody warm.**

WT: [Laughter] Okay mom.

**SL: Thank you William. God bless you and good night.**

WT: God bless you too Snowland. Good night now. Bye.

**SL: Bye, bye. Thank you.**

Okay; Snowland checking in, helping with that interpretation. I always like talking with her and believe me it's unusual though, and by the way you people have an opportunity to interact with a seer. I mean that's a real gift that Snowland has. Well John Leary has the same kind of gift. He gets elocutions from the Lord and he's going to be here August 5<sup>th</sup> through 7<sup>th</sup> so if you want to join our pilgrimage, send an email to [WFRNPilgrimage@yahoo.com](mailto:WFRNPilgrimage@yahoo.com) and you'll get a hold of Sandra. She's in charge of this.

I will thank all of you for joining in on this program and I certainly appreciate especially having Snowland call in. I worked quite hard on this all day and I think I got it pretty well although very often afterwards I will look it over again and see that I've missed something, but I don't know if I've missed anything on this time or not, but I wouldn't be surprised. So keep me honest people, if you see if I have made a mistake, let me know.

Now don't forget, Sam will be back in one hour from now. He will be doing a livestream Rosary on DLive and then I will be back tomorrow morning on this same station at a different time, at 10 am Eastern time for a livestream Rosary. Until I do see all of you again, either tonight at Sam's program or tomorrow in my own Rosary program, may God bless all of you and may all of you have a very blessed evening.
