

## Diocese Promotes Evil with Sexual & Satanic Logo

On this program I want to once again talk about an evil, satanic and sexual logo emanating from the Roman Catholic Church. And I'm not happy to expose these people because I am a practicing Roman Catholic myself, although I fully understand that in these End Times I will have to leave the Church and join the remnant Catholic Church; and that's because, as Mary prophesied at La Salette, ***'Rome will lose the faith and become the seat of the Antichrist'***.

Now, I learned about this satanic evil and sexual logo from a series of programs by Michael Voris on his Vortex program; and he did a series of reports all this week from the Los Angeles Anaheim Convention Center about their religious education Congress which he called a 'wreck' and of course it was! So Michael Voris, could you give us a little update of what this Congress was all about?

***'I'm Michael Voris coming to you from the Los Angeles archdiocese religious education Congress noted for hosting dissenting and disobedient voices every year. Faithful Catholics have a real and serious concern of what happens here every year at the Congress. It's predominantly aimed at teachers and catechists and that's part of the problem, a huge problem. There are***

***close to 250 workshops over a three-day weekend and very few of them present anything of authentic Catholicism and many of them actually present distorted and dissenting views of the authentic faith. And largely those distorted presentations are about the Church's sexual morality, denying and perverting the actual teaching by clever presenters who twist just enough Scripture and tradition to make unaware Catholics begin to doubt the teaching.'***

It's interesting that the sexual perversion Michael Voris discovered at this religious education conference sponsored by the Archdiocese of Los Angeles is reflected in their official logo and before we take a closer look at this, let's take a look at the inside of the Anaheim Convention Center. As you can see this was a huge Congress of

Catholic educators in the Los Angeles area and if you take a closer look you notice up in the right and left hand corners, is a very prominent display of their official logo.

Now I'm not sure what that crazy artwork is in the center; the Catholic Church used to be one of the greatest sponsors of art and, of course, all we get now, since the Catholic Church has been taken over, is stupid, idiotic and evil logos like this logo, which, as you could see, was prominently displayed.

So let's break this down; this is basically an image of Hathor, the cow goddess, and we have seen many many examples of this type of logo: it really is an expression of the One World Religion, it is a perversion of the Divine Trinity, as you my subscribers should be able to recognize by now; and the elements are all the same.

We have seen these before, and I've done a whole series of programs on this type of perverted image. Notice that there are two crescents, a larger one and a smaller one. Although, most of these logos are symmetrical, this is the first one I've noticed that is quite off-center. Still, the two crescents are actually two horns; they are masculine symbols. The circle in the center is a feminine symbol and, of course, the two horns are meant to symbolize God the

Father and God the Son, the circle in the center is supposed to symbolize the Holy Spirit, and all this is in perverted, sexual terms. Thus, it is a perversion of the true cross. The true cross is a true image of the Divine Trinity. That's because the horizontal piece represents

God the Father, the vertical piece of the cross represents God the Son, and the hidden center piece, from front to back, symbolizes God the Holy Spirit. A very subtle and meaningful symbol, the cross is the greatest symbol that exists in the universe. So, just as the religious education Congress sponsored by the Los Angeles archdiocese promoted sexual perversion for these poor educators who are seduced by the leaders of the church, as reported on by Michael Voris, that same perversion is found in the official logo. And this is the type of logo we've been seeing for the last four or five years at least. And I am NOT happy about it but this is what we can expect from a church that is being trodden under by the Gentiles or, as Pope Paul VI said: **'the smoke of satan has entered into the Catholic Church'**.
