

Mary's School of Prophecy Republican Train Crashes into Garbage Truck

Now today we have a very interesting program. We are going to talk about when that train carrying Republican congressman about a year and a half ago, following President Trump's State of the Union address, it crashed into a garbage truck under very unusual circumstances, and they have since then, discovered the cause of the crash. At the time I did several videos on it, but at that time the National Transportation Board had not made a decision as to the cause, but now we know what caused the crash.

And I think Q Anon had a weird theory I must admit for Q, and maybe he's right. He said that there was radio control involved and it was a plane crash. That could be. None of the Republicans were killed in the crash, although the train was badly damaged, and that will be our topic for tonight. I believe it was a very serious warning from Almighty God.

And a lot of people ask me, "Will the Great Warning come before a nuclear war?" And I don't believe so. I believe the Great Warning will be to warn mankind to stop nuclear war, and that's why Kim Clement said for example that Mary will convert the Protestants after great mourning, and of course he calls Mary, Esther. And then the Protestants will say, "Before we hated her but now we love her", but there has to be some kind of a horrible punishment like that, to wake people up, and that's why I don't think it's before the Great Warning. In other words God has given us enough warnings, and we'll talk about one of those warnings on this program, and it has been totally, totally ignored by the media, which is not surprising, but it's been totally ignored also by the church, both Catholic and Protestant.

We should stay say our prayer first and I overlooked this, and Catholic Crusader sent us this prayer to begin our lessons with, so let's pray this together. This is a prayer to Our Lady of All Nations. In the name of the Father, the Son and the Holy Spirit. Amen. Lord Jesus Christ, Son of the Father, send now Your Spirit over the earth. Let the Holy Spirit live in the hearts of all nations, that they may be preserved from degeneration, disaster and war. May the Lady of All Nations, the Blessed Virgin Mary be our Advocate. Amen.

Thanks for sending me that prayer Catholic Crusader, and please note that Our Lady calls herself the Lady of All Nations, plural. She is not a globalist unlike our current pretender to the papacy, Cardinal Wormwood.

So let's get right into it and I will show you the picture of this Republican train crash that I am talking about and give you a little background. After President Trump's State of the Union address, this was in 2018, he listed all of his accomplishments. He listed all of his fulfillments of his campaign promises in that State of the Union, with one exception. He did not talk about his promise to end funding of Planned Parenthood, and that's because he failed in that. Not that it was his fault. It was the Republicans in Congress that failed. For the previous two years, that is under the last two years of the Obama administration, they did vote to defund Planned Parenthood, but it was all phony baloney, because they knew that Obama would

veto their bills, so they could go home and brag to their constituents I'm pro-life. I voted to defund Planned Parenthood, but, when Donald Trump was elected, then they had a golden opportunity to defund Planned Parenthood, to carry through on their promises because then, their laws defunding Planned Parenthood would have been signed by Donald Trump, but no, no, then they refused to pass such a law. They did not defund Planned Parenthood, and I believe God gave us a sign in this crash.

Now whenever there is a State of the Union address, the Republicans go to a

retreat in West Virginia, and they go by train, and this is what happened to the train a year and a half ago. And this is what the front of the train looked like. It hit this garbage truck which caused it to derail, and I think one of the congressmen came out and took this picture, which got a lot of publicity of course as you can see.

And I did a video on it and I pointed out the number on this engine. Now that was not picked up of course in any of the media, nor was it picked up by any Christian, Catholic or Protestant person on YouTube.

I claimed in my videos that engine 145 was actually I 45, Isaiah 45, and that was a reference of course to Donald Trump. Donald Trump is going to defeat the One World Government and the One World Religion. So I'm not sure

if God is telling us that Donald Trump's plans were thwarted by the Republicans or that Donald Trump is protecting the Republicans and as he protects them, he is being injured publicly. I'm not sure, but definitely this is a warning from Almighty God.

Now the garbage truck that the train smashed into is also very interesting and it's very significant. So let's take a look at the garbage truck.

It's called "Time Disposal". Have you ever heard of a garbage truck called Time Disposal?

That is not an accident. The time refers to the end of time. It's even got a little clock on the side over there, Time Disposal.

So now I want to show you what the crash looked like, the train, the truck and all the garbage. On the upper right you can see and in the background you can see the train which carried all the congressmen, all the Republicans. And as you can see, the train did a real number on the truck. It spewed the garbage out

all over, and as far as I'm concerned, the Lord is telling us that He's relating the Republicans who refuse to defund Planned Parenthood with garbage. That is what came out of the Republican Congress. All of the other things that President Trump fulfilled of his campaign promises, the most important one was making an attempt to stop abortion. That was not passed, and Almighty God was giving a commentary.

And now here's a close-up of the garbage truck, and you can see on the side of the truck you see the word, "Time Disposal". So that's my interpretation of the Republican train crashing into the garbage truck, and it was a commentary on the Republicans failure to carry out what Donald Trump's most important campaign promise was, and I believe as a result, they lost the midterms because they were not carrying through on their promises. And a lot of people say, you know we might as well elect Democrats, if the Republicans aren't going to carry out their mandate.

So now I would be interested in your commentary on this crash. As I say Almighty God is warning us, and people aren't paying attention. Certainly nobody in the media covered that story as an Isaiah 45 train, but what bothers me is that no one on YouTube did either. I was the only one. Nobody mentioned Isaiah 45. There have been many programs on YouTube talking about President Trump fulfilling

Isaiah 45, but I'm not aware that anyone showed that amazing prophecy of the train with Isaiah 45 being smashed into it.

Let me read to you what caused the crash. This was a news article, I think in March of this year. The National Transportation Board finally determined what caused the crash. Would anybody like to take a guess? I will let you take a guess, but I will read this article, and about 2/3 of the way down we discovered what caused the crash.

The [report](#) from the National Transportation Safety Board says, "The truck driver who crashed into an Amtrak train, 31 years old, caused the accident when he decided to swerve around the railroad track's lowered gates causing the 2018 accident. The report said the marijuana in Naylor's system caused 'indecision when he encountered obstacles while trying to cross the tracks as he decided to bypass the safety gates.

Naylor stopped his trash truck on the tracks between the two closed gates. The train was traveling more than 60 miles an hour when its engineer hit the emergency brake, but the train hit the truck and derailed." I think that symbolizes the derailment of Donald Trump's campaign promise. "The crash threw Naylor and a passenger from the truck and split the truck's cab from its body and the train." And we saw pictures of that. 'The truck drivers lack of response after stopping the truck and being positioned between two obstacles for several seconds is an example of slow decision-making', the report said.

Several GOP lawmakers were aboard the Amtrak train from Union Station in Washington D.C., to rural West Virginia for their annual congressional retreat in January 2018." That's almost two years ago now. "The train hit Naylor's truck near Charlottesville, about halfway through the trip.

Naylor was found not guilty last month on charges of involuntary manslaughter and maiming under the influence related to the crash. Christopher Foley 28, who was in the garbage truck with Naylor at the time of the collision died in the crash."

And what is the significance of his name? Christopher means Christ bearer and the Christ bearer died in the crash. I think that's significant also. Almighty God was giving us a warning. Nobody paid attention. That's why I'm telling you get prepared for World War 3 now. Don't wait for the great warning. If the great warning came **before** a nuclear war, then everybody could say, well we can take it easy, we don't have to prepare. We haven't had the great warning yet. I'm telling you right now, nuclear war is going to occur before the great warning.

This was very encouraging that the Supreme Court upholding that Kentucky law requiring women contemplating an abortion, that they had to see a picture of an ultrasound of what a baby looks like in the womb, and the doctor had to let them hear their own baby's heart beating. And experience has shown in pregnancy, that many women, when they hear their own baby's heart beating, that that turns them away from abortion immediately. They immediately bond with their child, and that's why Planned Parenthood and the ACLU fought against that bill so much. They

don't want women to know what an abortion really is, but, the Supreme Court, they allowed the Lower Court's ruling to let that law stand. Kentucky would probably be a good state to live in, because there's only one abortion clinic in the entire state.

Now in the state I am in now which bothers me a great deal, just about every city has abortion clinics, and of course in New York City, through Andrew Cuomo, is trying to be the abortion capital of the country. They can be competing with California for that title.

Okay everybody I think we are at the end of our program. May God bless all of you, and may all of you have a very blessed day.
