

Will Jade Helm 15 False Flag Start in May?

This program will be basically an alert, for you my subscribers especially, that this, Jade Helm 15 military operation may take place much sooner than they are advertising. Right now, they say it will begin July 15th, and extend through September 15th, but, the whole story of this Jade Helm operation is deception.

Are they deceiving us also, about the date? Will it begin much sooner? Will it begin, in fact, in this month of May?

And, one of the big things that tipped me off to this possibility, was the sudden closing of those 5 Wal-Mart stores. I really don't believe they had originally intended to give the employees only five hours notice. Something tells me that somebody made a phone call from the Pentagon, that they

had to evacuate those stores immediately, because they were needed for this Jade Helm 15 operation. And just about everybody understands that, the so called story that they needed plumbing repairs, was a big lie. And there's nobody in the media, who's going to question them on that. Thank goodness we have the internet, because otherwise the dumbed down sheeple would be dumbed down even further.

Secondly, I want to emphasize once again, that this Jade Helm 15 military operation is primarily a spiritual battle, as indicated by that logo. The crossed arrows represent Christianity. That invisible shoe in the center represents Mary and the church, and also the Holy Spirit. That sword coming up from the Master of the Human Domain, who is Satan, is attacking the church and Mary, the woman in Genesis and the woman in Revelation. He is going to strike at her heel. I am beginning to think that this Jade Helm military operation is a fulfillment of Bible prophecy. A fulfillment of Genesis 3:15. I hate to tell you people in the military you are fighting on the wrong side, because Mary is destined to crush the head of the serpent.

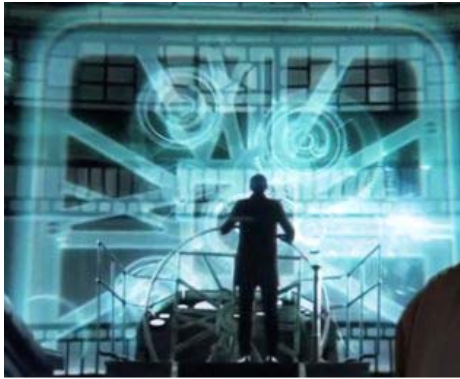

And thirdly, I want to talk about the Biblical numerology involved in this operation. I've been saying for many, many months now, here on YouTube, that the next major false flag would involve the number 815, and of course August 15th is exactly midway between the starting point of July 15th, and the ending point of September 15th, but, is Satan going to reverse those numbers? Is he going to change it from 8:15 to 5:18? In other words, May 18th? And that 15 number, especially is very significant, because that is also Mary's number in Scripture. Many times we see in Daniel, Ezekiel, Zachariah, the Olivet Discourse, that 666 is defeated by 555, and of course 15 can be represented as 5 + 5 + 5.

So now I want to remind you about two amazing television commercials, which verify the numerology and the significance of this Jade Helm 15 event. Maybe you remember that Cartier watch commercial?

And, the moment there was an explosion in the Cartier workshop, the clock was showing 8:15. Now that was not accidental. In that same Cartier watch commercial, we saw the Antichrist at the 6 o'clock position of a clock, and he was holding onto the helm of a ship.

At the time, I thought he was conducting an orchestra, if you remember, but, a lot of you, my subscribers, said "O, no, he is steering a ship." That is the connection between that Cartier watch commercial and this Jade Helm 15 operation. In that same Cartier watch commercial, we see this amazing scene of a leopard on the deck of a ship, in other words steering it

or he's at the helm, facing backwards, and of course in Bible prophecy, the leopard symbolizes Barack Obama and the United States.

Is Barack Obama at the helm all this Jade Helm operation, steering the United States backwards? I believe that's what this commercial is telling us. Just a couple days ago, I saw another amazing commercial, and this was from AARP, and Alex Jones did a

very interesting video on it, because, in the background a radio is playing and it is talking about the president declaring martial law. However Alex Jones in the other videos I saw, missed the reference to Jade Helm, because in this image, if you look at the far right, very faintly, you can see a lamp, and on the lamp is a helm, a steering helm from a ship.

That is not accidental. Both the martial law and the helm are found in that AARP commercial. That is very significant. It is not a coincidence.

So now let's review that Marian numerology. Of course 15 is obviously very important in this Jade Helm 15 operation. It starts on the 15th of July; it ends on September 15th, and right in the middle is August 15th and that happens to be a very important feast day of the Blessed Virgin Mary, the Assumption.

15=555>666

tells us that 666 will be defeated by 555. Is this Jade Helm operation an attempt by Satan to defeat 555?

is, very significant. Another of my subscribers pointed out to me, that the scheduled beginning of this operation on July 15th is exactly, 5,055 days after 911.

**9/11 plus
5055 days=
July 15, 2015**

we should look at that 815 date backwards also? In other words, 518 will be the actual start of this military operation, May 18th. Or, could it be May 13th? That's a Fatima feast day, very much like the Assumption is a feast day. Could it be May 21st? That would be exactly 5000 days after 911. I personally believe it could be as early as May 5th. That would be 55 or Cinco de Mayo.

I don't believe that is accidental either, and of course 15 can be expressed, as I said before as 5 + 5 + 5. And, there is a great deal of Bible prophecy, which

Now several of my subscribers have sent me some very interesting information. The Walmart closing of 5 stores was given on 5 hour notice, and as you can see from this sign, it affected 500 employees, at least at this plant. I believe that

None of this is accidental, people. This is all very important to our understanding of what is going on here. However, as I said before, this Jade Helm is all about deception. Could it be, that the backwards facing leopard, and the Antichrist facing backward, both at the helm, indicate that

Cinco de Mayo is a very important holiday in Mexico, and there's no doubt there is a Mexican connection. All of the states in this Jade Helm operation are either bordering on Mexico, or bordering on states, which border on Mexico. And, I want to show you one last image from that Cartier watch commercial.

Two watches were shown on their sides. At first I thought that indicated a time of 1:25. I now believe it is showing the numbers 5 after 5 on both watches. I believe that that is the significance, and I think it is indicating May 5th. So, in conclusion, please don't get too complacent. It is very possible, that this Jade Helm 15 operation is prophesied in Scripture, and it represents the serpent striking at the heel of the woman.
